

## Getting Started - Vizzle Essentials

---

### Watch our quick Vizzle tour of the latest version.

[What's New in Vizzle](#) video (updated June 2022)

[Vizzle Updates](#) video (July 2022)

### Step 1: Build/Adjust your student roster in Vizzle.

- From the main menu within Vizzle, click "Classroom"
- Then, from the toolbar, select "Student Management"
  - Remove students from your roster by clicking on the red "X"
  - First, add existing student profiles from your building by clicking the "Add Student" button and then the green "+" next to their name.
  - Only if a student is new to the district or is new to using Vizzle and does not have an existing Vizzle student profile, click the "Create Student" button to create a new student profile. To prevent creating duplicate profiles for a student, please check your roster and the add student list first. NOTE: This button is disabled for districts rostering through Clever. Please contact your administrator to have the student added.
  - If the "add student button" is disabled, contact our support team through the in-app chat for help.

### Step 2: Personalize your students' Vizzle learning environment.

- [Student Settings](#) "How-to" video
- Some settings can be managed for all students under "My Classroom" (jump to 7:35 in the video to see how to use this option).

### Step 3: Assign lessons from our K-12 tiered curriculum or library.

#### Vizzle's Curriculum Resources

- [Vizzle's K-12 Tiered Curriculum](#) video - Easy-to-use K-12 curriculum with unit guides, lesson plans, and tiered activities that can quickly be assigned for groups and independent work. Assessments and automatic data collection monitors and tracks progress.

#### Search Library to Assign Lessons to your Students.

- [Search, Assign, and Tag Lessons](#) "How-to" video

#### Vizzle's Lesson Leveling Descriptions

- [Leveling Example](#) pdf

### Step 4: View and filter student data.

- [Data Options](#) "How-to" video
- [Progress Reporting with Confidence](#) "How-to" video
- [Student Response Details](#) "How-to" video

### Send home a parent letter with instructions on student login.

- [Parent letter](#) (English and Spanish versions)
