

Need to know how much a trip to the ER, an MRI, or a therapy appointment will cost? Want help finding an in-network provider? Personal Health Guides (PHG) can help you with these questions and more.

As part of your TRS-ActiveCare coverage, you have access to PHGs at no extra cost, anytime, day or night. Call **1-866-355-5999** or chat through the **BCBSTX App**. The App is available in the **Apple App Store** and **Google Play Store**.

**PHGs are part health advocates, part personal assistants.** They're available around the clock to answer any questions you have about using your health plan and help you make the most of your coverage. So, you can connect with a PHG to:

- get information about your medical and prescription drug benefits
- find an in-network doctor, therapist, or facility
- get details about claims
- schedule an appointment with a provider
- · get cost estimates
- receive necessary prior authorizations
- get help with transition of care
- and more
