

The Plano ISD website address for the Course Catalog is as follows: https://www.pisd.edu/coursecatalogs. The website contains the current year, including any revisions after printing, as well as previous years for student / parent reference.

It is the policy of Plano ISD not to discriminate on the basis of race, color, national origin, sex or handicap in its vocational programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Educational Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended. Plano ISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs. Plano ISD will take steps to ensure cost will not prevent access to programs.

## Course Catalog Revisions

Any revision made to the 2019-2020 Course Catalog after the initial printing will be listed here.

## Revised:

- March 18, 2019 - Added updated Grade Point Average (GPA) Chart; page 8
- January 22, 2020 - Added EIC (EXHIBIT) information; pages 8-12
- February 13, 2020 - Updated EIC (EXHIBIT); pages 9-12

Plano Independent School District offers a strong foundation for a lifetime of learning, providing opportunities for all students to experience success beyond graduation. This high school course catalog has been prepared to assist students in making wise decisions concerning programs and course choices during their secondary years.

Parents and students are urged to review carefully the information contained in this catalog and to work closely with school counselors to develop four-year, state-recommended educational plans. To assist in the planning process, the catalog includes a description of each course and its requirements in the secondary program.

With careful and thoughtful planning, along with strong communication with teachers, counselors, administrative staff and parents, students will be well on their way to achieving success in a Plano ISD secondary school.

| Below 70 | 0 | 0 | 0 | 0 | 0 |

* EIC (EXHIBIT) for identified courses and grade points.

## Cumulative GPA

- All students receive a Cumulative GPA.
- To calculate a Cumulative GPA, include final semester grades from all credit earning courses.

## Ranking GPA

- The Ranking GPA is internally calculated solely for the purpose of determining the top $10 \%$ of a graduating class.
- The Ranking GPA will only be calculated and available for those students who are in the top $10 \%$ of their graduating class.
- The Ranking GPA will be calculated for the first time during the fall of a student's $11^{\text {th }}$ grade year.

Note: $\quad$ The following shall apply to students beginning with the graduating class of 2023.

## COURSE WEIGHT DESIGNATIONS

AP Environmental Science or IB Environmental Systems SL
Environmental Systems
Earth and Space Science
Anatomy and Physiology
Engineering Science
Food Science
Forensic Science
Engineering Design/Prob Solving
*AP Physics C is a one-year course consisting of two separate semester courses (AP Physics C Mechanics and AP Physics C Electricity and Magnetism)
**AP Physics $1 / 2$ is a one year-course consisting of two separate semester courses (AP Physics 1 and AP Physics 2)

## College/Career Preparation Timeline

## Grades

Grades 6-7
Grade 8

Grade 9

Grade 10

Grade 11

Grade 12

## Goals and Objectives

Begin to investigate college/career goals and objectives.
Continue to investigate college and career information in order to choose an endorsement pathway in high school. Become aware of the high school graduation plans and available endorsements. Attend an academic conference with parent/s and a middle school counselor in order to create a four-year high school plan and select $9^{\text {th }}$ grade courses. Attend campus meetings regarding academic planning.
Review career goals and objectives and continue to research colleges and careers of interest. Review academic four-year plan and begin building a high school transcript. Attend evening meetings on your campus regarding post-secondary planning and college admission.

Review career goals and objectives and continue to research colleges and careers of interest. Review academic four-year plan. Participate in an individual academic conference with parent/s and a high school counselor to determine $11^{\text {th }}$ grade courses. Begin researching scholarships and financial aid. Attend evening meetings on your campus regarding postsecondary planning and college admission. Take the PSAT ${ }^{\text {TM }} 10$ in October. Find free test review materials at https://www.khanacademy.org

Review academic plans and narrow college and career choices. Participate in an individual academic conference with parent/s and a senior high school counselor to determine $12^{\text {th }}$ grade courses and to discuss post-graduation plans. Attend College Nights in September. Take the PSAT/NMSQT ${ }^{\circledR}$ in October (National Merit Scholarship Qualifying Test). Take the SAT ${ }^{\oplus}$ and/or $A C T{ }^{\circledR}$ in the spring. Find free test review materials at
https://www.khanacademy.org
Explore scholarship opportunities.
Review post-secondary options. Confer with counselor in early fall. Attend College Nights in September. Take the SAT ${ }^{\circledR}$ and/or ACT ${ }^{\circledR}$ in early fall if needed. Be mindful of deadlines for college admission applications, housing applications and university scholarship applications. Attend financial aid programs and begin the financial aid process in October. Submit scholarship applications throughout the school year.

NAVIANCE STUDENT: A web-based tool, Naviance provides students and parents with up to date information on college and career opportunities. All students receive an access code and complete assigned tasks in each grade 6-12. Naviance provides extensive college and career search tools and assessments, a resume builder, goal setting tools and a course planner. Through their Naviance Student account, students may develop and maintain a four-year high school plan, request letters of recommendation, manage college applications, access scholarship information, and complete tasks that will enhance the college and career preparation experience.

## High School Program

## Acceleration/Credit by Exam

Students may request to take credit by exam for acceleration. In the areas of English, math, science, social studies, or languages other than English, students who choose to accelerate beyond the course offerings available at a campus may be granted access to the next course in the typical sequence depending on course availability. There is no guarantee that the next course in the sequence will be available at either the home campus or another campus, and no transportation or scheduling solutions are guaranteed. Access to courses beyond the typical sequence is granted only for the next course in the sequence.
Students earning course credit through Credit by Exam (CBE) will be scheduled into the next course in the sequence the following year. Because students cannot be scheduled into a course for which they have already earned credit, a schedule change "back" to the course for which the student earned credit via CBE is not permitted. Students who encounter academic struggles in the next course in the sequence should meet with their teachers for additional support.

See the school counselor for more information. More information on credit by exam can be found at https://www.pisd.edu/cbe

## Advanced Placement Program ${ }^{\circledR}$

The Advanced Placement (AP) Program of the College Board ${ }^{\circledR}$ enables students to complete college-level studies at Plano East Senior High, Plano Senior High and Plano West Senior High Schools. A limited number of advanced placement courses may be offered on the high school campuses. This "academic bridge" helps smooth the transition from high school to college. The primary goals of the AP Program are to enrich the secondary school experience of students ready to apply themselves to college-level courses and to provide the means by which colleges may grant credit or placement, or both, to students with satisfactory $\mathrm{AP}^{\circledR}$ test scores. Students interested in taking these courses are required to meet with their school counselor to review course options as well as the impact the course(s) may have on college degree plans. In addition, before students may withdraw from an honors or other advanced level course, they must have time to understand the course's related concepts and skills, and teachers must have an opportunity to help students grow into the course expectations. Students enrolled in advanced courses requesting a course withdrawal must complete an "Advanced Course Withdrawal" form provided by their counselor.

## Consumable Supply Fee

These fees are charged to students participating in specific classes and activities for consumable supplies that an individual student will use throughout the school year as part of their daily instruction.

## Correspondence Courses, Night School, and Summer School

Credits for high school graduation may not be earned until after the $8^{\text {th }}$ grade year through Correspondence (courses are accepted from Texas Tech University and University of Texas at Austin), Night School, or Summer School courses. Grade points are awarded for Night School and Summer School. Grade points will not be awarded for Correspondence Courses. Students taking correspondence courses, night school, and/or summer school will take the STAAR EOC assessments required for graduation. Please see page 3 for a listing of these assessments.

## Course Average

According to district policy, EI (LOCAL);
Semester credit for full year courses: with the exception of high school credit courses taken in middle school, if a student earns credit for one semester of a one-credit course by earning a grade of 70 or above but fails to earn a grade of 70 or above for the other semester, the 0.5 credit earned shall not be deducted.
Awarding credit through averaging: with the exception of high school credit courses taken in middle school, a student may be awarded credit for a full year course by either earning a grade of 70 or above in both semesters or by earning a grade of 70 or above when both semester grades are averaged together. Averaging of the two semesters may only be applied the first time a student takes each semester of the course.

## Dual Credit Courses

Plano ISD has a dual credit agreement with Collin College, which allows students to earn both high school and college credit for a particular course. Dual credit courses are currently offered in English Language Arts, Mathematics, Science, and Social Studies. Students interested in taking these courses are required to meet with their school counselor to review course options as well as the impact the course(s) may have on college degree plans.

## Elective Courses

In addition to these required courses, students may choose other courses to complete their schedules. The number of elective courses that students may choose varies from year to year.

## eSchool

Students may earn a total of three credits through correspondence and/or eSchool online courses. More information can be found in this course catalog and/or accessed on the website at https://www.pisd.edu/eschool. Currently enrolled Plano ISD students must follow the approval process for these courses through their school counselor. Credits for high school graduation may not be earned until after the $8^{\text {th }}$ grade year. Grade points will not be awarded for eSchool courses.

## Honors Courses

A differentiated honors curriculum includes a wider range and greater depth of subject matter than that of an on-level course. Emphasis is placed on higher level and critical thinking skills, on creative, productive thinking and on independent guided research. Before students may withdraw from an honors or other advanced level course, they must have time to understand the course's related concepts and skills, and teachers must have an opportunity to help students grow into the course expectations. Students enrolled in advanced courses requesting a course withdrawal must complete an "Advanced Course Withdrawal" form provided by their counselor.

## International Honors/International Baccalaureate (Grades 9-10)

The International Honors (IH) program is a locally developed series of courses taken in the $9^{\text {th }}$ and $10^{\text {th }}$ grade years and is designed to prepare students for the challenges of the International Baccalaureate (IB) Full-Diploma Program. IB is an internationally recognized, comprehensive two-year study taken in the $11^{\text {th }}$ and $12^{\text {th }}$ grade years. Please refer to the following link for detailed information: http://ib.pisd.edu/.

## Local/No State Credit Courses

Some locally developed courses are approved by the Board of Trustees and may be designated for credit or for no credit. No credit courses do not count toward state graduation requirements and cannot be used to fulfill the minimum number of credits on any graduation plan. No credit courses are not included in the calculation of the Cumulative Grade Point Average (GPA). Review Policy EIC(Local) for a list of classes not included in the Cumulative GPA.

## Promotion Policy

Promotion guidelines for students are as follows:

1. From the ninth grade, a student must have acquired six credits.
2. From the tenth grade, a student must have acquired 13 credits, including two credits of English (English I and English II) and one credit of Algebra I, one credit of Geometry, one credit of Biology, and one credit of social studies (World Geography or World History).
3. From the $11^{\text {th }}$ grade, a student must have acquired 19 credits.

## Required Courses

These courses are required to fulfill state educational guidelines. A course may or may not have a prerequisite; a perquisite is a course that must be taken prior to the course under consideration.

## Textbooks

Each student is responsible for his/her textbooks issued by their school and is responsible for payment for lost and/or damaged textbooks occurring in the school year. No textbooks are distributed from the campuses for the following: Credit by Exam, correspondence courses, eSchool courses and concurrent enrollment courses.

## Programs

## Athletic Program

The Plano ISD offers a wide range of University Interscholastic League competitive sports in which the students may participate. (Some activities will require tryouts to select team members.) In order to participate or compete in a UIL sport, the sport must be reflected on the student's class schedule.

## Completion of a medical history/physical examination is required prior to tryouts/participation. Additional parent permission forms are required prior to participation.

 Students must meet state mandated academic and attendance requirements to be eligible to participate in extracurricular activities.| Boys' Sports | Girls' Sports |

## Your Responsibility as a Prospective Student Athlete

If you are planning to enroll in college as a freshman and you wish to participate in Division I or Division II athletics, you must be registered and certified by the NCAA Eligibility Center after completion of the student's junior year. The Eligibility Center was established as a separate organization by the NCAA member institutions in January 1993 and ensures consistent interpretation of NCAA initial eligibility requirements for all prospective student athletes at all member institutions. Credit by Exam will not count towards NCAA eligibility requirements. See the website site at www.ncaaeligibilitycenter.org for more information.
AVID ${ }^{\circledR}$ Program (Advancement Via Individual Determination)
The AVID ${ }^{\circledR}$ course is designed to prepare students for success in postsecondary education. AVID I, II, III and IV provide support and skill development in areas specifically aligned with success in rigorous courses in the content areas. A recommendation, application and interview are required. Students must be accepted into the AVID ${ }^{\circledR}$ program.

## Cheerleading Program

Tryouts for cheerleading are held during the spring semester of the preceding year. All students must meet the criteria set up by the PISD guidelines. Interested students should contact the individual school campus cheerleading sponsor/coach, as tryout packets are available as early as February. Tryouts are conducted during the $3^{\text {rd }}$ nine weeks grading period if possible. For district cheerleader guidelines see https://www.pisd.edu/Page/6468

## Drill Team Program

Tryouts for drill team are held during the spring semester of the preceding year. All students must meet the criteria set up by the PISD guidelines. Interested students should contact the individual school campus drill team director. Tryout packets for drill team are available as early as January. Tryouts are usually held during the $3^{\text {rd }}$ nine weeks grading period. For district drill team operational and tryout guidelines see https://www.pisd.edu/Page/6468

## English as a Second Language (ESL)

ESL classes, which focus on intensive development of listening, speaking, reading, and writing skills in English, are offered to English Language learners. Placement into ESL classes will be commensurate to the student's English Language proficiency level. The ESL program shall be an integral part of the regular educational program and students who participate in this program are also eligible to participate in all other courses upon meeting each course requirement. State-adopted English as a second language instructional materials and supplementary materials are used as curriculum tools. This program is aligned with the district's general education literacy program.

## Gifted and Talented Program

Gifted and talented services are provided for each student who meets eligibility requirements. The high school gifted student is served through the PACE Humanities I and II, honors, IH, American Studies, American Principles, advanced placement and International Baccalaureate courses. In addition, specific subject honors courses and fine arts electives provide challenge and enrichment for these students. Presentation and research projects are important components of all PACE classes.

## Junior ROTC

The mission statement of The United States Army Junior Reserve Officers' Corps (JROTC) is "To Motivate Young People to be Better Citizens". The program is designed to teach high school students character education, student achievement, wellness, leadership, and diversity. The JROTC program provides extracurricular opportunities for local, state and national competition in the following categories: color guard, unarmed drill, armed drill, physical fitness, academic, leadership, and air rifle. Through these teams, the students have the opportunity to earn a varsity letter jacket. There is NO military service requirement for participating in JROTC. Enrollment in four years of JROTC may earn the Public Services Endorsement.

## Section 504

Section 504 refers to Section 504 of the Rehabilitation Act of 1973. This federal law prohibits discrimination against disabled persons who may participate in, or receive benefits from, programs receiving federal financial assistance. Section 504 ensures that eligible students with a disability receive equal access to services that are provided to students without a disability, and it provides protection from discrimination due to the disability. Each Plano ISD campus has a 504 coordinator who has been designated by the principal as facilitator for that campus.

## Special Education Services Program

Special education services are provided for each student who meets eligibility requirements. Consideration of a student's eligibility for special education services is initiated by a referral to the Campus Monitoring and Intervention Team, which may be requested by parents, school personnel or outside agencies. Parental consent is required prior to assessment, and again, prior to placement in special education.
Components of the special education process include:

- Determining whether a student meets special education eligibility through formal assessment, data collection and determination of educational need
- Preparing an Individualized Education Program (IEP) for each student based on needs, if eligibility is determined
- Implementing the IEP in the least restrictive environment
- Annually evaluating the student's progress and developing the IEP to address the student's needs

Special Education services are provided under state and federal guidelines. Special Education offers specially designed instruction and a full continuum of services to meet a variety of student needs. Programs range from fully self-contained learning environments to support in general education classrooms. A student's graduation plan, developed by the ARD/IEP Committee, determines how the student will meet credit and curriculum requirements of the state and district for graduation.

## Physical Education Equivalent (Substitutions)

One credit of physical education is required for graduation by the state of Texas; however, a student may earn up to 4 credits of PE toward graduation.

In addition to the regular physical education courses, there are several ways to accumulate this credit:

#### Abstract

Athletics - A student who successfully completes athletics receives physical education equivalent credit for each semester of athletics. Eight semesters of athletics or 4 credits may count toward state graduation requirements.

Cheerleading - A student who successfully completes cheerleading both fall and spring semesters will receive 1 credit of substitution toward the physical education state graduation requirement. The next year's credit for cheerleading will be awarded through enrollment in gymnastics. For students interested in participating in a U.I.L. sport simultaneously, please see your school counselor for clarification.

Drill Team - A student who successfully completes drill team both fall and spring semesters will receive 1 credit of substitution toward the physical education state graduation requirement. The next year's credit for drill team will be awarded through enrollment in Dance for PE or Fine Arts credit.

Junior ROTC - A student who successfully completes JROTC may receive a substitution for the state PE requirement (1 credit) through participation in two semesters of the JROTC.

Marching Band - A student who successfully completes marching band during the FALL semester may receive a PE substitution of .5 credit of the state physical education requirements, up to 1 credit.

Off-Campus PE - The purpose of the Off-Campus Physical Education Program is to accommodate students who are making a serious effort to develop high-level capabilities and to allow those students to be involved in a program that provides training exceeding that offered in the school district. The student is taking this course for physical education credit and he/she may not be enrolled in athletics while participating in the Off-Campus Physical Education Program. A maximum of 4 credits can be earned towards state high school graduation requirements. A student interested in this program should contact his/her school counselor for the application, guidelines, and enrollment dates concerning offcampus physical education.

Off-campus physical education currently considers the following activities: archery, art skating, badminton, dance, equestrian, fencing, gymnastics, ice hockey, ice skating, lacrosse, martial arts, golf*, rock climbing, rowing, squash, swimming, tennis, track cycling and table tennis. There is a fee for participation in the off-campus physical education program. The student must participate in his/her activity, under professional supervision, a minimum of 10 hours each week for Category 2 (cannot leave campus) or a minimum of 15 hours for Category 1 (can arrive to campus one class period late or leave campus one class period early) at one approved agency. The student must participate in the sport at least a minimum of four (4) days during the week (Monday through Friday) plus one (1) additional day that may fall on either the weekend or during the week for a total of five (5) days per week. *Please contact OCPE program coordinator for information.

Advanced Classes Identified for No-Pass, No-Play Exemption<br>Texas Education Agency/University Interscholastic League Academic Requirements (No Pass, No Play)

A student who receives, at the end of any six weeks or nine week grading period, a grade below 70 in any academic class (other than an identified advanced class) may not participate in extracurricular activities for at least three school weeks. An ineligible student may practice or rehearse, however. The student regains eligibility when the principal and teachers determine that he or she has: (1) earned a passing grade (70 or above) in all academic classes and (2) completed the three school weeks of ineligibility.

All students are eligible during a school holiday of a full calendar week or more. When the bell rings to dismiss students for the December holidays, all students are eligible until classes resume in January. The same is true for the summer recess and spring break provided those breaks consist of at least a full calendar week.

The 80 ${ }^{\text {th }}$ Texas Legislative Session passed SB 1517 in May, 2007, which amends Section 33.081 of the Education Code restricting the courses that are now considered waivable. Senate Bill 1517 defines that the exemption only "applies to an advanced placement or international baccalaureate course, or to an honors or dual credit course in the subject areas of English language arts, mathematics, science, social studies, economics, or a language other than English." Please see the newly defined list of waivable courses below.

Middle School Waivable Courses

| English Language Arts <br> English Language Arts Grade 7 Honors <br> English Language Arts Grade 8 Honors | Science <br> Science Grade 7 Honors <br> Science Grade 8 Honors |
| :--- | :---: |
| Mathematics <br> Math Grade 6 Honors <br> Math Grade 7 Honors <br> Algebra I Honors | Languages Other than English <br> Spanish III Honors |
| Social Studies <br> PACE Social Studies Grades 6, 7, 8 |  |

## High School/Senior High School Waivable Courses

| Advanced Placement Courses All | International Baccalaureate Courses Includes all IB courses. Also includes IH courses in English, mathematics, science, social studies, economics, or a language other than English. |
| :---: | :---: |
| English Language Arts <br> English I Honors English II Honors English III Honors English IV Honors | Science <br> Biology Honors <br> Chemistry Honors <br> Physics Honors <br> Scientific Research and Design Honors |
| Mathematics <br> Algebra I Honors Algebra II Honors Geometry Honors Pre-Calculus Pre-Calculus Honors | Social Studies <br> Sociology Honors <br> World History Honors <br> World Geography Honors |
| Languages Other Than English Chinese <br> - Chinese III Honors French <br> - French III Honors <br> - French V Honors | Gifted and Talented <br> Humanities I English I GT <br> Humanities II World History AP GT <br> American Studies <br> American Principles <br> The Human Experience |
| German <br> - German III Honors Spanish <br> - Spanish III Honors | Dual Credit <br> Any dual credit course in English, mathematics, science, social studies, economics, or a language other than English. |

## Advanced Placement Program ${ }^{\circledR}$

## What is $\mathrm{AP}^{\circledR}$ ?

The Advanced Placement Program of the College Board ${ }^{\circledR}$ enables students to complete college-level studies at Plano East Senior High, Plano Senior High and Plano West High Schools. A limited number of Advanced Placement ${ }^{\circledR}$ courses may be offered on the high school campuses. The primary goal of the Advanced Placement Program ${ }^{\circledR}$ is to extend the challenges of the secondary school experience to prepare students for a wide variety of post-secondary experience including, but not limited to, attendance at colleges and universities. Students with satisfactory $A P^{\circledR}$ test scores may earn college credit. For more information on the Advanced Placement Program ${ }^{\circledR}$ please visit their website at:
https://apstudent.collegeboard.org/exploreap/what-it-takes/student-voices

## Benefits of $\mathrm{AP}^{\text {® }}$

The benefits of the Advanced Placement Program ${ }^{\circledR}$ extend beyond students receiving college credit, placement, or both for exam performance. AP ${ }^{\circledR}$ encourages critical and creative thought and fine-tunes analytical skills. It stretches students' reasoning ability. Students will experience depth and complexity in subject areas while also acquiring time management and study skills.

## Enrolling in AP ${ }^{\circledR}$ Classes

Students entering high school need to plan with their counselors to determine which $\mathrm{AP}^{\circledR}$ courses would most benefit their long term academic goals. Most $A P^{\circledR}$ courses are one hour in length, the exceptions being AP Studio Art, AP Biology and AP Chemistry which require two-hour blocks of time. All AP ${ }^{\oplus}$ courses earn advanced placement grade points.

Students pay an $\mathrm{AP}^{\circledR}$ Examination fee per test; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. Please note: students taking an $A P^{\circledR}$ course are encouraged but not required to take the exam.

Highly qualified teachers who have received advanced training through AP ${ }^{\circledR}$ workshops, conferences and university coursework teach these courses.

| Plano ISD offers the following AP ${ }^{\circledR}$ courses: |  |
| :--- | :---: |
| 2D Art and Design English Literature and Composition <br> 3D Art and Design Music Theory <br> Art History Macroeconomics <br> Art Drawing Microeconomics <br> Biology European History <br> Chemistry Government - Comparative <br> Physics 1 Government and Politics - U.S. <br> Physics 2 United States History <br> Physics C Mechanics World History <br> Physics C Electricity \& Magnetism Human Geography <br> Environmental Science Psychology <br> Computer Science Principles Spanish Language <br> Computer Science A French Language <br> Calculus AB German Language <br> Calculus BC Spanish Literature <br> Statistics Chinese Language and Culture <br> English Language and Composition Capstone: Seminar |  |

## AP ${ }^{\circledR}$ Exams

The examinations are structured to measure three areas - depth of knowledge, completeness of thought and synthesis of ideas. Approximately 1,200 institutions award credit based on the student's AP ${ }^{\circledR}$ examination scores. Exams are graded on a five-point scale with credit usually given for scores of 3 or higher. College credit is generally awarded upon a student's enrollment, although some institutions award sophomore standing only after a student has completed satisfactory work on campus. The score requirement and number of college credit hours or placement credit awarded varies among universities and colleges. AP ${ }^{\circledR}$ exams are offered in May.

## Admission to and Exit from Gifted and Talented Program

I. Plano Independent School District offers educational opportunities for gifted and talented students in the four core areas. Plano's Academic and Creative Education (PACE) program serves grades $6-8$ in PACE History course. Students enrolled in grades 9-10 receive services through the Humanities class, with additional services offered through Advanced Placement courses. Students enrolled in grades 11 12 receive services through the American Studies and/or American Principles course, with additional services offered through Advanced Placement and International Baccalaureate courses.
II. Procedure for Admission

All students new to PISD must follow the referral and assessment process to determine the need for gifted services. PACE students who transfer within the district automatically continue program placement.
A. The referral form available at school or online using the following link: https://www.pisd.edu/giftededucation is completed prior to the designated deadline. A student, parent, teacher, counselor, administrator or other professional may make referrals.
B. Screening data is collected. Data may include the following:

1. Ability test scores
2. Achievement test scores
3. Teacher recommendation
4. Writing sample
5. Additional parent information
6. Grades
7. Student portfolio
8. Interview
C. Placement committee meets.
D. Parent(s) of placed students give written permission for program participation.
III. Procedure for Exit
A. Student progress is review and documented.
B. Conference(s) with student, parent(s) and professional are held.
C. The PACE Exit Form is completed and signed.
D. The campus placement committee meets.

## Aiding Students Who Have Learning Difficulties or Who Need Special Education or Section 504 Services

## I. Aiding Students Who Have Learning Difficulties or Who Need Special Education or Section 504

 ServicesA. For those students who are having difficulty in the regular classroom, all school districts must consider tutorial, compensatory, and other academic or behavior support services that are available to all students, including a process based on Response to Intervention (Rtl). The implementation of Rtl has the potential to have a positive impact on the ability of districts to meet the needs of all struggling students.
B. If a student is experiencing learning difficulties, his or her parent may contact the individual(s) listed below to learn about the school's overall general education referral or screening system for support services. This system links students to a variety of support options, including making a referral for a special education evaluation or for a Section 504 evaluation to determine if the student needs specific aids, accommodations, or services. A parent may request an evaluation for special education or Section 504 services at any time.

## II. Special Education Referrals:

A. If a parent makes a written request for an initial evaluation for special education services to the director of special education services or an administrative employee of the school district, the district must respond no later than 15 school days after receiving the request. At that time, the district must give the parent a prior written notice of whether it agrees to or refuses to evaluate the student, along with a copy of the Notice of Procedural Safeguards. If the school district agrees to evaluate the student, it must also give the parent the opportunity to give written consent for the evaluation.
B. Please note that a request for a special education evaluation may be made verbally and does not need to be in writing. Districts must still comply with all federal prior written notice and procedural safeguard requirements and the requirements for identifying, locating, and evaluating children who are suspected of being a child with a disability and in need of special education. However, a verbal request does not require the district to respond within the 15-school-day timeline.
C. If the district decides to evaluate the student, it must complete the student's initial evaluation and evaluation report no later than 45 school days from the day it receives a parent's written consent to evaluate the student. However, if the student is absent from school during the evaluation period for three or more school days, the evaluation period will be extended by the number of school days equal to the number of school days that the student is absent.
D. There is an exception to the 45-school-day timeline. If a district receives a parent's consent for the initial evaluation at least 35 but less than 45 school days before the last instructional day of the school year, it must complete the written report and provide a copy of the report to the parent by June 30 of that year. However, if the student is absent from school for three or more days during the evaluation period, the June 30th due date no longer applies. Instead, the general timeline of 45 school days plus extensions for absences of three or more days will apply.
E. Upon completing the evaluation, the district must give the parent a copy of the evaluation report at no cost.
F. Additional information regarding special education is available from the district in a companion document titled Parent's Guide to the Admission, Review, and Dismissal Process.
G. Contact Person for Special Education Referrals:

1. The designated person to contact regarding options for a student experiencing learning difficulties or regarding a referral for evaluation for special education services is:
a. Contact Person: Campus Principal or Child Find Help Line
b. Phone Number:469-752-4299
c. Website: https://www.pisd.edu/Directory of Schools
III. Section 504 Referrals:
A. Each school district must have standards and procedures in place for the evaluation and placement of students in the district's Section 504 program. Districts must also implement a system of procedural safeguards that includes notice, an opportunity for a parent or guardian to examine relevant records, an impartial hearing with an opportunity for participation by the parent or guardian and representation by counsel, and a review procedure.
B. Contact Person for Section 504 Referrals:
2. The designated person to contact regarding options for a student experiencing learning difficulties or regarding a referral for evaluation for Section 504 services is:
a. Contact Person: Campus Principal
b. Phone Number: https://www.pisd.edu/Directory of Schools
IV. Additional Information:
3. The following websites provide information and resources for students with disabilities and their families.
a. Legal Framework for the Child-Centered Special Education Process
b. Partners Resource Network
c. Special Education Information Center
d. Texas Project First

## Plano ISD eSchool

Plano ISD eSchool provides excellence in online learning to high school students here in Plano and throughout the world. Since 2001, we have served over 36,000 students with a completion rate of $88 \%$ and an overall success rate of $96 \%$. Our course offerings afford students the flexibility and connectivity to meet their individual needs. eSchool students have access to a rigorous curriculum that is correlated to local, state, and national standards. Our online program allows students to enhance their high school experience, to work around scheduling difficulties, and/or to recapture credits for graduation. Our dedicated teachers are specifically trained to work with students in an online setting and are committed to providing a personalized and enriching learning experience for each student. Our goal is for students to master course content while acquiring the $21^{\text {st }}$ Century skills needed to compete in a global society.

## eSchool Course Offerings

Note: All of our eSchool courses are semester courses designed to be completed in 6-18 weeks. Please refer to the eSchool website for updated course offerings and tuition rates.

```
Algebra I; Semester 1/2*
Algebra II; Semester 1/2
Business Information Management; Semester 1/2
Chemistry; Semester 1/2
Economics
English I; Semester 1/2*
English II; Semester 1/2*
English III; Semester 1/2
English IV; Semester 1/2
French I, Semester 1/2*
Geometry; Semester 1/2
Health
Human Resources Management
Money Matters
*course cannot be taken for initial credit
```

## Important Points to Consider

- For more information, including registration procedures and eSchool Guidelines, please contact the eSchool office at 469.752.8894 or eSchool@pisd.edu. You can also visit our website at https://www.pisd.edu/eschool.
- Students need to check with their school counselor to ensure appropriate course selection.
- Students taking eSchool courses are required to take the STAAR EOC assessment associated with the course.
- Grades earned in eSchool courses will not be used in computing class rank (Plano ISD Board Policy EIC Local).
- Some courses may require the purchase of additional materials, such as a textbook or lab materials, in addition to the tuition fee.
- Students must have an active, functional e-mail account. Refer to the eSchool website for specific technical requirements.

## DESCRIPTIONS OF HIGH SCHOOL / SENIOR HIGH SCHOOL COURSES OFFERED TO PLANO ISD STUDENTS

Teamwork for Excellence

P L A N O
Independent School District

TENTATIVE FOUR-YEAR PLAN FOR STUDENTS ENTERING 9TH GRADE IN 2019-2020

## ENDORSEMENTS

To earn an endorsement a student must successfully complete the Plano ISD curriculum requirements for the Foundation High School Program and must earn a fourth credit in mathematics, an additional credit in science, and two additional elective credits. A student may earn a Distinguished Level of Achievement by successfully completing the Plano ISD curriculum requirements for the Foundation High School Program and the curriculum requirements for at least one endorsement (including four credits in science and four credits in mathematics to include Algebra II). For more information on endorsement requirements, click on the icons below or contact your counselor.
 Junior Reserve Officer Training Corps (JROTC)

## ATHLETICS

The Plano Independent School District offers a wide range of University Interscholastic League competitive sports from which the student may choose. One credit of physical education credit is required for graduation by the state of Texas; however, a student may earn up to 4 PE credits toward graduation. The following is a list of courses from which both boys and girls may select, depending upon their particular interests and abilities.

## SEE YOUR SCHOOL COUNSELOR FOR CLARIFICATION REGARDING CREDITS.

| Plano ISD Course No. | Subject |  |
| :---: | :--- | :--- |
| 304101, 304102 | Baseball (Boys) | May be offered after school at Grade 9 |
| 304201,304202 | Basketball (Boys) |  |
| 303001,303002 | Basketball (Girls) |  |
| 304301, 304302 | Cross Country (Boys) | Course/practice held on senior high <br> campuses only <br> Course/practice held on senior high <br> campuses only <br> Course/practice held on senior high <br> campuses only |
| 305101, 303102 | Cross Country (Girls) | Diving (Co Ed)* |

* Will require personal transportation.

Students can earn up to 4 credits of physical education over their high school career in any specific sport or any combination of sports taken during the school day. In order to participate or compete in a UIL sport, the sport must be reflected on the student's class schedule.

## CHEERLEADING / DRILL TEAM

Cheerleading and drill team tryouts are held in the spring at the individual school campuses. The Fundamentals of Drill Team course is a non-competitive course open to all who desire to enroll. Students interested in this program should contact the program sponsor for specific details and guidelines.

For district guidelines regarding Cheerleading and Drill Team, see the following PISD website: https://www.pisd.edu/Page/6468

SEE YOUR SCHOOL COUNSELOR FOR CLARIFICATION REGARDING CREDITS.

| Plano ISD  <br> Course No.  | Grade Credits |
| :---: | :---: |
| 306101 Cheerleading | 9-12 |
| 307151 Drill Team Prep | 9-10 |
| 307101 Drill Team | 9-12 |
| $306101 \quad$ Cheerleading <br> Grade Placement: 9-12 <br> Prerequisite: Try-out procedure Credit: 1 | This course is designed for students selected to perform on Freshman, Sophomore, Junior Varsity, or Varsity Cheerleading Squads. This class meets during the school day and consists of conditioning activities, skill development in several cheerleading techniques, and specific preparation for game and competition performances. Students gain membership through a try-out procedure held during the spring of the previous school year. Please see your counselor for credit information. |
| 307151 <br> Drill Team Prep <br> Grade Placement: 9-10 <br> Prerequisite: None <br> Credit: 1 <br> What's next? Drill Team | Drill Team Prep is designed to help students prepare mentally and physically to try out for JV and/or Varsity drill teams. The class covers proper stretching, splits, kick technique, jazz technique, pom, as well as several different genres of dance. It also helps to develop coordination, body form, flexibility, rhythm and balance. This is noncompetitive course and is open to all who desire to enroll. Specific attire, including shoes, will be required. Successful completion of both semesters of this course will satisfy the PE credit required for graduation. |
| $307101 \quad$ Drill Team (9-12) 307102 307103 307104 Grade Placement: 9 Prerequisite: Try-out procedure Credit: 1 What's next? Drill Team | Drill Team is a precision performing group that provides students an opportunity to perform at a variety of venues. Performances may include athletic events, competitions, community events, and stage shows. Drill team membership requires weekly after hours practice and rehearsals. Specific attire, including shoes, will be required. Students gain membership through a try-out procedure held during the spring of the previous school year. Successful completion of both semesters of this course will satisfy the PE credit or Fine Arts credit required for graduation. |

## COMPUTER SCIENCE

To find out more about the Computer Science Texas Essential Knowledge and Skills (TEKS) click here.

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | ---: | :---: |
| 401001 | Computer Science I | $9-10$ | 1 |
| 402001 | Computer Science II | $10-12$ | 1 |
| 403701 | AP Computer Science Principles | $9-10$ | 1 |
| 401001 B \& | Computer Science I \& II | $11-12$ | 2 |
| $402001 B$ | AP Computer Science A | $11-12$ | 2 |
| 401051 | Computer Science III | $11-12$ | 1 |
| 403501 | Computer Science III Honors | $11-12$ | 1 |

## 401001 Computer Science I Computer Science I is an introduction to the automated processing

Grade Placement: 9-10
Prerequisite: Algebra I
Credit: 1 (elective credit)
What's next? Computer Science II or AP Computer Science A
of information, including computer programming. Students will apply their mathematical and logical reasoning to solve problems in the field of computer science. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Students will also explore various aspects of digital citizenship, including those affecting both users and programmers. The learning in this course equips students to read and write small programs using Java programming language in response to a given problem or scenario. Successful completion of this course will prepare students for a cohesive course sequence in computer science. No previous coding / programming experience is required.

## 402001 Computer Science II

Grade Placement: 10-12
Prerequisite: Computer Science I, Algebra I
Credit: 1 (elective credit)
What's next? Computer Science III Honors or AP Computer Science A

This course continues to build student learning from Computer Science I. The learning in this course equips students to read and write complex programs using Java programming language. Students apply algebraic and logical reasoning acquired in mathematics to develop robust programming solutions. Upon completion of this course, the student will have created software such as an interactive program and/or an animated graphics display.

## 403701 AP Computer Science Principles

Grade Placement: 9-10
Prerequisite: None
Credit: 1 (elective credit)
What's next? Computer Science I or AP Computer Science A

AP Computer Science Principles is an introduction to the complete field of computer science. Studies include exploring the technology's impact on society, analyzing and visualizing trends in data, and developing computational artifacts related to their interests. Students will broaden their understanding of computer science for use in a diversity of interests, majors and careers. Programming is only one component of this course and taught at an introductory level using Java Script. No previous coding / programming experience is required. This course prepares students to take the Advanced Placement (AP) Computer Science Principles exam to possibly earn college credit.

## 401051 AP Computer Science A

Grade Placement: 11-12
Prerequisite: Algebra II or concurrent enrollment in Algebra II

Credits: 2 (Note: 1 of 2 credits count toward GPA)
What's next? Computer Science III Honors

This course serves as an introduction to computers and the study of managing and processing information. Students apply algebraic and logical reasoning acquired in mathematics to develop robust programming solutions. The emphasis is on solving real world problems by means of computer programming (software engineering). Students will thoroughly learn the Java programming language and apply those skills in exploring how computers work. Some topics covered include object-oriented techniques, file management, data structures, classes, objects, graphics, debugging, hardware components, and social implications. This course prepares students to take the Advanced Placement Computer Science A exam to possibly earn college credit.
Successful completion of both semesters of this course will satisfy a mathematics credit in the student's graduation plan if a 4th math credit is needed.

## 403501 Computer Science III

Grade Placement: 12
Prerequisite: Computer Science II or AP Computer Science A
Credit: 1 (elective credit)

This course has four main goals: develop advanced software engineering skills in the Java programming language; teach advanced data structures such as linked lists, trees, classes, and data files; expose students to the development and analysis of classic computer algorithms such as sorting, searching, recursion, and numerical analysis; recognize the ethical and social implication of computer use. Students will develop major software projects over topics such as databases, sorting, business applications, and graphics.

## 403531 Computer Science III Honors

Grade Placement: 12
Prerequisite: Computer Science II or AP Computer Science A
Credit: 1 (elective credit)

This course has four main goals: develop advanced software engineering skills in the Java programming language; teach advanced data structures such as linked lists, trees, classes, and data files; expose students to the development and analysis of classic computer algorithms such as sorting, searching, recursion, and numerical analysis; recognize ethical and social implications of computer use. Students will develop major software projects over topics such as databases, sorting, business applications, and graphics.

## ENGLISH LANGUAGE ARTS

## ESOL (ENGLISH FOR SPEAKERS OF OTHER LANGUAGES)

## 051001 English I for Speakers of Other Languages

Grade Placement: 9-10
Prerequisite: Placement in ESOL program with beginning or intermediate English proficiency Credit: 1
What's next? English II, English II for Speakers of Other Languages, or English II Honors

English I SOL is a course designed to provide instruction in the English I TEKS for beginner and intermediate level limited English proficient (LEP) students enrolled in ESL. It also works to build English language proficiency. This course does meet the graduation requirement for English I, so students who take this course may not later take regular English I for credit. It should be noted that some colleges and universities might not honor this course when considering a student's application for admission. For college and university admission criteria please see your school counselor.

## 052001 English II for Speakers of Other Languages

Grade Placement: 10
Prerequisite: Credit for English I or English I SOL and placement in ESOL program with beginning or intermediate English proficiency Credit: 1
What's next? English III or English III Honors

## 10127B Research and Technical Writing

Grade Placement: 9-10
Prerequisite: None
Credit: . 5

English II SOL is a course designed to provide instruction in the English II TEKS for beginner and intermediate level limited English proficient (LEP) students enrolled in ESL. It also works to build English language proficiency. This course does meet the graduation requirement for English II, so students who take this course may not later take regular English II for credit. It should be noted that some colleges and universities might not honor this course when considering a student's application for admission. For college and university admission criteria please see your school counselor.

This one-semester course focuses on how a student learns best. Strong attention will be focused on text structures, note taking, study skills, test-taking skills, and research skills. The curriculum emphasizes using both traditional and on-line resources for research and technical writing. Students will be prepared for business and university research tasks. This course may not be offered on all campuses.

## 102001 English II

Grade Placement: 10
Prerequisite: English (1 credit)
Credit: 1
What's next? English III or English III Honors

In this course, students learn to apply their understandings of reading and writing processes to a variety of genres including literary (poetry, drama, imaginative stories) and informational (expository and persuasive). Students will study both classic and contemporary texts with an emphasis on author's purpose and motivations, archetypal patterns, and critical lenses for text studies. The use of writing and reading notebooks, the synthesis and presentation of researched ideas, and frequent opportunities for teamwork and collaboration are also key components of this course.

## 102031 English II Honors

Grade Placement: 10
Prerequisite: English (1 credit)
Credit: 1
What's next? English III, English III Honors, or AP English III

This course is designed for students who wish to have a more challenging and rigorous English II experience. In addition to the emphasis areas listed above, English II Honors students will be afforded opportunities to engage in lengthier and more challenging reading and writing experience with more sophisticated levels of instruction and more advanced skill work.

## 103001 English III

Grade Placement: 11
Prerequisite: English (2 credits)
Credit: 1
What's next? English IV or English IV Honors

In this course, students engage in a variety of reading and writing experiences as they analyze the ways in which the traditional and contemporary texts from $20^{\text {th }}$ and $21^{\text {st }}$ century America represent a view or make a comment on the human condition and spirit. Key reading selections come from various genres including plays, novels, poems, and speeches. Students will write multi-page essays (expository and persuasive) and original stories and poems in a writing workshop environment. Research study includes instruction in creating a research plan, synthesizing information, and organizing ideas.

103031 English III Honors<br>Grade Placement: 11<br>Prerequisite: English (2 credits)<br>Credit: 1<br>What's next? English IV or English IV Honors or AP English IV

This course is designed for students who wish to have a more challenging and rigorous English III experience. In addition to the emphasis areas listed above, English III Honors students will be afforded opportunities to engage in lengthier and more challenging reading and writing experience with more sophisticated levels of instruction and more advanced skill work.

## 103051 AP English III Language and Composition

Grade Placement: 11
Prerequisite: English (2 credits)
Credit: 1
What's next? English IV or English IV Honors or AP English IV

This course is designed for students who wish to have a more challenging and rigorous English III experience. This course instructs students in the reading of complex text and the writing of rich and complex prose. This course will emphasize the writing process by having students write essays that proceed through several stages or drafts. Students will become acquainted with a wide variety of prose styles from many disciplines and historical periods, and will gain understanding of the connections between writing and interpretive skill in reading. The use of research materials and the ability to synthesize a variety of sources are integral parts of this course. This course prepares students to take the AP Language and Composition exam to possibly earn college credit.

## S14251 American Studies (AP English III Language and Composition and AP U.S. History)

Grade Placement: 11
Prerequisite: G/T Identification or AP World History recommended
Credit: 2
What's next? The Human Experience: Culture, Media and Perception, AP English IV Literature and Composition

Designed for the gifted and/or accelerated learner, American Studies integrates the Humanities into a combined AP US History and AP English III Language and Composition course to create a daily two hour cultural experience which demands students to simultaneously explore the connections between literature, history and the Humanities. Students will explore the history of the United States with an emphasis on both collaborative and independent work that emphasizes the study of rhetorical styles and the structures of important historical documents and readings. This course considers cultural accomplishments as manifested in art, architecture, literature, music, theater and philosophy. American literature of all genres is incorporated into the curriculum to enhance the depiction of various historical time periods. At the conclusion of the course, students may choose to take both the AP US History and the AP English Language and Composition exams to possibly earn college credit.

## 104001 English IV

Grade Placement: 12
Prerequisite: English (3 credits)
Credit: 1

In this course, students will read and write on a daily basis. Text studies focus on the comparing and contrasting of universal themes in contemporary and traditional works from a variety of cultures and countries, including traditional British works. Students will analyze the effects of literary devices in literary non-fiction, expository, and persuasive texts, and will conduct an advanced study of media literacy, including the development of a visual media. The course emphasizes self-selected texts and collaborative discussions focused on studentdirected comprehension, interpretation, and analysis work. Students will develop multi-draft and multi-page essays, including an argument essay, interpretive response, and philosophy essay.

| 104031 English IV Honors <br> Grade Placement: 12 <br> Prerequisite: English (3 credits) Credit: 1 | This course is designed for students who wish to have a more challenging and rigorous English IV experience. In addition to the emphasis areas listed above, English IV Honors students will be afforded opportunities to engage in lengthier and more challenging reading and writing experience with more sophisticated levels of instruction and more advanced skill work. |
| :---: | :---: |
|  | This course is designed to engage students in the careful reading and critical analysis of imaginative literature. Students will deepen their understandings of the ways writers use language to provide both meaning and pleasure for their readers. As they read, students will consider a work's structure, style, and themes, as well as such smallerscale elements as they use of figurative language, imagery, symbolism, and tone. The course should include intensive study of representative works from various genres and periods. Writing experiences in this course may involve writing response and reaction papers along with annotation, free writing, and keeping some form of a reading journal. Writing assignments will focus on the critical analysis of literature and will include expository, analytical, and argumentative essays. This course prepares students to take the AP Literature and Composition exam to possibly earn college credit. |
| 10310B Creative Writing <br> Grade Placement: 9-12 <br> Prerequisite: None <br> Credit: . 5 | This course is a rigorous composition course where students can hone their writing skills in a variety of forms and genres in a writing workshop environment. The course emphasizes the use of the writing process and the effective application of the conventions of language along with self- and peer-evaluation and goal-setting. Students will create and publish a class or campus anthology of works. |
| 10350B Literary Genres <br> Grade Placement: 9-12 <br> Prerequisite: None Credit: . 5 | Students in this course analyze the fictional and poetic elements of literary texts and read in order to better understand and appreciate the writer's craft. This course includes a study of vocabulary (with word origins), an analysis of the contribution of fictional and poetic elements to meaning, and the critical evaluation of a variety of genres, including contemporary fiction, poetry, drama, and literary non-fiction. |
| 10330B World of Ideas <br> Grade Placement: 11-12 <br> Prerequisite: None Credit: . 5 | This course is a combination philosophy and humanities class that provides students opportunities to discuss, perform, listen, view, and create. Topics for study may include mythology, enlightenment, human nature, contemporary media, the human condition, morality, ethics, aesthetics, beauty, censorship, history, architecture, and music. |
| 10370B Bible Literacy <br> Grade Placement: 11-12 <br> Prerequisite: None Credit: . 5 | This course is on the Hebrew Scriptures (Old Testament) and the New Testament which teaches knowledge of Biblical content, characters, poetry, and narratives that impact understanding of contemporary society and culture, including literature, art, music, and public policy. The course follows federal and state laws and guidelines in maintaining religious neutrality and accommodating the diverse religious views and perspectives of students. |

Fine Arts Education includes the following areas: Visual Art Education, Music Education, and Theater Arts and Dance Education. Students must take a full-year of the same course to meet the one credit of Fine Arts high school graduation requirement. To find out more about the Fine Arts Texas Essential Knowledge and Skills (TEKS) click here.

## Visual Arts Education

| 454071 | AP Art History | $11-12$ | 1 |

## 451001 Art I: 2D Design \& Drawing

Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Art II: 2D, Art II: 2D Honors, or Art II: 3D Honors

Art I: 2D Design \& Drawing introduces students to the elements and principals of art through a two-dimensional lens while learning a variety of media, concepts and techniques. This will include elements and principles of design, sequential techniques with drawing, painting, printmaking, low-relief sculpture, ceramics and digital media. Students practice skills, explore historical and cultural relevance, gain an understanding of creative expression and learn to respond and evaluate artwork through close observation using critical thinking. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10) This is a twosemester course in which students must take both semesters, in sequence, to meet the one year fine arts requirement.

## 451031 Art I: 2D Design \& Drawing Honors

Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Art II: 2D, Art II: 2D Honors, or Art II: 3D Honors

Art I: 2D Honors allows the student the opportunity to learn how to work with a large variety of materials. Honors Art I provides learning opportunities for students beyond those available in the regular Art I class by extending the state essential knowledge and skills through drawing, color study, painting, printmaking, technology, sculpture, and ceramics. The curriculum aligns with guidelines from the College Board and students learn what will be expected of them if they choose to participate in the AP Portfolio courses. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10) This is a two-semester course in which students must take both semesters, in sequence, to meet the one year fine arts requirement.

## 452081 Art I: 3D Design \& Sculpture

Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Art II: 2D, Art II: 2D Honors, or Art II: 3D Honors

Art I: 3D Design \& Sculpture introduces students to the elements and principals of art through a three-dimensional lens learning additive and subtractive sculpture, ceramics, and digital work. Students will utilize drawing and painting techniques through the creation of threedimensional objects. As an introductory course students practice skills, explore historical and cultural relevance, gain an understanding of creative expression and learn to respond and evaluate artwork through close observation using critical thinking. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10) This is a two-semester course in which students must take both semesters, in sequence, to meet the one year fine arts requirement.

456131 Art I: 3D Design \& Sculpture Honors
Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Art II: 2D, Art II: 2D Honors, or Art II: 3D Honors

Art I: 3D Design \& Sculpture Honors allows students the opportunity to learn how to work with a large variety of materials. This course provides learning opportunities for students beyond those available in the on-level Art I class by extending the state essential knowledge and skills through a three-dimensional lens learning additive and subtractive sculpture, ceramics, and digital work. Students will utilize drawing, painting, sculpture and building techniques through the creation of three-dimensional objects. As an introductory course students practice skills, explore historical and cultural relevance, gain an understanding of creative expression and learn to respond and evaluate artwork through close observation using critical thinking. The curriculum aligns with guidelines from the College Board and students learn what will be expected of them if they choose to participate in the AP Portfolio courses. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10) This is a two-semester course in which students must take both semesters, in sequence, to meet the one year fine arts requirement.

## 451501 Art and Media Communications I

Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Art and Media Communications II or any Art I and/or Art II course

Art and Media Communications combines rigorous and relevant experiential study of modern, post-modern, and contemporary visual art and design with student learning in media literacy and technology applications. Creation and analysis of student artworks will be balanced with explorations into contemporary practices across the visual and commercial arts fields. Students will learn how to bridge traditional hand skills with current technology applications to create new media such as animations, digital images, multimedia presentation, digital video, websites, and interactive or site-based installations and performances. Furthermore, student work will culminate in a capstone project that investigates an issue relevant to the student and uses art, design, and visual communications to address a problem within the community or effect change. This project will afford students an opportunity to learn and practice creative research skills, develop a narrative, engage an audience, and connect an online community to their project. This is a two-semester course in which students must take both semesters, in sequence, to meet the one year fine arts requirement.

## 452501 Art and Media Communications II

Grade Placement: 10-12
Prerequisite: Art and Media Communications I
Credit: 1
What's next? Art III, AP 2D Art and Design, AP 3D
Art and Design, AP Drawing, or AP Art History

#### Abstract

Art and Media Communications II builds upon the foundational skills taught in the Art and Media Communications I survey course and provides opportunities for students to apply knowledge of contemporary visual art and design practices with greater depth and complexity. Hands-on, experiential learning in visual art is interwoven with technology applications, media literacy, and the 21st century skills as students explore participatory media and the practice of trans media storytelling. Students learn how new media such as digital imagery, multimedia presentations, web videos, online and social media, virtual worlds, game designs, and animations intersect with contemporary art, specifically sculpture and installation art. Students create a large-scale, collaborative installation artwork and then contextualize and promote it though media extensions that produce immersive stories aimed at engaging audiences. By creating trans media stories about their installation, students expand both personal and collective narratives, deepen creative research skills, gain insight into messaging platforms, and build communities of interest. Students document their work in a professional-level digital portfolio that can be used in applications.

Art II: 2D Design \& Drawing is designed to spiral and expand on the Art I: 2D or Art I: 3D curriculum. Students will continue to explore a sequential study of drawing, color theory, painting, printmaking, technology and ceramics. Formal compositions will be completed in realistic, abstract, and non-objective styles. Students will build upon skills learned in Art I instruction in order to express big ideas with visual voice. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 452031 Art II: 2D Design \& Drawing Honors

Grade Placement: 10-12<br>Prerequisite: Art I: 2D Design \& Drawing Honors, Art I: 2D, or Art I: 3D<br>Credit: 1<br>What's next? Art III, AP 2D Art and Design, AP 3D Art and Design, AP Drawing, or AP Art History

The Art II: 2D Design \& Drawing Honors curriculum is designed to spiral and expand on the Art I: 2D, Art I: 3D, or Art I: 2D Honors curriculum. Students will apply the elements and principles of art in all compositions to a greater proficiency than other Art II: 2D \& Drawing students. Students grow their understanding of composition, design, drawing, painting, printmaking, technology, and ceramics with high expectations, as they continue reviewing requirements of the AP examination. The curriculum follows guidelines from the College Board and students learn what will be expected of them for the AP Portfolio courses. Art II: 2D Design \& Drawing Honors is recommended for students seriously looking at utilizing creativity and the visual arts in their future career. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 456201 Art II: 3D Design \& Sculpture

Grade Placement: 10-12
Prerequisite: Art I: 3D Design \& Sculpture or Art I: 2D Design \& Drawing
Credit: 1
What's next? AP 3D Art and Design

Art II: 3D Design and Sculpture is designed to spiral and expand on the Art I: 2D or Art I: 3D curriculum. Students will continue to explore a sequential study of relief, additive and subtractive sculpture, instillations, ceramics, and digital work. Formal compositions will be completed in realistic, abstract, and non-objective styles. Students will build upon skills learned in Art I instruction in order to express big ideas with visual voice. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 452061 Art II: 3D Design \& Sculpture Honors

Grade Placement: 10-12
Prerequisite: Art I: 3D Design \& Sculpture Honors or Art I: 2D, or Art I: 3D
Credit: 1
What's next? AP 3D Art and Design

The Art II: 3D Design \& Sculpture Honors curriculum is designed to spiral and expand the Art 3D curriculum. Students will apply the elements and principles of art in all composition to a greater proficiency than other Art Sculpture students. Students grow their understanding of drawing, sculpture, ceramics, technology, and problem solving techniques with high expectations, as they continue reviewing requirements of the AP portfolio. The curriculum aligns with guidelines from the College Board and students learn what will be expected of them for the AP Portfolio courses. Art II: 3D Design \& Sculpture Honors is recommended for students seriously looking at utilizing creativity and the visual arts in their future career. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 453001 Art III

Grade Placement: 11-12
Prerequisite: Art I: 2D or 3D or Art and Media Communications I and Art II: 2D or 3D or Art and Media Communications II
Credit: 1
What's next? AP 2D Art and Design, AP 3D Art and Design, AP Drawing, or AP Art History

Art III will provide in-depth compositional studies in drawing and painting. Drawing studies will emphasize advanced life drawing techniques. Painting emphasis may be on techniques of watercolor and mixed media, plus relating art history to periods of drawing and painting. Students will also experience printmaking, technology, sculpture, and ceramics. Ceramics and sculpture will emphasize complex combinations of hand built techniques. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 456351 AP 2D Art and Design (2-hour block)

Grade Placement: 11-12
Prerequisite: Art I: 2D or 3D
Credits: 2
What's next? AP 3D Art and Design, AP
Drawing, or AP Art History

AP 2D Art and Design is an advanced studio course for the collegebound and career-oriented student. It is designed for talented art students who wish to pursue college level studies while in high school. Emphasis will be on advanced drawing and painting styles, 2-D design, color study, and digitally created art. Students will develop portfolios, consisting of two sections: Sustained Investigation and Selected Works, which fulfill current College Board requirements. This is a twohour class. Students receive two credits, 1 AP credit and 1 honors credit. This course prepares the student to take the AP exam. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 456371 AP 3D Art and Design (2-hour block)

Grade Placement: 11-12
Prerequisite: Art I: 2D or 3D
Credits: 2
What's next? AP 2D Art and Design, AP
Drawing, or AP Art History

AP 3D Art and Design is an advanced studio course for the collegebound and career-oriented student. It is designed for talented art students who wish to pursue college level studies while in high school. Emphasis will be on advanced sculpture, ceramics, and threedimensional design. Students will develop portfolios, consisting of two sections: Sustained Investigation and Selected Works, which fulfill current College Board requirements. This is a two-hour class. Students receive two credits, 1 AP credit and 1 honors credit. This course prepares the student to take the AP exam. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 454051 AP Drawing (2-hour block)

Grade Placement: 11-12
Prerequisite: Art I: 2D or 3D
Credits: 2
What's next? AP 2D Art and Design, AP 3D Art and Design, or AP Art History

AP Drawing, a two-hour class, is an advanced studio course for the college-bound and career-oriented student. It is designed for talented art students who wish to pursue college level studies while in high school. Emphasis will be on drawing, in methods such as graphite, charcoal, painting, and printmaking. Students will develop portfolios, consisting of two sections: Sustained Investigation and Selected Works, which fulfill current College Board requirements. This is a twohour class. Students receive two credits, 1 AP credit and 1 honors credit. This course prepares the student to take the AP exam. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 454071 AP Art History

Grade Placement: 11-12
Prerequisite: None
Credit: 1

The aim of the course is to introduce students to the rich traditions of western and non-European architecture, sculpture, painting and other art forms through factual knowledge and the skillful use of principles of aesthetics and comparative criticism. Students will learn how to respond to works of art with intelligence and sensitivity, examining the major forms of artistic expression of the past and of distant cultures as well as those of their own time and environment. Students may earn college credit by passing an exam written by the College Board. This course prepares the student to take the AP Art History exam. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## Career and Technical Education - Fine Arts Credit

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | :---: | :---: |
| 551501 | Floral Design | $11-12$ | 1 |

## 551501 Floral Design

Grade Placement: 11-12
Prerequisite: None
Credit: 1 (fine arts credit)

This is an activity-based course which prepares students to develop competencies in flower classification and identification, geometric and specialized floral designs, identification and classification of plants, interior landscape development, and the use of artistic elements in personal designs. Students will learn business practices as they relate to the floral industry and are given the opportunity to develop leadership skills through the FFA organization. Successful completion of both semesters of this course will satisfy the Fine Arts (1.0) credit required for graduation. This course provides instruction and training necessary for the Texas State Florists' Level 1 Certification.

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | ---: | :---: |
| 451871 | Dance I | $9-12$ | 1 |
| 452871 | Dance II | $10-12$ | 1 |
| 453871 | Dance III | $11-12$ | 1 |
| 454871 | Dance IV | 12 | 1 |

* Students enrolled in Dance I, II, III, or IV can earn either a Fine Arts credit or a PE credit upon successful completion of both semesters of this course.

| 451871 (FA) Dance I 451851 (PE) <br> Grade Placement: 9-12 <br> Prerequisite: None Credit: 1 <br> What's next? Dance II | This course will focus on dance within a variety of dance genres at an introductory level. Students will acquire vocabulary and skills in ballet, jazz, modern, tap, hip hop and other genres. Dance history, choreography and performance skills will be introduced. The class is participatory in nature, utilizing movement as a form of creative expression. Specific attire will be required. Attendance at after school rehearsals and performances may be required. Successful completion of both semesters of this course will satisfy the Fine Arts credit or PE credit required for graduation. |
| :---: | :---: |
| 452871 (FA) Dance II 452851 (PE) <br> Grade Placement: 10-12 <br> Prerequisite: Dance I or audition by instructor Credit: 1 <br> What's next? Dance III | This course builds on the technical facility and skills attained in Dance I using advanced skills and concepts through continued study of various dance genres. In addition, course objectives will emphasize (1) creative expression through movement; (2) awareness of space, time, and energy in dance technique and improvisational studies; (3) development of self-confidence through the use of the body as an expressive instrument; and (4) appreciation of dance as an art form. Specific attire will be required. Attendance at after school rehearsals and performances may be required. Successful completion of both semesters of this course will satisfy the Fine Arts credit or PE credit required for graduation. |
| 453871 (FA) Dance III <br> 453851 (PE) <br> Grade Placement: 11-12 <br> Prerequisite: Dance II or audition by instructor <br> Credit: 1 <br> What's next? Dance IV | Dance III students will build on skills and techniques learned in Dance II, including creative expression, improvisation, and appreciation of dance as an art form. Qualities of movement are also explored. Kinesthetic awareness and movement memory is emphasized as well. Specific attire will be required. Attendance at after school rehearsals and performances may be required. Successful completion of both semesters of this course will satisfy the Fine Arts credit or PE credit required for graduation. |
| 454871 (FA) Dance IV 454851 (PE) <br> Grade Placement: 12 <br> Prerequisite: Dance III or audition by instructor Credit: 1 | This course focuses on the advanced dancer. An emphasis will be placed on style, technique and choreography. This class will also allow students to explore different avenues of dance performance beyond high school. Specific attire will be required. Attendance at after school rehearsals and performances may be required. Successful completion of both semesters of this course will satisfy the Fine Arts credit or PE credit required for graduation. |

451201 Choir: Concert I<br>Grade Placement: 9 - 12<br>Prerequisite: None<br>What's next? Choir II

#### Abstract

This course is for male and/or female students with beginning or intermediate skills in sight-reading and choral singing. Instruction in this course will continue to develop vocal skills necessary for ensemble singing. Emphasis will be placed upon developing an appreciation for music. Students will perform in concert programs and participate in competitive events coordinated by the University Interscholastic League contests. Attendance at after school rehearsals and performances will be required to fulfill all course objectives. The voicing of this choir (Mixed, Treble or Tenor/Bass) is at the director's discretion. This is a full-year course. Course placement is determined by audition. Additional supply fees may be associated with this course; however, Plano ISD will take steps to ensure that costs will not prevent access to programs. (see Consumable Supply Fees on page 10)

## 452201 Choir: Concert II

451801 Theatre Arts I The Theatre Arts I course is an introductory study in the high school

Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Theatre Arts II

The Theatre Arts I course is an introductory study in the high school theatre arts program. Basic acting techniques, technical theatre, literature, terminology, history, voice \& diction and the fundamentals of play production are introduced. Students will experience the production process through performance, directing and criticism. Students will be required to read plays and see live theatrical productions.

The Theatre Arts II course is a continuation of the study in theatre in the high school theatre arts program. An extension of basic acting techniques, technical theatre, literature, terminology, history, voice \& diction and play production are examined. Students will further develop the production process through performance, directing and criticism. Students will be required to read plays and see live theatrical productions.

## 451951 Theatre: Musical Theatre

Grade Placement: 11-12
Prerequisite: One credit in two of the following: Theatre, Choir, or Dance (ex, Theatre I and Dance I, or Theatre I and Choir, or Theatre I and Theatre II), and audition

Credit: 1

Musical Theatre will expose students to a wide range of on-stage performance disciplines, including acting performance, vocal performance, and dance performance. The course will also provide an atmosphere in which students benefit from a teaching and learning experience in these performance disciplines of musical theatre. Students will receive comprehensive and rigorous instruction so that they may make informed choices about the craft, college, and the profession. The course will enhance and cultivate the creative gifts of each student while encouraging a sense of selfconfidence. The course will enable students to study and perform the varied styles of musical theatre with special attention to the principles of stage movement, stage vocal technique, stage choreography, acting, characterization, and other aspects of a musical production.

## 452951 Theatre: Musical Theatre II

Grade Placement: 12
Prerequisite: Musical Theatre I and one credit in two of the following: Dance, Music or Theatre, and audition
Credit: 1

Musical Theatre II will continue to expose students to a wide range of on-stage performance disciplines, including acting performance, vocal performance, and dance performance. The course will also provide an atmosphere in which students benefit from a teaching and learning experience in these performance disciplines of musical theatre. Students will receive comprehensive and rigorous instruction so that they may make informed choices about the craft, college, and the profession. The course will enhance and cultivate the creative gifts of each student while encouraging a sense of selfconfidence. The course will enable students to study and perform the varied styles of musical theatre with special attention to the principles of stage movement, stage vocal technique, stage choreography, acting, characterization, and other aspects of a musical production.

## 101041 Humanities I English I GT (English I Honors)

Grade Placement: 9
Prerequisite: G/T Identification
Credit: 1

## 252041 Humanities II AP World History GT (AP World History)

Grade Placement: 10
Prerequisite: G/T Identification
Credit: 1
What's next? American Studies

Humanities I English I GT and Humanities II AP World History GT are courses that provide gifted students with opportunities not available through regular or advanced classes. The course integrates the Humanities into a combined English I Honors and AP World History two-year interdisciplinary course. The curriculum includes a historical study of the commonalities of the fine arts including literature, the visual arts, architecture, and music. Humanities I focuses on the period up to the Renaissance; Humanities II examines the period from the Renaissance to contemporary times. Students will learn and practice the craft of writing through various products. Literature from a variety of world traditions will also be a key focus. Ninth and tenth grade students will sit in the same class while earning credit in separate courses; ninth graders will earn English I Honors credit while tenth graders earn AP World History credit. At the conclusion of Humanities II, students may choose to sit for the AP World History exam in the hopes of earning college credit. Humanities does NOT fulfill the fine arts requirement for graduation and is not recognized as a fine arts course by TEA.

## S14251 American Studies (AP English III Language and Composition and AP U.S. History)

## Grade Placement: 11

Prerequisite: G/T Identification or World History AP recommended
Credit: 2
What's next? American Principles or The Human Experience: Culture, Media and Perception

Designed for the gifted and/or accelerated learner, American Studies integrates the Humanities into a combined AP US History and AP English III Language and Composition course to create a daily two hour cultural experience which demands students to simultaneously explore the connections between literature, history and the Humanities. Students will explore the history of the United States with an emphasis on both collaborative and independent work that emphasizes the study of rhetorical styles and the structures of important historical documents and readings. This course considers cultural accomplishments as manifested in art, architecture, literature, music, theater and philosophy. American literature of all genres is incorporated into the curriculum to enhance the depiction of various historical time periods. At the conclusion of the course, students may choose to take both the AP US History and the AP English Language and Composition exams to possibly earn college credit.

## S25425 American Principles (AP Economics and AP Government)

Grade Placement: 12
Prerequisite: G/T Identification or American Studies recommended
Credit: 1

American Principles is the senior year offering for students receiving gifted services and/or high achieving students seeking an integrated learning experience. This course combines AP Economics, AP Government, and the Humanities. Although the first semester will focus on Government and the second semester on Economics, both subject areas will be referred to throughout the year. The elements of the Humanities will be considered as both a citizenry's response to, and a catalyst for, governmental and economic decisions and public policy. Students may choose to take both the AP Economics and the AP Government exams at the end of the course.

95243B The Human Experience: The course focuses on overarching themes and 21st century Culture, Media and Perception Honors
Grade Placement: 12
Prerequisite: G/T Identification, and/or American Studies
Credit: .5-1
issues; multi-media sources are examined requiring students to consider how the media influences students' understanding of world events. The highly independent nature of this course encourages gifted and high achieving students to take ownership of their learning experience while exploring the connection between 21 st century media and current events. A focus on skills such as persuasion, analysis, and research requires each student to develop a position on each topic. The course culminates in a "position presentation" on a topic of the student's choice.

## 554431 Health Science Theory

Grade Placement: 10-11
Prerequisite: Biology
Credit: 1 (satisfies Health requirement for graduation)
What's next? Practicum in Health Science I, World Health Research, Anatomy \& Physiology, or Medical Terminology

Health Science Theory is a one-hour full-year program that provides students the opportunity for comprehensive study of human anatomy and physiology, medical terms, intro to basic patient care skills, AHA First Aid and CPR certification, as well as health career exploration. *This course is the required prerequisite for Practicum in Health Science I \& II (Clinical Rotations I \& II) and Pharmacology. Successful completion of both semesters of this course will satisfy the Health requirement for graduation.

| 106201 Newspaper II <br> Grade Placement: 11-12 <br> Prerequisite: Newspaper I and/or application Credit: 1 | Students in this course will receive practical experience in writing, investigative reporting, editing, advertising, and processing the student newspaper. They will develop independent study projects and/or receive on the job training in a particular phase of the mass media. |
| :---: | :---: |
| 106751 Photojournalism <br> Grade Placement: 11-12 <br> Prerequisite: Yearbook and/or application Credit: .5-1 | Students enrolled in this course will refine and enhance their journalistic skills and plan, prepare, and produce photographs for a journalistic publication (such as the school yearbook). |
| 106701 Independent Study Journalism <br> Grade Placement: 12 <br> Prerequisite: Teacher approval Credit: 1 | This course offers the serious student of journalism the opportunity to conduct research, produce original work in print or some other media, develop an advanced skill, and study a specific area of interest. |

## JUNIOR RESERVE OFFICER TRAINING (JROTC)

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | ---: | ---: |
| 953101 | JROTC 1 | $9-10$ | 1 |
| 953201 | JROTC 2 | 10 | 1 |
| 953301 | JROTC 3 | $11-12$ | 1 |
| 953401 | JROTC 4 | 12 | 1 |

Students do not incur any military obligation by participating in JROTC courses. Uniforms are provided/fitted at no cost. Elective credit is granted for each semester of JROTC unless the course is counted as a substitution for the state 1 credit physical education requirement.

## 953101 JROTC 1

Grade Placement: 9-10
Prerequisite: None
Credit: 1
What's Next? JROTC 2

The focus of all instruction is on the enhancement of responsible citizenship and leadership. Through the Corps of Cadets, students learn to take and respond to orders, prepare for higher positions of responsibility, develop self-discipline, pride, bearing, self-control, and teamwork. Classroom subjects include a study of citizenship values using the Constitution, the Bill of Rights, American Military History; First Aid; and various physical training activities. Students may participate in extracurricular activities such academic team, leadership team, color guard, marksmanship team, drill team, honor guard, and physical fitness team. Several extracurricular competitions and other activities involving all members of the Corps of Cadets are conducted throughout the school year.

953201 JROTC 2
953301 JROTC 3
953401 JROTC 4
Grade Placement: 10-12
Prerequisite: JROTC 1, 2 or 3 recommended Credit: 1

These courses are a continuation of the previous JROTC level and are designed to place students in mid-level organizational leadership positions with increased responsibility and authority. Instruction will reinforce previous leadership and citizenship training and further develop the students' ability to motivate and lead other students. Classroom subjects include intermediate leadership, oral and written communication, military history, the roles of the military forces, first aid, drug abuse prevention, and citizenship.
Additionally, emphasis is placed on applying to colleges, pursuing scholarship opportunities, and understanding the process of college admittance. All extra-curricular activities and field trips are available to enrolled students. For a detailed overview of each JROTC course please go to: https://www.pisd.edu/domain/421

NOTE: Chinese III H is NOT offered on High School ( $9^{\text {th }}$ and $10^{\text {th }}$ grade) campuses. |
| 504651 AP Chinese IV <br> Grade Placement: 11-12 <br> Prerequisite: Chinese III or Chinese III Honors Credit: 1 | AP Chinese IV prepares students to demonstrate intermediate midhigh proficiency across the full range of language skills within a cultural frame of reference. The course will develop reading proficiency of authentic texts, fiction and non-fiction, listening proficiency of formal and colloquial authentic language, and writing proficiency in descriptive, expository, and persuasive styles. This course utilizes critical thinking, reading, and writing skills. The expected outcome of this course is developing intermediate mid intermediate high proficiency and to prepare students for success on the AP Chinese Language and Culture exam. This course is conducted predominately in Chinese. |
| 501101 French I <br> Grade Placement: 9-10 <br> Prerequisite: None Credit: 1 <br> What's Next? French II | French I is an introduction to the French language and culture. Students in this course will develop speaking, writing, and reading proficiency on topics dealing with the everyday life of a student. Students will be guided in recognizing the interrelationships between cultures and will be able to identify cultural perspectives and practices of the Francophone world. The expected outcome of this course is developing novice mid - novice high proficiency. This course is conducted in French a significant amount of time. |
| 502101 French II <br> Grade Placement: 9-12 <br> Prerequisite: French I Credit: 1 <br> What's Next? French III Honors | French II continues to introduce students to French language and culture. Students in this course will develop speaking, writing, and reading proficiency on topics expanded to include life outside of school and in the real world. Students will be guided in recognizing the interrelationships between cultures and will be able to identify cultural perspectives and practices of the Francophone world. The expected outcome of this course Is developing novice high intermediate low proficiency. This course is conducted in French a significant amount of time. |

## 503131 French III Honors

Grade Placement: 10-12
Prerequisite: French I and II
Credit: 1
What's Next? AP French IV

French III Honors introduces students to content-based thematic learning. Students in this course will continue to develop speaking, writing, and reading proficiency as they work with real-life issues, topics, and concerns in specific contexts. Use of applicable resources will allow local and global cultural perspectives within each context. Students in this course will be supported as they expand their vocabulary and increase the complexity of their products by owning their own learning, implementing personal and self-selected vocabulary, and demonstrating an ability to respond to tasks requiring high cognition and creative thinking. The expected outcome of this course is developing intermediate low intermediate mid proficiency. This course is conducted predominately in French.

## 504151 AP French IV

Grade Placement: 11-12
Prerequisite: French I, II and III
Credit: 1

AP French IV prepares students to demonstrate intermediate midhigh proficiency across the full range of language skills within a cultural frame of reference. Students will be expected to demonstrate an understanding of the target culture, incorporate interdisciplinary topics, make cultural comparisons, and communicate in a variety of settings. Using current events, global viewpoints and cultural literature, integrated resources, and content-based instruction, students will develop an increased awareness in the products, practices, and perspectives of the Francophone world. The expected outcome of this course is developing intermediate mid - intermediate high proficiency and to prepare students for success on the AP French Language and Culture Exam. This course is conducted in French.

## 505131 French V Honors

## Grade Placement: 12

Prerequisite: French I, II, III and IV
Credit: 1

French V Honors prepares students to demonstrate Intermediate high-advanced proficiency across the full range of language skills within a cultural frame of reference. Students will be expected to demonstrate an understanding of the target culture, incorporate interdisciplinary topics, make cultural comparisons, and communicate in a variety of settings. Using current events, global viewpoints and cultural literature, integrated resources, and content-based instruction, students will develop an increased awareness in the products, practices, and perspectives of the Francophone world. The expected outcome of this course is developing Intermediate high - advanced mid proficiency and to prepare students for success on the AP French Language and Culture Exam. This course is conducted in French.

## 501201 German I

Grade Placement: 9-10
Prerequisite: None
Credit: 1
What's Next? German II

German I is an introduction to German language and culture. Students in this course will develop speaking, writing, and reading proficiency on topics dealing with the everyday life of a student. Students will be guided in recognizing the interrelationships of between cultures and will be able to identify cultural perspectives and practices of the German speaking world. The expected outcome of this course is developing novice mid - novice high proficiency. This course is conducted in German a significant amount of time.

## 502201 German II

Grade Placement: 9-12
Prerequisite: German I
Credit: 1
What's Next? German III Honors

German II continues to introduce students to German language and culture. Students in this course will develop speaking, writing, and reading proficiency on topics expanded to include life outside of school and in the real world. Students will be guided in recognizing the interrelationships of between cultures and will be able to identify cultural perspectives and practices of the German speaking world. The expected outcome of this course is developing novice high intermediate low proficiency. This course is conducted in German a significant amount of time. NOTE: German III H is not offered on High School (9 ${ }^{\text {th }}$ and $10^{\text {th }}$ grade) campuses.

## 503231 German III Honors

Grade Placement: 11-12
Prerequisite: German I and German II Credit: 1
What's Next? AP German IV

German III Honors introduces students to content-based thematic learning. Students in this course will continue to develop speaking, writing, and reading proficiency as they work with real-life issues, topics, and concerns in specific contexts. Use of applicable resources will allow local and global cultural perspectives within each context. Students in this course will be supported as they expand their vocabulary and increase the complexity of their products by owning their own learning, implementing personal and self-selected vocabulary, and demonstrating an ability to respond to tasks requiring high cognition and creative thinking. The expected outcome of this course is developing intermediate low intermediate mid proficiency. This course is conducted predominantly in German. NOTE: German III H is not offered on High School (9 $9^{\text {th }}$ and $10^{\text {th }}$ grade) campuses.

## 504251 AP German IV

Grade Placement: 12
Prerequisite: German I, II and III
Credit: 1

AP German IV prepares students to demonstrate intermediate midhigh proficiency across the full range of language skills within a cultural frame of reference. Students will be expected to demonstrate an understanding of the target culture, incorporate interdisciplinary topics, make cultural comparisons, and communicate in a variety of settings. Using current events, global viewpoints and cultural literature, integrated resources, and content-based instruction, students will develop an increased awareness in the products, practices, and perspectives of the German speaking world. The expected outcome of this course is developing intermediate mid - intermediate high proficiency and to prepare students for success on the AP German Language and Culture Exam. This course is conducted in German.

## 501401 Spanish I

Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's Next? Spanish II

Spanish I is an introduction to Spanish language and culture. Students in this course will develop speaking, writing, and reading proficiency on topics dealing with the everyday life of a student. Students will be guided in recognizing the interrelationships of between cultures and will be able to identify cultural perspectives and practices of the Spanish speaking world. The focus of this course is developing novice mid - novice high proficiency. This course is conducted in Spanish a significant amount of time.

## 504451 AP Spanish IV

Grade Placement: 11-12
Prerequisite: Spanish III or Spanish III Honors
Credit: 1
What's next? AP Spanish V

AP Spanish IV prepares students to demonstrate intermediate midhigh proficiency across the full range of language skills within a cultural frame of reference. Students will be expected to demonstrate an understanding of the target culture, incorporate interdisciplinary topics, make cultural comparisons, and communicate in a variety of settings. Using current events, global viewpoints and cultural literature, integrated resources, and content-based instruction, students will develop an increased awareness in the products, practices, and perspectives of the Spanish speaking world. The expected outcome of this course is developing intermediate mid - intermediate high proficiency and to prepare students for success on the AP Spanish Language and Culture Exam. This course is conducted in Spanish.

## 505451 AP Spanish V

Grade Placement: 12
Prerequisite: Spanish IV or AP Spanish IV Credit: 1

AP Spanish V is designed to provide students with an introduction to Peninsular and Latin American literature. Students will be expected to focus on literary, poetry, and text analysis, and be able to explicate diverse genres of literature as well as wide variety types of discourse. The expanded timeline will enable students to trace the history of Spanish prose from Don Juan Manuel to modern times. The expected outcome of this course is developing intermediate high - advanced mid proficiency and to prepare students for success on the AP Spanish Literature Exam. This course is conducted in Spanish.

If students choose to accelerate beyond the course offerings for a campus, please note that transportation is not provided and scheduling solutions are not guaranteed.
$152001 \quad$ Algebra I
Grade Placement: $9-10$
Prerequisite: Eighth grade mathematics (for ninth
grade students)
Credit: 1
What's Next? Geometry

What's Next? Geometry

In grades k-8, algebraic reasoning is just one of many mathematical strands studied by students. In this Algebra I course students build on that prior learning with a more focused study of algebraic patterns and representations. This course develops students' ability to think algebraically and reason symbolically. The primary focal points in Algebra I include the study of linear, quadratic, and exponential functions and their related transformations, equations, and associated solutions. Students will use a variety of representations (concrete, pictorial, numerical, symbolic, graphical, and verbal), tools, and technology to model mathematical situations to solve meaningful problems.

The honors Algebra I course enriches student learning within Algebra I to explore functional relationships more deeply. In addition to the coursework listed above, students study connections between algebraic reasoning and other strands of mathematics.

Through elementary and middle school, students explored shapes and measurement related to geometric relationships. In this Geometry course students extend their previous studies to develop more formal arguments and proofs around geometric properties and relationships. Students learn how to communicate about observed relationships in geometric contexts. Explorations include coordinate and transformational geometry, logical arguments and constructions, proof and congruence, figures and their properties, similarity, trigonometry, and probability. Students will use tools to acquire and demonstrate new understandings.

## 153031 Geometry Honors

Grade Placement: 9-10
Prerequisite: Algebra I or Algebra I Honors
Credit: 1
What's Next? Algebra II or Algebra II Honors

This course includes a more challenging and rigorous study of geometric thinking, symbolic reasoning, and properties of figures. Students in this course will further explore relationships between geometry and other areas of mathematics.

## 154001 Algebra II

Grade Placement: 10-12
Prerequisite: Algebra I and Geometry, or concurrently enrolled in Geometry Credit: 1
What's Next? Pre-Calculus

In this course students build on their knowledge from Algebra I to broaden their understanding of functions and extend previous work with systems of equations and inequalities. In previous coursework, students have only worked with three main function families: linear, quadratic and exponential. Algebra II expands on these three functions and broadens students' exploration of patterns with the study of additional functional relationships, including logarithmic, square root, cubic, absolute value, and rational functions. Students will study transformations and inverses of these functions, as well as using the functions in data analysis.

[^0]This course includes a more challenging and rigorous study of algebraic thinking and symbolic reasoning, as well as extensions of the topics listed in the above description. Students use multiple representations and precise mathematical language to describe patterns, solve problems, and justify their reasoning.

| 153501 | Mathematical Models <br> with Applications |
| :--- | :--- |
| Grade Placement: $11-12$ Mathematical modeling is a process that uses mathematics to <br> represent situations, analyze relationships, and make predictions. <br> Prerequisite: Algebra I and Geometry This course is designed to provide students with a better <br> Credit: 1 understanding of mathematics, building on their prior knowledge, <br> What's Next? Algebra II <br>  <br> and create a path to success in Algebra II. Students learn to apply <br> mathematics to areas such as personal finance, engineering, fine <br> arts, and social sciences. What's Next? AP Calculus AB, AP Statistics

#### Abstract

Advanced Quantitative Reasoning (AQR) is a capstone mathematics course that follows Algebra I, Geometry, and Algebra II. It builds on and extends students' prior learning across many math strands, and covers other mathematics topics not typically taught in high school. AQR also helps students develop college and career skills such as collaborating, conducting research, and making presentations.

This course deepens students' mathematical understanding and fluency with algebra and trigonometry, and extends their ability to make connections and apply concepts and procedures at higher levels. This is done through a study of numerous functional relationships, including polynomial, rational, power (including radical), exponential, logarithmic, trigonometric, and piecewisedefined functions. Students analyze the characteristics and behaviors of these functions. Topics also include conic sections, their properties, and parametric representations; sequences and series; and using vectors to model physical situations. Pre-Calculus is designed to prepare students for the study of calculus, whether taken in high school or at the college setting.

This course includes a more challenging and rigorous study of the relationships described above. Students deepen their ability to make connections and apply procedures at higher levels. Additional topics in this course lead to AP Calculus.

## 155031 Pre-Calculus Honors

Grade Placement: 10-12
Prerequisite: Algebra II or Algebra II Honors and Geometry or Geometry Honors
Credit: 1
What's Next? AP Calculus BC, AP Statistics

158001 Statistics
Grade Placement: 11-12
Prerequisite: Algebra I required, Algebra II strongly recommended
Credit: 1

Statistics allows students to build upon and apply their critical thinking skills through the analysis of data and data patterns. In this course students take a step away from previous math coursework focused on functional relationships (Algebra I, Algebra II) to broaden their understanding of data analysis and variability. However, students apply algebraic reasoning developed in earlier courses to make sense of statistical processes. Students will become statisticians through the study of sampling and experimentation, categorical and quantitative data, probability and random variables, inference, and bivariate data. This Statistics course lays a strong foundation for students no matter what studies they wish to pursue, whether the sciences or the arts.

## 158051 AP Statistics

Grade Placement: 11-12
Prerequisite: Pre-Calculus or concurrent enrollment in Pre-Calculus

Credit: 1

AP Statistics is built around four main topics: exploring data, planning a study, understanding probability theory, and acquiring critical inferential reasoning skills. Students will actively participate in both short and long-term projects. This course prepares the student to take the Advanced Placement (AP) Statistics exam.

## 159151 AP Calculus AB 159251 AP Calculus BC

Grade Placement: 11-12
Prerequisite: Pre-Calculus or Pre-Calculus Honors
Credit: 1

AP Calculus AB: This course is the study of elementary functions; limit of a function; derivative; integral and techniques of integration; and applications of calculus to real-world problems in the fields of life science, business and economics, social science, physics, and engineering. Students who have already received credit for AP Calculus $A B$ who enroll in $A P$ Calculus $B C$ will only receive local credit for $1^{\text {st }}$ semester of the course.

AP Calculus BC: Calculus $B C$ represents one semester beyond Calculus AB. It covers all the topics in Calculus AB, but is more extensive. Students cover the additional topics of vector functions, polar coordinates, and Epsilon-delta proofs.
Each course prepares the student to take the corresponding Advanced Placement exam.

## 159301 Multivariable Calculus

Grade Placement: 11-12
Prerequisite: AP Calculus BC with a score of 4 or greater on the AP exam
Credits: 1 (elective credit)

This full year dual credit course takes students through two college level mathematics courses: Calculus 3 (Math 2415) is taught during first semester, and Differential Equations (Math 2320) is taught during second semester. Upon completion of both courses, students will earn 7 hours of college credit through Collin College. This Multivariable Calculus course takes the concepts learned in the single variable calculus course and extends them to multiple dimensions. First semester students will learn advanced topics in calculus, including vectors and vector-valued functions, partial differentiation, Lagrange multipliers, multiple integrals, and Jacobians; application of the line integral, including Green's Theorem, the Divergence Theorem, and Stokes' Theorem. Second semester students will study ordinary differential equations and the application of differential equations to real-world problems.

## 401051 AP Computer Science A

## Grade Placement: 11-12

Prerequisite: Algebra II or concurrent enrollment in Algebra II
Credits: 2 (Note: 1 of 2 credits count toward GPA)

What's next? Computer Science III Honors

This course serves as an introduction to computers and the study of managing and processing information. Students apply algebraic and logical reasoning acquired in mathematics to develop robust programming solutions. The emphasis is on solving real world problems by means of computer programming (software engineering). Students will thoroughly learn the Java programming language and apply those skills in exploring how computers work. Some topics covered include object-oriented techniques, file management, data structures, classes, objects, graphics, debugging, hardware components, and social implications. This course prepares students to take the Advanced Placement Computer Science A exam to possibly earn college credit.
Successful completion of both semesters of this course will satisfy a mathematics credit in the student's graduation plan if a 4th math credit is needed.

556351 Digital Electronics (PLTW)
Grade Placement: 11-12
Prerequisite: Algebra I and Geometry is required.
Successful completion of PLTW Introduction to Engineering Design (IED) or Engineering Science (POE) is required. Engineering Science (POE) is recommended.
Credit: 1 (math credit)

Digital Electronics is the study of electronic circuits that are used to process and control digital signals. In contrast to analog electronics, where information is represented by a continuously varying voltage, digital signals are represented by two discreet voltages or logic levels. This distinction allows for greater signal speed and storage capabilities and has revolutionized the world of electronics. Digital electronics is the foundation of modern electronic devices such as cellular phones, MP3 players, laptop computers, digital cameras, and high-definition televisions. The primary focus of Digital Electronics is to expose students to the design process of combinational and sequential logic design, teamwork, communication methods, engineering standards, and technical documentation. Successful completion of both semesters of this course will receive math credit. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

951501 Mapping for Academic and Personal Success (MAPS)
Grade Placement: 9-10
Prerequisite: None
Credit: . 5 - 1

The course focuses on the skills and strategies necessary for students to make a successful transition into high school and an academic career. Students will explore the options available in high school, higher education, and the professional world in order to establish both immediate and long-range personal goals. After identifying their individual learning styles and abilities, students will build on these abilities by developing critical time management, organization and study skills. The course focuses on selfunderstanding, decision-making, resiliency, attitude, character education, and leadership to help students maximize personal achievement. It emphasizes proactive problem solving, selfdetermination, and independent thinking and learning skills. In addition, students will explore and experience collaboration as a tool for creative problem solving. As part of the goal setting and leadership activities, students may complete an outside community service learning experience in addition to class assignments.

## 951551 AP Capstone: AP Seminar

Grade Placement: 11-12
Prerequisite: None
Credit: 1
What's next? Capstone: AP Research

## 951601 AVID I

Grade Placement: 9
Prerequisite: Recommendation, Application, Interview Required
Credit: 1 - 1.5

AP Seminar is a foundational course that engages students in crosscurricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational literary and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. Students learn to synthesize information from multiple sources, develop their own perspectives in research based written essays, and design and deliver oral and visual presentations, both individually and as part of a team. This course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. Students develop and apply discrete skills identified in the learning of the enduring understandings within the following five big ideas: question and explore; understand and analyze; evaluate multiple perspectives; synthesize ideas; and team, transform, and transmit.

The AVID course is designed to prepare students for success in postsecondary education. This is the beginning-level course which, when combined with AVID 2,3 and 4 , will provide support and skill development in areas specifically aligned with success in rigorous courses in the foundation content areas and in preparing students for success in college. A recommendation, application and interview are required. Students must be accepted into the AVID program. Successful completion of one year of AVID will also satisfy the speech requirement for graduation.

## 952791 Office Aide (NO STATE CREDIT, NO GPA)

Grade Placement: 10, 12
Prerequisite: Interview/selection
Credit: 0

Students will receive experience in various campus offices or counselors' offices. A student may be an aide for a maximum of 2 semesters in four years.

| 952301 | Student Senate (Government \& Leadership) | This course is designed to help students gain knowledge of leadership skills and an understanding of parliamentary procedure. A weekly agenda is followed during which these skills are practiced in planning and making decisions concerning numerous social and service activities organized by this governing body. The class is composed of twelve seniors and twelve junior representatives who are elected to serve from their respective Student Councils. Students can only earn 1 credit in $\mathbf{2}$ years. |

## High School Physical Education

In physical education, students acquire the knowledge and skills for movement that provide the foundation for enjoyment, continued social development through physical activity, and access to a physically active lifestyle. The student exhibits a physically active lifestyle and understands the relationship between physical activity and health through the lifespan.

## Physical Fitness Assessment

Each student identified by the Texas Education Agency will participate in an annual physical fitness assessment. The Fitnessgram assessment instrument will contain criterion-referenced standards specific to a student's age and gender based on the physical fitness level required for good health. Good health components will include an aerobic capacity, body composition, muscular strength, muscular endurance and a flexibility assessment.

## 301101 Foundations of Personal Fitness

Grade Placement: 9-12
Prerequisite: None
Credit: .5-1

The purpose of Foundations of Personal Fitness is to motivate students to strive for lifetime personal fitness with an emphasis on the health-related components of physical fitness. This course consists of a classroom and fitness based curriculum, which includes a classroom and physical activity approach. Knowledge and skills taught in this course include teaching students about the process of becoming fit as well as achieving some degree of fitness within the class. Students will design their own personal fitness program as one of the objectives of the class. Students enrolled in Foundations of Personal Fitness could experience activity levels of moderate to high intensity.
302401 Adventure/Outdoor

Grade Placement: 9-12
Prerequisite: None
Credit: .5-1

Students, enrolled in adventure/outdoor education, are expected to develop competency in Adventure/Outdoor Education activities that provide opportunities for enjoyment and challenge. Emphasis is placed upon student selection of activities that also promote a respect for the environment and that can be enjoyed for a lifetime.

Adventure/Outdoor Education includes activities such as archery, backpacking, camping, cycling, hiking, fishing, martial arts, orienteering, rollerblading, or new games. Knowledge of The National Parks Association, Endangered Species Information, Boating Safety and Hunting Safety are a part of the curriculum. Recreational pursuits include field experiences, navigation, water recreation, and recreational shooting.

| $\mathbf{3 0 2 2 0 1} \quad$ Aerobic Activities | Students enrolled in Aerobic Activities are exposed to a variety of |

## 30250B Team Sports

Grade Placement: 9-12
Prerequisite: None
Credit: . 5

Students enrolled in Team Sports are expected to develop healthrelated fitness and an appreciation for teamwork and fair play. Students will have the opportunity to participate in and develop more advanced skills in team sports.

Team sports include activities such as basketball, field hockey, flag football, floor hockey, kickball, lacrosse, new games as developed, soccer, softball, team handball, Ultimate Frisbee and volleyball. Students enrolled in Team Sports could experience activity levels of moderate to high intensity.

## 30260B Individual Sports

Grade Placement: 9-12
Prerequisite: None
Credit: . 5

Students enrolled in Individual Sports are expected to participate in a wide range of individual sports that can be pursued for a lifetime. The continued development of health-related fitness and the selection of Individual sport activities that are enjoyable is a major objective of this course. Students will have the opportunity to participate in and develop more advanced skills in individual sports.

Individual Sports include activities such as archery, badminton, bicycling, bowling, golf, handball, new games as developed, pickle ball, self-defense, table tennis, tennis, track and field, and weight training. Students enrolled in Individual Sports could experience activity levels of moderate to high intensity.

| 302901 | Weight Training (Team <br> or Individual Sports) | Students enrolled in this course will be taught correct lifting form. <br> Students will establish a personal program to include circuit training <br> and/or individualized training programs. Aerobic fitness training will be <br> incorporated into the course. |

|  | Students enrolled in Weight Training could earn a 0.5 credit of Team <br> Sports and/or a 0.5 credit of Individual Sports. *Students who have <br> already earned credit in Team Sports and/or Individual Sports will <br> receive no credit for Weight Training. |  |

## Campus \# Partners Physical Education

Grade Placement: 9-12
Prerequisite: Recommendation and approval of counselor
Credit: .5-4

Students enrolled in this course assist Special Education Services students in a variety of physical education activities. Students enrolled in this course will be working with special needs students.
(STEP)
Grade Placement: 9-12
Prerequisite: None
Credit: .5-1

302301 Aerobic Activities

This course is designed to create and produce dance and step rhythmic movements that embody the history of African dance. Students will develop a personal fitness program that uses aerobic activities as a foundation. Students enrolled in this course could experience activity levels of moderate to high intensity. Students enrolled in STEP could earn up to 2 semesters of Aerobic Activities credit. This course may include performances at pep rallies and some sports events. Other performances may include some district performances/activities.

## 95265B Team Sport Officiating

Grade Placement: 9-12
Prerequisite: None
Credit: . 5 (elective credit)

Students enrolled in the Team Sport Officiating Course will learn rules and regulations of selected team sports. While working with coaches, players, other officials and parents, students will develop skills in the area of communication, decision-making, and conflict management needed to officiate team sport competitions. Students will develop a personal fitness and injury prevention plan that directly relates to the needs of an official. Students will understand and apply time management skills required and recognize legal rights and responsibilities of an official involved with youth sports in the $21^{\text {st }}$ century. Cardiopulmonary resuscitation (CPR), use of an automated external defibrillator (AED) and basic first aid skills will be taught in class. Students will be certified in CPR/AED first aid and receive an officiating certificate upon successful completion of course. Students may take this course in conjunction with a physical education course or an equivalent. This course does not meet the state requirement for PE credit.

## READING

To find out more about the Reading Texas Essential Knowledge and Skills (TEKS) click here.

| $10320 B$ | College Reading Applications | $10-12$ | .5 |

| 105101 Academic Literacy I | This year course is designed for students who need literacy strategies |
| :---: | :---: |
| Grade Placement: 9-12 | and skills in order to ensure success in high school and beyond. |
| Prerequisite: None | Academic Literacy I involves practicing literacy strategies for students |
| Credit: 1 | to build success and become proficient in the areas of word analysis, vocabulary, reading fluency, written response, and critical thinking, therefore, preparing students for college readiness and/or postsecondary success. Students who fail to meet satisfactory on $8^{\text {th }}$ Grade STAAR Reading or fall below district criteria are required to take this course. |

## 105201 Academic Literacy II

Grade Placement: 10-12
Prerequisite: None
Credit: 1

This second year course for literacy strategies is designed for students who need an additional year in focused literacy to ensure success in high school and beyond. Academic Literacy II focuses on helping students grow into critical thinkers/readers and develop diverse levels of literacy for college readiness and/or post-secondary success. Students who fail to meet satisfactory on STAAR/EOC or fall below district criteria are required to take this course.

## 105301 Academic Literacy III

Grade Placement: 11-12
Prerequisite: None
Credit: 1

This third year course for literacy strategies is designed for students who need literacy strategies/skills to ensure passing state standards as well as success beyond high school. Academic Literacy III emphasizes reading, writing, and critical inquiry to further develop academic literacy for college readiness and/or post-secondary success. Students who fail to meet satisfactory on EOC, fall below district criteria, or need focused literacy skills should take this course.

## 10320B College Reading Applications

Grade Placement: 10-12
Prerequisite: None
Credit: . 5

College Reading Applications expands students' command of college-level reading/writing and discourse skills, expounds collegebound readers' vocabulary growth, and increases critical reading/thinking skills. Students will have access to SAT practice materials.

## SCIENCE

To find out more about the Science Texas Essential Knowledge and Skills (TEKS) click here.
Those science courses, which offer dissection as a means of instruction, will provide alternative assignments for those students and parents who have justifiable objections to dissection.

| $\mathbf{2 0 1 0 0 1}$Integrated Physics and <br> Chemistry <br> (IPC) | IPC integrates the disciplines of physics and chemistry in topics such <br> as: motion, waves, energy, transformations, properties of matter, <br> changes in matter, and solution chemistry. Laboratory investigation <br> will be a primary focus in instruction. Student investigations |
| :--- | :--- |
| emphasize accurate observations, collection of data, data analysis, |  |
| Grerequisite: None 9 and the safe manipulation of laboratory apparatus and materials in |  |
| Credit: 1 |  |
| the laboratory. This course must be taken prior to chemistry or |  |
| physics. |  |

## 204151 AP Biology (second year)

Grade Placement: 11-12
Prerequisite: Biology, Chemistry
Credit: 2 (1 AP Biology and 1 Advanced Biology Lab)

AP Biology is a two-hour course designed to be the equivalent of an
introductory college-level course. AP Biology is the study of general
biological principles. Cytology, biochemistry, developmental biology,
genetics, ecology, and various aspects of adaptation are studied.
Relationships and applications of concepts within and among the
various sciences are explored. Laboratory investigations are an
integral part of the course. This course prepares students for the
Biology Advanced Placement exam.

## 205001 Chemistry (first year)

Grade Placement: 10-12
Prerequisite: Algebra I credit required and completion of Biology or IPC
Credit: 1
What's Next? AP Biology, Physics, Physics Honors, or AP Chemistry

Chemistry is the study of the structure, composition, and behavior of matter. The course of study emphasizes the investigation of matter, its interactions, and the factors affecting the interactions. Chemistry is a laboratory-oriented course that stresses the observation of matter and its behavior, classification of matter, communication of data, measurement of chemical quantities, prediction of chemical phenomena, and manipulation of chemical investigations.

| 205031 Chemistry Honors (first year) | The Chemistry Honors course is designed to introduce the student to the qualitative and quantitative aspects of a first year chemistry |
| :---: | :---: |
| Grade Placement: 10-12 | program. An in-depth study of the mathematical applications will be |
| Prerequisite: Algebra I and Biology | stressed. The course will emphasize the theoretical concepts of |
| Credit: 1 | molecular bonding, thermodynamics, kinetics, and equilibrium. The |
| What's Next? Physics or Physics Honors | descriptive aspects of the periodic table will be dealt with throughout the course. Students will complete an independent research project. |

## 205151 <br> AP Chemistry (second year)

Grade Placement: 11-12
Prerequisite: Chemistry, Biology
Credit: 2 (1 AP Chemistry and 1 Advanced Chemistry Lab)

AP Chemistry is a second year, two-hour course designed to be the equivalent of an introductory college-level course. Study focuses on matter, its interactions, and energy of matter. Some topics included are thermochemistry, chemical bonding, kinetics, equilibrium, and electrochemistry. Laboratory investigation is an integral part of the course. This course prepares students to take the Chemistry Advanced Placement exam.

## 206001 Physics (first year)

Grade Placement: 11-12
Prerequisite: Algebra I and Geometry, 2 credits of science
Credit: 1
What's Next? AP Physics 1-2, AP Physics C, AP Chemistry, AP Biology, AP Environmental Science, or science choice

Physics I is the study of matter and energy and their interactions. Students are introduced to fundamental concepts in the areas of mechanics, light, sound, heat, electricity, magnetism, and nuclear phenomena. Student investigations emphasize accurate observations, collection of data, analysis of data, and the safe manipulation of laboratory apparatus and materials.

206031 Physics Honors (first year)
Grade Placement: 11-12
Prerequisite: 2 credits of science, concurrent enrollment in Algebra II
Credit: 1
What's Next? AP Physics 1-2, AP Physics C, AP Chemistry, AP Biology, AP Environmental
Science, or $4^{\text {th }}$ year science

Physics Honors is the study of physical principles, which govern the behavior of matter. It includes mechanics, electricity, magnetism, thermodynamics, kinetic theory, electromagnetic radiation, optics, and atomic and nuclear physics. In introducing fundamental physical concepts emphasis will be placed on the use of mathematics in formulating physical principles and in problem solving; thus a strong math background is necessary.

## 20615B AP Physics 1

 (second year)Grade Placement: 12
Prerequisite: Physics, Geometry, and Algebra II, or concurrent enrollment in Algebra II or an equivalent course
Credit: 1

AP Physics 1 is the first semester course of a yearlong course that provides a systematic introduction to the main principles of physics and emphasizes the development of conceptual understanding and problem solving using algebra and trigonometry. Students explore principles of Newtonian mechanics (including rotational motion); work, energy, and power; mechanical waves and sound; and simple circuits. The course is based on six Big Ideas, which encompass core scientific principles, theories, and processes that cut across traditional boundaries and provide a broad way of thinking about the physical world. This course prepares the student to take the Physics 1 advanced Placement exam. Students who have completed this course, may not enroll in either AP Physics C Mechanics or AP Physics C Electricity and Magnetism.

## 20625B <br> AP Physics 2

 (second year)Grade Placement: 12
Prerequisite: Physics, Geometry, and Algebra II, or concurrent enrollment in Algebra II or an equivalent course
Credit: 1

AP Physics 2 is the second semester course of a yearlong course that provides a systematic introduction to the main principles of physics and builds upon the Physics 1 AP course by providing instruction in principles of fluids, thermodynamics, electricity, magnetism, optics, and topics in modern physics. The course is based on seven Big Ideas, which encompass core scientific principles, theories, and processes that cut across traditional boundaries and provide a broad way of thinking about the physical world. This course prepares the student to take the Physics 2 Advanced Placement exam. Students who have completed this course, may not enroll in either AP Physics C Mechanics or AP Physics C Electricity and Magnetism.

## 20635B AP Physics C Mechanics (second year)

Grade Placement: 12
Prerequisite: Physics, AP Calculus, or concurrent enrollment in AP Calculus

Credit: 1

AP Physics C Mechanics is the first semester course of a yearlong course. In this course, the use of calculus in problem solving is introduced. This course applies both differential and integral calculus and provides instruction in each of the following six content areas: Kinematics, Newton's laws of motion, Work, energy and power, Systems of particles and linear momentum, Circular motion and rotation, and Oscillations and gravitation. This course prepares the student to take the Mechanics Advanced Placement C exam.
Students who have completed this course, may not enroll in either AP Physics 1 or AP Physics 2.

20645B AP Physics C Electricity and Magnetism (second year)

Grade Placement: 12
Prerequisite: Physics, AP Calculus, or concurrent enrollment in AP Calculus

Credit: 1

AP Physics C Electricity and Magnetism is the second semester course of a yearlong course. This course applies both differential and integral calculus, and builds upon the AP Physics C: Mechanics course by providing instruction in each of the following five content areas: Electrostatics, Conductors, capacitors, and dielectrics, Electric circuits, Magnetic fields, and Electromagnetism. This course prepares the student to take Electricity and Magnetism Advanced Placement C exam. Students who have completed this course, may not enroll in either AP Physics 1 or AP Physics 2.

## 208201 Environmental Systems

Grade Placement: 11-12
Prerequisite: 2 credits of high school science (Biology and IPC or Chemistry)
Credit: 1

The Environmental Systems course focuses on the study of the environment with emphasis on ecology and natural resources. The current energy situation will be studied, and recycling of natural resources will be evaluated. Emphasis on people and society, including cultural perspectives and pollution problems will be made.

## 208251 AP Environmental Science

Grade Placement: 11-12
Prerequisite: Algebra I, Biology and Chemistry Credit: 1

## 207501 Earth and Space Science

Grade Placement: 11-12
Prerequisite: 2 credits of high school science (Biology and IPC or Chemistry)
Credit: 1

| 207501 | Earth and Space |
| :--- | :--- |
|  | Science |

The AP Environmental Science course is interdisciplinary and will provide students with scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. This course prepares the student to take Advanced Placement exam.

| 208001 | Honors Scientific <br> Research and Design |
| :--- | :--- |

Grade Placement: 9-12
Prerequisite: Concurrent enrollment in an advanced level science course and approval of instructor through application.
Credit: 1-3
Earth and Space Science is based on Earth's system in space and time. The approach has three themes of Earth in space and time, solid Earth, and fluid Earth. In each theme are included the strands of systems, energy and relevance. Natural and human events and their effect on Earth's systems will be studied within the context of the three themes and strands.

> Students will explore science and become acquainted with the scientific community, improve fundamental research skills, apply statistical analysis, and enhance oral and visual presentation techniques. Each student will be required to develop his/her own independent science research project and will learn how to structure, organize, publish, and present the project in one or more formal presentations to a panel of judges. It is required that all student independent research projects be judged. *Students enrolling in Biology Dual Credit as seniors can only have two credits of Honors Scientific Research and Design prior to their senior year.

## 552251 Food Science

Grade Placement: 11-12
Prerequisite: Biology and IPC or Chemistry
Credit: 1 ( $3^{\text {rd }}$ or $4^{\text {th }}$ science credit)
What's next? Culinary Arts

Food Science is the study of the nature of foods, the causes of deterioration, the principles underlying food processing and the improvement of foods for the consuming public. Food Science students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Successful completion of both semesters of this course will satisfy a science credit.

## 556201 Engineering Science

 (PLTW)Grade Placement: 10-12
Prerequisite: Geometry or concurrent enrollment and Chemistry or concurrent enrollment is required. Successful completion of Intro to Engineering Design (IED) is recommended.
Credit: 1 (science credit)

This course is part of the Project Lead The Way (PLTW.org) preengineering sequence. Applying the principles of physics to various technology systems and manufacturing processes helps students learn how engineers and technicians use science, technology, and math in an engineering problem solving process. Topics covered include: mechanisms and mechanical advantage, static forces and bridge design, material properties, energy and power generation, thermodynamics, kinematics, fluid power, and creation of $C$ language programs for robotics and machine control. Successful completion of both semesters of this course will receive science credit. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

|  |  |

## 252001 World History

Grade Placement: 9-12
Prerequisite: None
Credit: 1

This course is a survey of world history and focuses on concepts and skills that apply to various eras, events, and people. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Students evaluate the causes and effects of political, economic, geographic, and cultural interactions over time. Students will discover connections between the past and contemporary society.

## 252031 World History Honors

Grade Placement: 9-10
Prerequisite: None
Credit: 1
What's next? US Government or Economics or US Government Honors or Economics Honors

Honors World History encompasses all of World History and increases the depth and complexity of the topics studied. The course includes an emphasis on the development of civilizations from ancient times to the present. The students will use primary source materials extensively. In addition, research, critical thinking, and writing skills will be developed through creative student driven activities.

## 252151 AP World History

Grade Placement: 10
Prerequisite: None
Credit: 1
What's next? AP US History

This course may be taken to fulfill the World History requirement for graduation. This course focuses primarily on the past thousand years of the global experience. It emphasizes the empires of China and Mesoamerica; the expansion of Islam; the period of new political credits in Africa and Europe; and social, cultural, and economic developments around the world. This course prepares the student to take the Advanced Placement examination. If a student has earned a credit in World History or World History H/IH, enrollment in AP World History course will not count as a credit.

## 101041 Humanities I English I GT (English I Honors)

Grade Placement: 9
Prerequisite: Identification / Selection as Gifted Credit: 1

## 252041 Humanities II AP World History GT (AP World History)

Grade Placement: 10
Prerequisite: Identification / Selection as Gifted Credit: 1
What's next? American Studies; Advanced Placement courses
 Humanities I English I GT and Humanities II AP World History GT are courses that provide gifted students with opportunities not available through regular or advanced classes. The course integrates the Humanities into a combined English I Honors and AP World History two-year interdisciplinary course. The curriculum includes a historical study of the commonalities of the fine arts including literature, the visual arts, architecture, and music. Humanities I focuses on the period up to the Renaissance; Humanities II examines the period from the Renaissance to contemporary times. Students will learn and practice the craft of writing through various products. Literature from a variety of world traditions will also be a key focus. Ninth and tenth grade students will sit in the same class while earning credit in separate courses; ninth graders will earn English I Honors credit while tenth graders earn AP World History credit. At the conclusion of Humanities II, students may choose to sit for the AP World History exam in the hopes of earning college credit. Humanities does NOT fulfill the fine arts requirement for graduation and is not recognized as a fine arts course by TEA.

## 25220B Contemporary World Issues

Grade Placement: 11-12
Prerequisite: None
Credit: . 5

This elective course will emphasize the present and future world. It will be as relevant as today's events. As issues emerge, the historical, geological, political, and economic context of the area and issue involved will be studied. Thus, this course should provide an excellent vehicle for further development and application of geographic knowledge and skills. Also, through reading and reference skills, students will be required to understand how a country such as the US is organized to respond to world issues and events, making citizenship in an interdependent world a major focus.

## 251001 United States History

Grade Placement: 11-12
Prerequisite: Cannot be taken until after 10th grade
Credit: 1

Historical content in this course focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic agendas, foreign policies, and reform movements, including civil rights. Additional themes include geography, diplomacy and cultural reactions to major events from 1877 to modern times. Students use critical-thinking skills with a variety of primary and secondary source material to explain and apply different methods that historians use to understand and interpret the past, including multiple points of view and historical context.

| 251051 AP United States History | This course explores United States history from the Colonial Era through the present. Cultural diversity, the role of minorities, and the |

S14251 American Studies (AP English III Language and Composition and AP US History)
Grade Placement: 11
Prerequisite: G/T Identification or World History AP recommended
Credit: 2
What's next? American Principles or The Human Experience: Culture, Media and Perception

Designed for the gifted and/or accelerated learner, American Studies integrates the Humanities into a combined AP US History and AP English III Language and Composition course to create a daily two hour cultural experience which demands students to simultaneously explore the connections between literature, history and the Humanities. Students will explore the history of the United States with an emphasis on both collaborative and independent work that emphasizes the study of rhetorical styles and the structures of important historical documents and readings. This course considers cultural accomplishments as manifested in art, architecture, literature, music, theater and philosophy. American literature of all genres is incorporated into the curriculum to enhance the depiction of various historical time periods. At the conclusion of the course, students may choose to take both the AP US History and the AP English Language and Composition exams to possibly earn college credit.

## S25425 American Principles (AP Economics and AP Government)

Grade Placement: 12
Prerequisite: G/T Identification or American
Studies recommended
Credit: 1

American Principles is the senior year offering for students receiving gifted services and/or high achieving students seeking an integrated learning experience. This course combines AP Economics, AP Government, and the Humanities. Although the first semester will focus on Government and the second semester on Economics, both subject areas will be referred to throughout the year. The elements of the Humanities will be considered as both a citizenry's response to, and a catalyst for, governmental and economic decisions and public policy. Students may choose to sit for both the AP Economics and the AP Government exams at the end of the course.

## 25400B United States Government

Grade Placement: 11-12
Prerequisite: U.S. History or concurrent enrollment in U.S. History
Credit: . 5

United States Government will assist students in acquiring knowledge of the structure, functions, and development of our system of government. The course will analyze the political institutions, processes, and civic values inherent in our political system and provide students the opportunity to develop and apply the participatory skills needed to carry out civic responsibilities and exercise their rights as citizens. It will also provide students the opportunity to analyze and compare political institutions, processes, and civic values of the United States with those of other political systems as well as opportunities to develop appropriate democratic values and support for the American free enterprise system.

History or concurrent U.S. History | Economics is the study of how people and countries deal with the problem of scarcity--not enough goods and services to satisfy everyone's wants and needs. To understand this problem, students will study the market system, American business organizations, supply and demand, money and banking system, the national economy, international trade, and other economic systems. In a blended class, students access some/most course content online and independently. This class will meet face-to-face on a schedule specified by the teacher. During times the student is not required to attend the face-to-face class, he/she may or may not be on campus during that class period. However, if the student is on campus, he/she must be in one of the areas specified by the campus administration. |

The content will include analysis of economic concepts; nature and function of product markets; factor markets, market failure and the role of government. Students will have the opportunity to take the Advanced Placement examination at the conclusion of the course. This course may fulfill the graduation requirement for Economics. |

## 25700B Psychology

Grade Placement: 11-12
Prerequisite: None
Credit: . 5

This course will introduce the student to the science of psychology with emphasis on human behavior. Content of the course will include the study of the facts involved in learning and thinking, intelligence, human development, personality theories, defense mechanisms, abnormal behavior and treatment, and careers in psychology.

## 25705B AP Psychology

Grade Placement: 11-12
Prerequisite: None
Credit: . 5

AP Psychology is designed to meet the requirements of a college level course in psychology. Many topics explored in the regular course will be developed to a higher level. This course prepares the student for the Advanced Placement exam which they will be given the opportunity to take in May. Students may take Psychology and AP Psychology and be awarded state elective credit for each course.

## 45250B Visual Media \& Analysis Production

Grade Placement: 11-12
Prerequisite: None
Credit: . 5
What's Next? Any Speech elective

Students will study the history, functions, and laws affecting broadcast media. They will consider the impact of radio and television on society. They will be involved with script composition, production techniques, and the role of the broadcast media consumer.

## 453731 Oral Interpretation III Honors

Grade Placement: 11-12
Prerequisite: Oral Interpretation II, audition and application may be required
Credit: 1

This is the third course for those students wishing to continue their study of oral interpretation. Although encompassing the same public speaking and oral interpretation skills and course expectations as the regular oral interpretation course, this class has an added emphasis on research and individualized study, leading to the development of comprehensive oral interpretation skills. This course requires a contract for completion of course requirements in order to receive honors credit. Students will exhibit a working knowledge of vocal development in the oral interpretation process. Students will also evaluate oral interpretation performances, critiquing the positive and negative aspects of the performance, and providing suggestions for improvement.

## 454731 Independent Study in Speech Honors

[^1]This course is designed to provide opportunity for advanced students to plan, organize, produce, perform and evaluate a project that enables them to develop advanced skills in communication, critical thinking and problem solving. Students must be highly organized and self-motivated for the personalized, independent nature of this course.

## CAREER \& TECHNICAL EDUCATION

Career \& Technical Education (CTE) provides opportunities for students to gain knowledge and skills they may use in high school, college, a career after graduation, and/or a financial means to help further their education. CTE blends academics and career skills to produce well-rounded graduates. Plano ISD CTE: https://www.pisd.edu/cte

## Plano ISD offers CTE courses in the following Career Clusters that will fulfill the criteria for several of the new Endorsement pathways:

| - Agriculture, Food and Natural Resources | - Human Services |
| :--- | :--- |
| - Architecture and Construction | - Information Technology |
| - Arts, Audio/Visual Technology and Communications | - Law, Public Safety, Corrections and Security |
| - Business Management and Administration | - Manufacturing |
| - Education and Training | - Marketing, Sales and Service |
| - Finance | - Science, Technology, Engineering and Mathematics |
| - Health Science | - Transportation, Distribution and Logistics |
| - Hospitality and Tourism |  |

For more information on graduation requirements and endorsements visit: https://www.pisd.edu/coursecatalogs.
It is the policy of Plano ISD not to discriminate on the basis of race, color, national origin, sex or handicap in its vocational programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Educational Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended. Plano ISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs. Plano ISD will take steps to ensure cost will not prevent access to programs.

## Career Preparation courses and Internships

A student planning to enroll for the first time in a $2-3$ hour intern program or a career preparation program is expected to complete a student information form. This form may be obtained from the counselor's office.

## Fine Arts Credit

Successful completion of both semesters of Floral Design will satisfy the Fine Arts 1.0 credit graduation requirement.

## Health Credit

Successful completion of both semesters of Health Science Theory will fulfill the Health .5 credit graduation requirement.

## Math Credit

A math credit may be fulfilled by successful completion of both semesters of:

- Accounting II Honors
- Digital Electronics (PLTW)

## Science Credit

A science credit may be fulfilled by successful completion of both semesters of:

- Anatomy and Physiology
- Food Science
- Forensic Science
- Honors Scientific Research and Design
- Engineering Design and Problem Solving
- Engineering Science PLTW

## Speech Credit

Successful completion of Professional Communications will fulfill the speech .5 credit graduation requirement.

## CAREER \& TECHNICAL EDUCATION

## Agriculture, Food and Natural Resources

| :--- | :--- |
| Grade Placement: 11-12 | technologies. Students will learn how to use both woodworking and <br> metal working tools and equipment safely. Students are given the |
| Creatit: 1 | opportunity to develop leadership skills through the FFA organization. <br> A course fee may be required for projects that can be taken home by <br> the student. Please note this is a one semester course receiving 1.0 <br> credit. |

## 55145B Equine Science

Grade Placement: 11-12
Prerequisite: None
Credit: . 5

This course is designed to develop knowledge and skills pertaining to the selection, nutrition, reproduction, health, and management of horses. Students will learn the basic principles of care and training. Students are given the opportunity to develop leadership skills through the FFA organization.

## 55115Q Horticulture Science

Grade Placement: 9-12
Prerequisite: None
Credit: 1

This course offers students the opportunity to explore plant systems and common horticulture management practices as they relate to food and ornamental plant production. Topics include ornamental trees and shrubs, insects, plant diseases, weed management, soils and plant nutrition, vegetable gardening, home fruit production, garden flowers and water conservation. Students are given the opportunity to develop leadership skills through the FFA organization. This course provides instruction and training necessary for the Junior Master Gardener Certification. Please note this is a one semester course receiving 1.0 credit.

## 55155B Landscape Design and Management

Grade Placement: 9-12
Prerequisite: None
Credit: . 5

## 55160B Turf Grass Management

Grade Placement: 9-12
Prerequisite: None
Credit: . 5

This course is designed to introduce students to horticultural sciences with emphasis on the technical skills involved in the designing, construction, and maintenance of planted areas and devices for the beautification of home grounds and other areas of human habitation and recreation. Students are given the opportunity to develop leadership skills through the FFA organization.

This course is designed to develop an understanding of turf grass management techniques and practices. Students will gain a greater understanding of the benefits of turf grass in the residential, commercial and athletic settings. Students are given the opportunity to develop leadership skills through the FFA organization.

55195B Professional Standards in Agribusiness
Grade Placement: 9-12
Prerequisite: None
Credit: . 5

This course includes topics in leadership, personal development, employee/employer relations, interpersonal communication, entrepreneurship, career opportunities, leadership styles, motivation and influence, preparing resumes and applications, job interviews, employer expectations, problem solving, setting personal goals and time management. Students are given the opportunity to develop leadership skills through the FFA organization.

## 55130Q Livestock Production

Grade Placement: 9-12
Prerequisite: None
Credit: 1

## 551501 Floral Design

Grade Placement: 11-12
Prerequisite: None
Credit: 1 (fine arts credit)
What's next? Floral Design II (Advanced Floral Design) or Practicum in Agriculture, Food \& Natural Resources: Floral Design

This course is designed to enhance knowledge and skills pertaining to the production and marketing of domestic livestock. It provides the student with the opportunity to work with live animals while learning technical skills relating to human, scientific and technological dimensions of animal systems, anatomy and physiology, nutrition, reproduction, genetics, pests and diseases, and business management and operation skills. Students are given the opportunity to develop leadership skills through the FFA organization. Please note this is a one semester course receiving 1.0 credit.

This is an activity-based course which prepares students to develop competencies in flower classification and identification, geometric and specialized floral designs, identification and classification of plants, interior landscape development, and the use of artistic elements in personal designs. Students will learn business practices as they relate to the floral industry, and are given the opportunity to develop leadership skills through the FFA organization. Successful completion of both semesters of this course will satisfy the Fine Arts (1.0) credit required for graduation. This course provides instruction and training necessary for the Texas State Florists' Level 1 Certification.

| Credit: 2 |  | course must provide their own transportation. The approximate student cost for the required uniform is $\$ 75.00$. This purchase will be the property of the student. This is an Honors Level course (beginning with the graduating class of $2023^{\circ}$ ). |

| 552951 | Practicum in |
| :--- | :--- |
|  | Agriculture, Food and |
|  | Natural Resources: |
|  | Floral Design |

Grade Placement: 12
Prerequisite: Principles and Elements of Floral Design and High School Floral Design Certification from the Texas State Floral Association or Ag Science teacher recommendation in lieu of prerequisites.
Credit: 2

This course prepares students for careers in the field of floral design. It is delivered through classroom-based instruction and internship, job shadowing, and/or employment arrangements with local floral businesses. Students are given the opportunity to develop leadership skills through the FFA organization. Students enrolled in this course must provide their own transportation. The approximate student cost for the required uniform is $\$ 25.00$. This purchase will be the property of the student. This is an Honors Level course (beginning with the graduating class of $2023^{\circ}$ ).

## 55110Q Wildlife, Fisheries and

 Ecology ManagementGrade Placement: 9-12
Prerequisite: None
Credit: 1

This course is designed to examine the importance of wildlife and outdoor recreation with emphasis on using scientific knowledge to study wildlife and natural resources. Also included in the course are sections covering boater education, angler education, and hunter education. Students are also given the opportunity to develop leadership skills through the FFA organization. This course provides instruction and training necessary for the Texas Hunter Education and Boater Education Certifications. Please note this is a one semester course receiving 1.0 credit.

## 55170Q Principles of Agriculture, Food, and Natural Resources

Grade Placement: 9-10
Prerequisite: None
Credit: 1

This comprehensive course prepares students for careers in agriculture, food, and natural resource management. Students benefit from the basis of agricultural knowledge as this course allows students to explore areas of animal, plant, food, agribusiness, and environmental sciences while developing their awareness and gaining knowledge and skills that promote personal development and career success. Students are also given the opportunity to develop leadership skills through the FFA organization. Please note this is a one semester course receiving 1.0 credit.

## CAREER \& TECHNICAL EDUCATION

## Architecture and Construction

To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

55235Q Interior Design I

Grade Placement: 11-12
Prerequisite: None
Credit:

Interior Design I is a technical course that addresses psychological, physiological, and sociological needs of individuals by enhancing the environments in which they live and work. Emphasis is placed on home construction, the elements and principles of design, styles and quality of furniture. Background areas of homes and offices such as wall, window, ceiling, floor treatments and accessories will be analyzed for selection and use. Students will use knowledge and skills related to interior and exterior environments, construction, and furnishings to make wise consumer decisions, increase productivity, promote sustainability and compete in industry. Please note this is a one semester course receiving 1.0 credit.

## 403001 Digital Design and <br> Media Production

Grade Placement: 9-12
Prerequisite: Proficiency in keyboarding and computer file management

Credit: 1

In this project-based course, students will learn design theory and technology skills for producing effective publications. While developing skills in page layout, editing, and graphic design, students will plan and produce documents such as newsletters, brochures, posters, marketing materials, and magazines. Students will also learn how to integrate digital content such as video, audio, text, graphics, and motion graphics into publications.

Students will analyze the current and emerging technologies, while designing and creating multimedia projects. Students will develop proficiency in the use of text, graphics, animation, audio, and video. Students will utilize these skills to produce a variety of projects and presentations using Web Tools and Adobe Creative Cloud applications. The knowledge and skills acquired and practiced will enable students to successfully perform and interact in a technologydriven society.

| 553101 Fashion Design I <br> Grade Placement: 11 - 12 <br> Prerequisite: None <br> Credit: 1 | In this one-hour, full-year course, students will be introduced to the exciting world of the fashion industry. Course content will include the history of costume, garment styles, textiles, clothing construction, principles and elements of design, fashion merchandising and promotion, and careers in fashion. |
| :---: | :---: |
| 553151 Fashion Design II and Fashion Design II Lab <br> Grade Placement: 11-12 <br> Prerequisite: Fashion Design I <br> Credits: 2; Fashion Design II (1 credit) and Lab (1 credit) must be taken as a consecutive block | In this two-hour, full-year course, students will build upon the skills acquired in Fashion Design I. Projects include the design, construction, and marketing of the student's own collection of clothing. Quality clothing construction, fashion merchandising, and business concepts are an integral part of the course. The year culminates with the production of a fashion show featuring student designs! |
| 556801 Graphic Design and <br> Illustration I (1 hour) <br> 557301 Graphic Design and <br> Illustration I and <br> Graphic Design and <br> Illustration I Lab (2 <br> hour) | This one or two-hour, full-year course provides training for entry-level employment in the graphic design field. Instruction includes basic components of graphic design and the development of the creative process from concept to finished product. Students will learn traditional techniques as well as current computer software technologies. Career opportunities will be explored. Careers in graphic design and illustration span all aspects of the advertising and visual communications industries. |
| Grade Placement: 11-12 <br> Prerequisite: None <br> Credits: 1 or 2; For 2 hour version: Graphic Design and Illustration I ( 1 credit) and Lab (1 credit) must be taken as a consecutive block What's next? Graphic Design and Illustration II |  |
| 557351 Graphic Design and Illustration II and Graphic Design and Illustration II Lab <br> Grade Placement: 12 <br> Prerequisite: Graphic Design and Illustration Credits: 2; Graphic Design and Illustration II (1 credit) and Lab (1 credit) must be taken as a consecutive block | This two-hour, full-year course is a continuation of Graphic Design and Illustration providing students with hands-on experience working from concept to finish in a variety of formats. Students gain advanced knowledge of current computer software and techniques while applying them to class assignments and freelance jobs. |
| 403201 Audio/Video Production I <br> Grade Placement: 11-12 <br> Prerequisite: Successful completion of a high school or senior high level technology course or audio/video teacher recommendation in lieu of prerequisites. <br> Credit: 1 | In this one-hour, full year hands-on introductory course students will explore video production techniques. The course will include techniques in videography, audio, editing, lighting, script writing, and motion graphics. Students are expected to develop an understanding of the film industry with a focus on pre-production, production, and post-production video and audio activities. Students will participate in minor and major projects for a variety of purposes and audiences. |

[^2]| 403301 | Audio/Video |
| :--- | :--- |
|  | Production II and |

|  | Production II Lab |

Grade Placement: 12
Prerequisite: 1 credit in Audio/Video Production and/or Video teacher recommendation in lieu of prerequisite.
Credit: 2; Audio/Video Production II (1 credit) and Lab ( 1 credit) must be taken as a consecutive block

This two-hour, full year course is a continuation of Audio/Video Production I. Students will learn advanced video concepts while working on major projects. In addition to developing advanced knowledge and skills needed for success in the Arts, Audio/Visual Technology, and Communications career cluster, students are expected to develop an advanced understanding of the industry with a focus on pre-production, production, and post-production activities. The class will include projects that provide the campus with necessary video production services. Smaller projects will serve as supplemental material for the students' professional portfolio.

## 45350B Professional Communications

Grade Placement: 9-12
Prerequisite: None
Credit: . 5
What's Next? Any Speech elective

Professional Communications blends written, oral, and graphic communication in a real world context that promotes leadership and professional behaviors. Creative individuals with strong communications skills, a solid academic foundation and proficiency in a wide range of technology applications are in demand by higher education institutions and global industry. This course will help to develop and expand the ability to write, read, edit, speak, listen, present, apply software applications, manipulate computer graphics, and conduct research to better prepare for a competitive academic and/or workplace environment. Successful completion of this course will satisfy the speech requirement for graduation.

## 403101 Web Design

Grade Placement: 9-12
Prerequisite: Proficiency in keyboarding and computer file management
Credit: 1

The student will develop an understanding of the structure, functions and technical foundations of the Internet. After developing basic proficiency in creating Web pages using traditional HTML coding, visual HTML editors and graphics production software, students will plan and develop Web sites targeting appropriate audiences.

## 40360Q Video Game Design

Grade Placement: 9-12
Prerequisite: None
Credit: 1

This one-semester course will allow students to explore one of the largest industries in the global marketplace and the new emerging careers it provides in the field of technology. The curriculum will provide the theory of video game design that aligns with the International Game Developers Association. Students will learn gaming, computerized gaming, evolution of gaming, artistic aspects of perspective, design, and animation, and technical concepts of collision theory and programming logic. Students will participate in a simulation of real video game design team while developing technical proficiency in constructing an original 2D game design. Please note this is a one semester course receiving 1.0 credit.

## CAREER \& TECHNICAL EDUCATION

## Business, Management and Administration

To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

| 352001 Business Information Management (BIM) | Business Information Management (BIM) is a full-year class that gives students a working knowledge of technology and prepares them |
| :---: | :---: |
| Grade Placement: 9-12 | to be proficient in business applications using Microsoft Office. |
| Prerequisite: Touch System Data Entry recommended | Students will develop word processing, spreadsheet, presentation and database skills. BIM provides students the skills to master the |
| Credit: 1 | world's most powerful business software that prepares them to earn the globally recognized MOS (Microsoft Office Specialist Certifications). |

## 35530Q Business Law

Grade Placement: 11-12
Prerequisite: None
Credit: 1

Business Law provides practical information of our legal system as it pertains to minors, family law, contracts, bankruptcy, sales warranties, employment laws, criminal law, wills, and the court system. Topics will include social responsibility of business, business ethics, torts, contracts, negotiable financial instruments, personal property, sales, warranties, agency and employment concepts, and real property. Please note this is a one semester course receiving 1.0 credit.

33540B Global Business
Grade Placement: 11-12
Prerequisite: None
Credit: . 5

Global Business provides students with an understanding of cultural diversity, the global economy, and international business organizations. The content and activities of the course allow the student to develop the appreciation, knowledge, skills, and abilities needed to work in a global marketplace. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs. During this one-semester course, each student will have many opportunities to work in teams, and give presentations based on the research done on international business projects.

## 33550B Virtual Business

Grade Placement: 9-12
Prerequisite: None
Credit: . 5

Virtual Business will give students an opportunity to incorporate a broad base of knowledge that includes the legal, managerial, marketing, financial, and ethical dimensions of business to create a successful virtual business. Students assess their skills, interests \& strengths to determine their suitability for working in the virtual world. Students will be involved in a team project that will give them realworld experience that develops leadership, communication, and project management skills through the process of starting virtual business.

## CAREER \& TECHNICAL EDUCATION

## Education and Training

To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | ---: | :---: |
| 55200 P | Principles of Human Services | $9-12$ | 1 |
| $55230 Q$ | Child Development | $11-12$ | 1 |
| 553001 | Instructional Practices (Intro to Teaching) | $11-12$ | 2 |
| 553051 | Practicum in Education and Training | 12 | 2 |

## 55200Q Principles of Human Services

Grade Placement: 9-12
Prerequisite: None
Credit: 1

This course will investigate career clusters with a focus on human service careers, including teaching, counseling and mental health, early childhood development, family and community and personal care services. Each student will participate in a variety of projects designed to develop personal characteristics and skills that will lead them into readiness and success in high-skill, high-wage, or high demand careers. Please note this is a one semester course receiving 1.0 credit.

## 55230Q Child Development

Grade Placement: 11-12
Prerequisite: None
Credit: 1
What's next? Instructional Practices

This course addresses knowledge and skills related to child development and growth from prenatal through school-age children equipping students with child development skills. Students use these skills to promote the well-being and healthy development of children. This course also offers insight into child-related careers. Please note this is a one semester course receiving 1.0 credit.

553001 Instructional Practices
(Intro to Teaching)
Grade Placement: 11-12
Prerequisite: Annual Criminal Background Check
Credits: 2
What's next? Practicum in Education and Training

This two credit course is a field-based/internship combined with classroom instruction designed to give students the opportunity to explore careers in teaching and occupations working directly with children and adolescents. Students experience the guidance and development of children physically, socially, emotionally, and intellectually. Six hours per week are in the classroom and four hours per week at the internship site, including the educational preschool located on campus. Internship experience requires students to travel independently to elementary schools, preschools, and middle schools, to plan and carry through activities while observing and recording development. This course offers training to persons interested in professions related to human development, psychology, medicine, education, and childcare. Students enrolled in this course must provide their own transportation.

## 553051 Practicum in Education and Training

Grade Placement: 12
Prerequisite: Instructional Practices, Annual Criminal Background Check
Credits: 2

Practicum in Education and Training is a two-hour field-
based/internship course designed to give students the opportunity to do an in-depth study of the physical, social, emotional and intellectual growth and development of children and adolescents through four hours classroom study per week and six hours internship experience per week. Students have 2 hours less in the classroom and 2 hours more at their internship sites than in the Instructional Practices course. Internships include the educational preschool located on campus and other sites requiring students to travel independently to elementary schools and middle schools. This course offers training to persons interested in professions related to human development, psychology, medicine, education, and childcare. Students enrolled in this course must provide their own transportation. This is an Honors Level course (beginning with the graduating class of $2023^{\circ}$ ).

## CAREER \& TECHNICAL EDUCATION

Finance
To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | ---: | :---: |
| 35100 Q | Principles of Business, Marketing and Finance | $9-11$ | 1 |
| 355001 | Accounting I | $11-12$ | 1 |
| 355101 | Accounting II Honors | 12 | 1 |

## 35100Q Principles of Business, Marketing \& Finance

Grade Placement: 9-11
Prerequisite: None
Credit: 1

Principles of Business, Marketing, and Finance will provide the opportunity for students to gain knowledge and skills in economies and private enterprise systems, the impact of global business, marketing of goods and services, advertising, and product pricing. Students will analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems and settings in business, marketing, and finance. Students will develop communication skills by working together on team projects, participating in class discussions and creating presentations using appropriate media. Please note this is a one semester course receiving 1.0 credit.

## 355001 Accounting I

Grade Placement: 11-12
Prerequisite: None
Credit: 1
What's next? Accounting II

Accounting is highly recommended for all students planning to major in Business in college. Students will be prepared for the Accounting I class at the university level and have the skills for an entry-level accounting job. Students will learn the general journal approach to accounting for sole proprietorships, partnerships, and corporations. Students will apply basic accounting principles to "real world" situations through the use of computers and business simulations. Students will investigate the field of accounting, including economic, financial, technological, international, social, legal and ethical factors.

## 355101 Accounting II Honors

Grade Placement: 12
Prerequisite: Accounting I
Credit: 1 ( $3^{\text {rd }}$ or $4^{\text {th }}$ math credit)

Accounting II is an asset for the student planning to major in Accounting, to work part-time to help pay college expenses, or to enter the accounting profession after high school. This course will provide in-depth application of the basic accounting principles as the students engage in various managerial and cost accounting activities. Students will formulate and interpret financial information for use in management decision making. The use of simulations, accounting software, and spreadsheets provide students with experience using real-world situations. Successful completion of both semesters of this course will receive math credit.

Credit: 1 (satisfies Health requirement for graduation)
What's next? Practicum in Health Science I, World Health Research, Anatomy \& Physiology, or Medical Terminology

Health Science Theory is a one-hour full-year program that provides students the opportunity for comprehensive study of human anatomy and physiology, medical terms, intro to basic patient care skills, AHA First Aid and CPR certification, as well as health career exploration. *This course is the required prerequisite for Practicum in Health Science I \& II (Clinical Rotations I \& II) and Pharmacology. Successful completion of both semesters of this course will satisfy the Health requirement for graduation.

| 554531 | Practicum in Health Science I <br> (Clinical Rotation I) | Practicum in Health Science I (Clinical Rotation I) is a two-hour fullyear course that provides the student with a unique opportunity to explore a variety of health care careers. Students develop skills while |

| 553201 Culinary Arts <br> Grade Placement: 11-12 <br> Prerequisite: None <br> Credits: 2 <br> What's next? Practicum in Culinary Arts | This course is a two-hour full-year laboratory class designed for students that have a special interest in food service employment and for those students planning to pursue advanced education in hotel and restaurant management. The use of commercial kitchen equipment and the safety and sanitation factors involved in the food service industry are explored. Classroom instruction and laboratory experiences will include basic skill development in quantity food preparation. Experience is gained through preparation of meals for the onsite, East Side Bistro. Careers in the Hospitality and Tourism industry will be explored. Students will have the opportunity to develop leadership skills and compete in culinary competitions through the youth leadership organizations associated with this class. |
| :---: | :---: |
| 553251 Practicum in Culinary Arts <br> Grade Placement: 11-12 <br> Prerequisite: Culinary Arts <br> Credits: 2 | This course is a two-hour full-year laboratory class designed for students who have completed Culinary Arts. Advanced techniques in quantity food preparation will be practiced in the commercial laboratory classroom. Some field site experiences may be arranged requiring students to travel independently to food service operations in addition to experience gained at the East Side Bistro. Emphasis will be on food service management as well as planning, preparing, and serving various meals for school and community groups. Students will have the opportunity to develop leadership skills and compete in culinary competitions through the youth leadership organizations associated with this class. Students participating in field site experiences and internships must provide their own transportation. This is an Honors Level course (beginning with the graduating class of $2023^{\circ}$ ). |

## CAREER \& TECHNICAL EDUCATION

55200Q Principles of Human Services
Grade Placement: 9-12
Prerequisite: None
Credit: 1
What's next? Child Development, Instructional Practices, or Interpersonal Studies

This course will investigate career clusters with a focus on human service careers, including teaching, counseling and mental health, early childhood development, family and community and personal care services. Each student will participate in a variety of projects designed to develop personal characteristics and skills that will lead them into readiness and success in high-skill, high-wage, or high demand careers. Please note this is a one semester course receiving 1.0 credit.

55230Q Child Development
Grade Placement: 11-12
Prerequisite: None
Credit: 1
What's next? Instructional Practices or other Human Services cluster course

This course addresses knowledge and skills related to child development and growth from prenatal through school-age children. Students use these skills to promote the well-being and healthy development of children. This course also offers insight into childrelated careers. The preschool learning center activities provide rewarding and valuable teaching experiences for students. Please note this is a one semester course receiving 1.0 credit.

## 552551 Family and Community Services

Grade Placement: 11-12
Prerequisite: None, Principles of Human Services recommended
Credit: 1
What's next? Interpersonal Studies or other Human Services cluster course

The Human Services Career Cluster focusses on preparing individuals for employment in career pathways that relate to families and human needs such as counseling and mental health services, family and community services, personal care services and consumer services. Family and Community Services can provide a variety of experiences related to the pathway. It is designed to involve students in realistic and meaningful community-based activities through direct service or service-learning experiences. Students are provided opportunities to interact with and provide services to individuals, families, and the community through community or volunteer services. Emphasis is placed on developing and enhancing organizational and leadership skills. Students are encouraged to participate in CTE student organizations such as FCCLA and other leadership or extracurricular organizations.

## 553801 Career Preparation I and Extended Career Preparation

Grade Placement: 11-12
Prerequisite: 16 years of age
Credit: 3; Career Preparation I (2 credits) and Extended Career Preparation ( 1 credit) must be taken as a consecutive block
What's next? Career Preparation II and Extended Career Preparation

## 553851 Career Preparation II and Extended Career Preparation

Grade Placement: 12
Prerequisite: Career Preparation I and Extended Career Preparation
Credit: 3; Career Preparation II (2 credits) and Extended Career Preparation (1 credit) must be taken as a consecutive block

## 55240B Dollars and Sense

Grade Placement: 10-12
Prerequisite: None
Credit: . 5

This course provides opportunities for students to participate in a work-based learning experience that combines classroom instruction with paid business and industry employment experiences. Classroom experiences include: job acquisition, career progression, financial success, business/entrepreneurial applications, occupational safety and health and relevant news topics. Professional portfolios will be created with material supporting an educational/career plan for the future. Students enrolled in this course must provide their own transportation.

As a second year course, it is designed to enhance key concepts of Career Preparation I. The curriculum includes cooperative learning with situational experiences applied to a variety of employment settings and career clusters. Students will perfect their professional portfolio and answer critical questions regarding educational options after high school, current employment trends, financial planning and career enhancement, and entrepreneurship. Students will have daily classroom instruction with paid business and industry employment experiences. Students enrolled in this course must provide their own transportation.

This vital course explores managing life independently. Areas of study include budgeting, banking, saving, investments, housing, living healthy, insurance and careers. A focus on money management and consumer practices will prevail throughout the course, including curriculum from expert Dave Ramsey.

## 55245B Interpersonal Studies

Grade Placement: 11-12
Prerequisite: None
Credit: . 5

This course examines how the relationships between individuals and among family members significantly affect the quality of life. Students use knowledge and skills in family studies and human development to enhance personal development, foster quality relationships, promote wellness of family members, and manage multiple adult roles. Class discussion is an integral part of the class. Careers related to Interpersonal Studies will be explored.

55260B Lifetime Nutrition and Wellness
Grade Placement: 10-12
Prerequisite: None
Credit: . 5

This interactive course allows students to use principles of lifetime wellness and nutrition to help them make informed choices as well as pursue related careers. The role nutrition plays in both professional and recreational sports will be explored. Students will investigate the relationship between food and physical, emotional, and mental health, developing a nutritional plan which meets the needs of the individual.

## CAREER \& TECHNICAL EDUCATION

## Information Technology

To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

## CAREER \& TECHNICAL EDUCATION

## Law, Public Safety, Corrections and Security

To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

555501 Law Enforcement II Law Enforcement II provides the knowledge and skills necessary to

Grade Placement: 12
Prerequisite: Law Enforcement I
Credit: 1
prepare for a career in law enforcement. This course includes examining ethical and legal responsibilities, operation of police and emergency telecommunication equipment, and courtroom testimony. Students will develop communication skills to evaluate body language, gestures, verbal tone, and inflection and will use written skills to facilitate field note taking and report writing such as incident reports. Students will prepare testimony for court and present testimony during a mock trial. Students will understand passive, aggressive and assertive behavior and will demonstrate the use of anger management techniques to resolve conflicts and reduce anger. Students will study law enforcement procedures for serving writs, warrants, and summons, procedures pertaining to alcohol and beverage laws, driving while intoxicated and driving under the influence, and strategies for crowd management. Students will investigate and document a motor vehicle accident.

## 555401 Forensic Science

Grade Placement: 12
Prerequisite: Biology and IPC or Chemistry, and Law Enforcement I

Credit: 1 (science credit)

This course uses a structured and scientific approach to the investigation of crimes of assault, abuse and neglect, domestic violence, accidental death, homicide and the psychology of criminal behavior. Students will learn terminology and investigative procedures related to crime scene, questioning, interviewing, criminal behavior characteristics, truth detection, and scientific procedures used to solve crimes. Using scientific methods, students will perform fingerprint analysis, ballistics, and blood spatter analysis on evidence collected from simulated crime scenes. Students will learn the history, legal aspects and career options for forensic science. A minimum of $40 \%$ of class time will be spent in laboratory work and field investigations. This course may not be offered on all campuses.
Successful completion of both semesters of this course will satisfy a science credit.

## CAREER \& TECHNICAL EDUCATION

## Manufacturing

| 557601 | Welding I | 12 | 2 |

## 557601 Welding I

Grade Placement: 12
Prerequisite: Agricultural Mechanics and Metal Technologies
Credits: 2

This course will allow students to fortify and increase their knowledge of welding procedures and skills used in project construction through class assignments and projects. Topics covered may include: oxyfuel cutting/heating/welding, Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Flux-cored Arc Welding (FCAW), plasma arc cutting, safety, and metal fabrication. In addition, record keeping, communication, employability, and human relation skills will be taught. This course will allow students to gain knowledge and skills that promote personal development and career success through involvement in the FFA. A course fee may be required for projects that can be taken home by the student. This course provides instruction and training necessary for the AWS SENSE Welding Level I certification and OSHA 10-hour General Industry Certification.

## CAREER \& TECHNICAL EDUCATION

## Marketing, Sales and Services

To find out more about the Career \& Technical Education Texas Essential Knowledge and Skills (TEKS) click here.

| Plano ISD <br> Course No. | Subject | Grade | Credits |
| :--- | :--- | ---: | :---: |
| $35100 Q$ | Principles of Business, Marketing and Finance | $9-11$ | 1 |
| 55500 Q | Entrepreneurship | $11-12$ | 1 |
| 55270B | Fashion Marketing | $11-12$ | .5 |
| 55560B | Social Media Marketing | $11-12$ | .5 |
| 55515B | Sports and Entertainment Marketing | $11-12$ | .5 |

## 35100Q Principles of Business, Marketing \& Finance

Grade Placement: 9-11
Prerequisite: None
Credit: 1

Principles of Business, Marketing, and Finance will provide the opportunity for students to gain knowledge and skills in economies and private enterprise systems, the impact of global business, marketing of goods and services, advertising, and product pricing. Students will analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems and settings in business, marketing, and finance. Students will develop communication skills by working together on team projects, participating in class discussions and creating presentations using appropriate media. Please note this is a one semester course receiving 1.0 credit.

This course provides an overview of the process involved in starting a business and explores the resources available to help business owners in their venture. You will learn to enjoy your work, be your own boss, and make more money as you discover what it takes to plan, design, and start a profitable business venture. The primary focus of the course is to help students understand the process of analyzing a business opportunity, preparing a business plan, determining feasibility of an idea using research, and developing a plan to organize and promote the business and its products and services. Also, students will understand the capital required, the return on investment desired and the potential for profit. Please note this is a one semester course receiving 1.0 credit.

| 55270B Fashion Marketing | This course introduces students to the business side of the fashion |
| :---: | :---: |
| Grade Placement: 11-12 | industry. Fashion marketers plan and purchase seasonal collections |
| Prerequisite: None | and prepare budget forecasts. They are involved in the control of |
| Credit: . 5 | distribution, the organization and physical layout of the merchandise, |
| What's next? Any Marketing course | and the visual presentation and merchandising of goods. They participate in the organization of promotional, advertising and public relations, and in customer service. While focusing on current fashion trends, students will acquire an understanding of fashion terminology, the consumers of fashion, and the specific marketing strategies used in fashion retailing. |

| 55560B Social Media Marketing <br> Grade Placement: 11-12 <br> Prerequisite: None <br> Credit: . 5 <br> What's next? Any Marketing course | This course is designed to give the student a view of social media and how marketers are integrating social media tools in their overall marketing strategy. The course will investigate how the marketing community measures success in the new world of social media. Students will manage a successful social media presence for an organization, understand techniques for gaining customer and consumer buy-in to achieve marketing goals, and properly select social media platforms to engage consumers and monitor and measure the results of these efforts. |
| :---: | :---: |
| 55515B Sports and Entertainment Marketing | This course introduces students to the fundamentals of marketing in the sports and entertainment industries. Students will explore product branding, licensing, sponsorships, pricing, placement, promotion, |

| Prerequisite: None | entertainment marketing plans. Students will create a football |
| Credit: . 5 | franchise using a virtual sports simulation. Students will gain an |
| What's next? Any Marketing course | understanding of how the sports and entertainment industries impact the economy and will understand how culture and diversity affect sports and entertainment markets. Students will understand the importance of teamwork, leadership, and organizational skills. |
|  | Students will evaluate and use information resources to accomplish specific tasks and will deliver presentations using appropriate media to engage and inform audiences. |

## 555801 Practicum in Marketing with Extended Practicum

[^3]This course is designed for students interested in a career in marketing. The course combines classroom instruction with supervised on-the-job training where the student practices marketing skills learned in the classroom, at an approved training station (job location), with a qualified supervisor. Students are expected to maintain their marketing job for the entire school year. Instruction emphasizes essential topics such as marketing principles and practices and the functions of marketing which include: marketinginformation management, selling, financing, pricing, promotion, product/service management, and distribution. Students enrolled in this course must provide their own transportation.

556101 Introduction to Engineering Design (PLTW)
Grade Placement: 9-10
Prerequisite: Algebra I or concurrent enrollment in Algebra I.
Credit:

#### Abstract

This is the foundation course in a series of Project Lead The Way (PLTW.org) pre-engineering courses designed to introduce the students to the field of engineering and prepare the student to pursue a career in engineering. The major focus of the course is learning how to take an idea through a design process that will eventually be manufactured or produced. As you learn about various aspects of engineering and engineering design, such as how engineers communicate through drawing, you will apply what you learn through various activities, projects, and problems. You will use state of the art 3-D design software to help you design solutions to different design projects. Working in teams, you will learn about documenting your solutions, solving problems, and communicating your solutions to other students and members of the professional engineering community. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

This course is part of the Project Lead The Way (PLTW.org) preengineering sequence. Applying the principles of physics to various technology systems and manufacturing processes helps students learn how engineers and technicians use science, technology, and math in an engineering problem solving process. Topics covered include: mechanisms and mechanical advantage, static forces and bridge design, material properties, energy and power generation, thermodynamics, kinematics, fluid power, and creation of Robot $C$ language programs for robotics and machine control. Successful completion of both semesters of this course will receive science credit. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

## 556301 Aerospace Engineering (PLTW)

Grade Placement: 11-12
Prerequisite: Algebra II or concurrent enrollment; Physics or concurrent enrollment; PLTW Engineering Science (POE) or Introduction to Engineering Design (IED). Engineering Science (POE) is recommended.
Credit: 1

This PLTW course is designed for independent learners with strong analytical skills who have an interest in the field of aviation and are interested in pursuing an engineering career. Aerospace Engineering is the study of the engineering discipline which develops new technologies for use in aviation, defense systems, and space exploration. The course explores the evolution of flight, flight fundamentals, navigation and control, aerospace materials, propulsion, space travel, orbital mechanics, ergonomics, remotely operated systems and related careers. In addition the course presents alternative applications for aerospace engineering concepts. Students will analyze, design, and build aerospace systems. While implementing these designs, students will continually hone their interpersonal skills, creativity, and application of the design process. Projects completed outside of the classroom are required for this course. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

## 556351 Digital Electronics (PLTW)

Grade Placement: 11-12
Prerequisite: Algebra I and Geometry is required.
Successful completion of PLTW Introduction to Engineering Design (IED) or Engineering Science (POE) is required. Engineering Science (POE) is recommended.
Credit: 1 (math credit)

Digital Electronics is the study of electronic circuits that are used to process and control digital signals. In contrast to analog electronics, where information is represented by a continuously varying voltage, digital signals are represented by two discreet voltages or logic levels. This distinction allows for greater signal speed and storage capabilities and has revolutionized the world of electronics. Digital electronics is the foundation of modern electronic devices such as cellular phones, MP3 players, laptop computers, digital cameras, and high-definition televisions. The primary focus of Digital Electronics is to expose students to the design process of combinational and sequential logic design, teamwork, communication methods, engineering standards, and technical documentation. Successful completion of both semesters of this course will receive math credit. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

## 556501 Engineering Design and Development (PLTW)

Grade Placement: 12
Prerequisite: Algebra II; Physics or concurrent enrollment; Introduction to Engineering Design (IED); Engineering Science (POE) or teacher recommendation in lieu of prerequisites.
Credit: 1

The knowledge and skills students acquire throughout their PLTW Engineering coursework come together in Engineering Design and Development (EDD) as they work to identify an issue and then research, design, and test a solution of their open-ended problem, ultimately presenting and defending their solution to a panel of engineers. Students apply the professional skills they have developed to document a design process to standards and develop a product. While progressing through the engineering design process, students will work closely with experts and will continually hone their organizational, communication, and interpersonal skills, their creative and problem solving abilities, and their understanding of the design process. This is a Distinguished Level course (beginning with the graduating class of $2023^{\circ}$ ).

## 556901 Engineering Design and Presentation I

Grade Placement: 11-12
Prerequisite: None
Credit: 1

Engineering Design and Presentation introduces students to the process of design as it applies to engineering fields using multiple software applications (AutoCAD, AutoDesk Inventor) and tools necessary to produce and present working drawings and model renderings. Through implementation of the design process, students will transfer advanced academic skills to component designs. Students will explore career opportunities in engineering, technology, and drafting and what is required to gain and maintain employment in these areas. Students will participate in team projects, use engineering design methodologies, apply concepts of engineering to specific problems, and design products using appropriate design processes and techniques.

## 208001 Honors Scientific Research and Design

Grade Placement: 9-12
Prerequisite: Concurrent enrollment in an advanced level science course and approval of instructor through application.
Credit: 1-3

Students will explore science and become acquainted with the scientific community, improve fundamental research skills, apply statistical analysis, and enhance oral and visual presentation techniques. Each student will be required to develop his/her own independent science research project and will learn how to structure, organize, publish, and present the project in one or more formal presentations to a panel of judges. It is required that all student independent research projects be judged. Successful completion of both semesters of this course will satisfy a science credit.
