Special Instructions/Considerations

1. Refer to the Educator Guide to Accessibility within the STAAR Program for more specific information about online features and supports. This guide is located on the TEA's Accommodation Resources webpage.
2. Prior to participating in the STAAR online operational assessment, students and teachers should become familiar with the embedded supports and various tools that are provided in the online tests. There are several resources that can be accessed on the TEA website, including the STAAR online tutorials and last year's STAAR L and STAAR A released tests.
3. Information about setting up test sessions for students who are eligible for embedded supports (i.e., content supports, language and vocabulary supports, text-to-speech) can be found in the *STAAR Assessment Management System User's Guide* at texasassessment.com/technology.
4. Technology-based accommodations for a student taking an online test enable most students to test online. However, in rare instances a special request may be made to TEA for approval to administer a paper test booklet. The request for a paper test booklet should include the rationale for any designated supports requiring TEA approval needed for the student. The paper administration request document can be found on the TEA's Coordinator Manual Resources webpage.
5. LPACs may not recommend designated supports for an ELL whose parents have denied bilingual or ESL services.
