

**2018-2019 Texas Minimum State Vaccine Requirements
for School Attendance
Pre-K**

Vaccine Required (Attention to notes and footnotes)	Minimum Doses Required by Grade Level Pre-K	Notes
Dtap/DTP/Td/Tdap	4 doses	
Polio	3 doses	
MMR	1 dose	First dose must be received no more than 4 days before the 1 st B-Day.
Hepatitis B	3 doses	
Varicella	1 dose or evidence of disease	First dose must be received no more than 4 days before the 1 st B-Day.
HIB	3 doses or 1 dose (depending on age given)	Minimum of three doses with one after twelve months of age, or only one dose if given after fifteen months.
Pneumococcal	See schedule below	
Hepatitis A	2 doses	One dose up to 4 days before, on or after the first birthday and a second dose by age 43 months; or the second dose up to 18 months after the first dose if student is older than 43 months of age.

Footnotes:

- *Serologic confirmation of immunity to measles, mumps, rubella, hepatitis B, hepatitis A, or varicella; or serologic evidence of infection is acceptable in place of vaccine.*
- *Previous illness for varicella may be documented with a written statement from a physician, school nurse, or the child's parent or guardian containing wording such as: "This is to verify that (name of student) had varicella disease (chickenpox)."*

Pneumococcal Schedule:

- One dose if child is unvaccinated or partially vaccinated after the age of twenty-four months.

Completed pneumococcal series option:

- *Two doses if first dose was given from 12-23 months of age; or*
- *Three doses if first dose was given from 7-11 months of age and one dose after 1st B-Day; or*
- *Four doses if first dose was given from 2-6 months and one dose after 1st B-Day.*
