

Dear Parent,

Our records indicate that your child has diabetes and may require treatment at school. Please bring all supplies and the Diabetes Medical Management Plan to the school clinic by the first day of school.

Your child's forms and supplies should include:

- Diabetes Management and Treatment Plan
- Blood glucose monitor
- Test Strips
- Insulin or pump supplies
- Syringes or insulin pen needles
- Glucagon for emergency
- Glucose tablets or glucose gel
- Snacks and Juice if needed
- Ketone Testing Strips
- Medication request form

In order for your child to have the best possible school year, it is important that I have the necessary supplies and proper authorizations to provide appropriate care and respond in the case of an emergency.

*All forms necessary, for proper care while your child is at school, can be found on our website at:*

[District Health Forms for Parents](#)

<https://www.pisd.edu/Page/1697>

Please call me to determine a time we can meet to discuss the plan that has been developed by you and your health care provider.

Sincerely,

School Nurse
