Plano ISD students roll in Rock and Bowl competition

It's time for Plano ISD students to take to the alleys for the annual Rock and Bowl competition.

In-school bowling has been a part of the Plano ISD physical education for more than 25 years. Students in grades four through eight learned the game of bowling and practiced their skills during PE class.

Now it's time to take those skills to the next level in a friendly school versus school competition at Plano Super Bowl. We invite the media to join us as our students compete in this lifetime sport.
