Syllabus for World History, Semester 2

The Plano ISD eSchool Mission is to create a borderless classroom based on a positive student-teacher relationship that fosters independent, innovative critical thinking and empowers students to thrive, contribute, and compete in a global society.

Course Number: 03340400

Course Title: World History Studies

Communications

All communication with your teacher will be through the utilization of electronic tools such as email and discussion boards. Your assignments will be submitted directly into the Blackboard Learning Management System. You will receive a Welcome email from your teacher when your course is ready for you. You may email your teacher at any time with questions that you might have.

Course Description

The second semester of World History covers the time period from the 1700s CE to the post-modern era. Revolutions trigger drastic political, economic, social, and cultural change. The impacts of these changes shape the global community of today.

The story begins with domination of Western European powers over much of the world. Early on this dominance is tested during the revolutionary period. Beginning with the American Revolution followed by the rest of the Americas, European rule is cast aside and new nations with unique political structures are born. Other areas of the world unable to forge separate identities are hindered by European domination and imperialism.

Competition and conflict within Europe result in world wars during the first half of the 20th century that effectively end the era of unquestioned European dominance. The latter half of this course examines the causes, features, and impacts of these conflicts. The aftermath of both world wars unleashes new forces like international communism. Renewed and newer currents of nationalism develop in newly independent areas of Africa and Asia. Global competition for influence leads to the Cold War, and in its aftermath, the formation of new political and cultural trends emerge.

Course Objectives and Student Learning Outcomes

Prerequisites

Basic computer skills are necessary to progress normally through your online course. It is not necessary to be an expert, but a student must know how to use the basic capabilities of a computer: e.g. using the keyboard and mouse, Internet browsing, and open/save files on your computer.

Hardware: Students must have a working, current computer available, with adequate storage to download and save large files. A display of at least 1024X768 resolution is preferred. A sound card and speakers will be required for most courses, and a microphone is required for language courses. The availability of a printer is recommended

Software/Applications: Microsoft Office (2007 or higher) or a similar word processing, spreadsheet and presentation manager is required. A current version of a web browser (such as Internet Explorer, Cortana, Firefox, Safari, Chrome), is required. Adobe Acrobat Reader (free download) is required in many courses.

Internet Connectivity: Students must have availability of a working Internet connection. Direct high-speed Internet connection is recommended.

Email: Students must have an active, functioning email account with an “appropriate” email address to use for communicating with your teacher throughout the course and for communications with the eSchool office.

Course Materials

No textbooks are required for this course.

Course Management Policies

The instructor adapts to the district IEP whenever instructionally and technically possible.

As a first step in collecting all of the information that is needed to work with each student effectively, we ask that the student, or the receiving district site coordinator on the student's behalf, log onto the website and complete the online registration process. Please complete this registration process as soon as possible to allow time to set up the course and send the student the information to access it and begin working.

Academic Integrity/Copyright Policy:

Academic integrity violations, plagiarism, and copyright violations will not be tolerated. The Introductory unit of your course will teach you the details of PISD's expectations on such topics. Your teacher will utilize plagiarism check tools throughout the course.

Online Etiquette ("Netiquette"):

Netiquette is meant to help you communicate professionally and effectively in an online collaborative setting. Students will follow all guidelines relating to internet etiquette and will communicate respectfully with all people. The Introductory unit of your course will teach you the details of PISD's expectations on such topics. Your course will contain discussion boards, journals, blogs and/or wikis where your "netiquette" is important.

Privacy Policy:

Plano ISD's FERPA policy may be found at <http://pol.tasb.org/Policy/Code/312?filter=FL>

Grading and Evaluation

In order to earn credit for an online course, a student must:

1. complete all course work

and

2. in that process of completing all course work, earn a passing average of at least 70.

That average is determined by the number of points that a student earns divided by the total number of points available in the course.

For example, if you earn 1110 points in the course, your grade will be:

$$1110 \div 1343 = 0.8265 \text{ for a grade of } 83.$$

A student or parent may check the course grade at any time. The first step is to log into the course. On the toolbar to the left, click the tab for Tools, and then click My Grades.

Teacher discretion may always be used when accepting and grading work. Please note that a teacher may deduct points for work submitted past the student's specific due date/s. If all course work is not submitted before the specified course end date, the student will not be awarded credit for the course.

Assessments:

All courses contain a number of self-assessments (allowing the student to gauge their understanding of the material before proceeding to a graded assessment. Graded assessments include quizzes as well as exams. The student's school district (known as the receiving district), is required to prove proctors for major exams.

Class Participation:

Every student will have a specific schedule for completing and submitting assignments and tests. Students are required to adhere to their schedule. Students must maintain consistent email communication with their teacher. Students must complete the discussion assignments and collaborative activities throughout the course. Students who are not adhering to their course schedule or students who are not maintaining the basic requirements of participation, such as maintaining email communication with their teacher, may be dropped from the course.

Drop Policy:

Students may choose to drop the course within 15 days from their start date without penalty. Notify your school's/district's site coordinator to have them indicate such a drop situation to TxVSN.

§113.42. World History Studies (One Credit), Beginning with School Year 2011-2012.

(a) General requirements. Students shall be awarded one unit of credit for successful completion of this course.

(b) Introduction.

(1) World History Studies is a survey of the history of humankind. Due to the expanse of world history and the time limitations of the school year, the scope of this course should focus on "essential" concepts and skills that can be applied to various eras, events, and people within the standards in subsection (c) of this section. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. Students evaluate the causes and effects of political and economic imperialism and of major political revolutions since the 17th century. Students examine the impact of geographic factors on major historic events and identify the historic origins of contemporary economic systems. Students analyze the process by which constitutional governments evolved as well as the ideas from historic documents that influenced that process. Students trace the historical development of important legal and political concepts. Students examine the history and impact of major religious and philosophical traditions. Students analyze the connections between major developments in science and technology and the growth of industrial economies, and they use the process of historical inquiry to research, interpret, and use multiple sources of evidence.

(2) The following periodization should serve as the framework for the organization of this course: **8000 BC-500 BC (Development of River Valley Civilizations); 500 BC-AD 600 (Classical Era); 600-1450 (Post-classical Era); 1450-1750 (Connecting Hemispheres); 1750-1914 (Age of Revolutions); and 1914-present (20th Century to the Present)**. Specific events and processes may transcend these chronological boundaries.

(3) To support the teaching of the essential knowledge and skills, the use of a variety of rich primary and secondary source material such as state papers, legal documents, charters, constitutions, biographies, autobiographies, speeches, letters, literature, music, art, and architecture is encouraged. Motivating resources are available from museums, art galleries, and historical sites.

(4) The eight strands of the essential knowledge and skills for social studies are intended to be integrated for instructional purposes. Skills listed in the social studies skills strand in subsection (c) of this section should be

incorporated into the teaching of all essential knowledge and skills for social studies.

(5) A greater depth of understanding of complex content material can be attained by integrating social studies content and skills and by analyzing connections between and among historical periods and events. The list of events and people in this course curriculum should not be considered exhaustive. Additional examples can and should be incorporated. Statements that contain the word "including" reference content that must be mastered, while those containing the phrase "such as" are intended as possible illustrative examples.

(6) Students identify the role of the U.S. free enterprise system within the parameters of this course and understand that this system may also be referenced as capitalism or the free market system.

(7) Throughout social studies in Kindergarten-Grade 12, students build a foundation in history; geography; economics; government; citizenship; culture; science, technology, and society; and social studies skills. The content, as appropriate for the grade level or course, enables students to understand the importance of patriotism, function in a free enterprise society, and appreciate the basic democratic values of our state and nation, as referenced in the Texas Education Code (TEC), §28.002(h).

(8) Students understand that a constitutional republic is a representative form of government whose representatives derive their authority from the consent of the governed, serve for an established tenure, and are sworn to uphold the constitution.

(9) State and federal laws mandate a variety of celebrations and observances, including Celebrate Freedom Week.

(A) Each social studies class shall include, during Celebrate Freedom Week as provided under the TEC, §29.907, or during another full school week as determined by the board of trustees of a school district, appropriate instruction concerning the intent, meaning, and importance of the Declaration of Independence and the U.S. Constitution, including the Bill of Rights, in their historical contexts. The study of the Declaration of Independence must include the study of the relationship of the ideas expressed in that document to subsequent American history, including the relationship of its ideas to the rich diversity of our people as a nation of immigrants, the American Revolution, the

formulation of the U.S. Constitution, and the abolitionist movement, which led to the Emancipation Proclamation and the women's suffrage movement.

(B) Each school district shall require that, during Celebrate Freedom Week or other week of instruction prescribed under subparagraph (A) of this paragraph, students in Grades 3-12 study and recite the following text: "We hold these Truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the Pursuit of Happiness--That to secure these Rights, Governments are instituted among Men, deriving their just Powers from the Consent of the Governed."

(10) Students identify and discuss how the actions of U.S. citizens and the local, state, and federal governments have either met or failed to meet the ideals espoused in the founding documents.

(c) Knowledge and skills.
