Members of the Board:

The Comprehensive Annual Financial Report (CAFR) of the Plano Independent School District (District) for the year ended June 30, 2017, is submitted herewith. This report was prepared by the District's Financial Services Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report includes all funds of the District. The District discusses in greater detail its financial position in the narrative, introduction, overview and analysis sections of the Management's Discussion and Analysis (MD&A).

The CAFR for the year ended June 30, 2017 is presented in conformance with the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued in June 1999.

Governance

The governance of the District is overseen by a seven-member board of trustees (Board) that are elected by the citizens. Each member is elected to a four-year term with the elections being staggered in odd years so that not all positions are voted on during the same year. See page i for a listing of the present members of the Board along with the administrative officials who are appointed by the Board.

Regular action meetings are generally scheduled the first Tuesday of the month and regular work sessions the third Tuesday of the month. Both the action meetings and the work sessions are held in the District's Administration Building. Special meetings are scheduled as needed and announced in compliance with public notice requirements.

The Board has final control over local school matters limited only by the state legislature, by the courts and by the will of the people as expressed in School Board elections. Board decisions are based on a majority vote of a quorum of the Board.

In general, the Board adopts policies, sets direction for curriculum, employs the superintendent and oversees the operations of the District and its schools. Besides general Board business, trustees are charged with numerous statutory regulations, including appointing the tax assessor/collector, calling trustee and other school elections and canvassing the results, organizing the Board and electing its officers. The Board is also responsible for setting the tax rate, setting salary schedules, and acting as a board of appeals in personnel and student matters, confirming recommendations for textbook adoptions, and adopting and amending the annual budget.

The Board has responsibilities and control over all activities related to the public school education within its geographic boundaries. Even though there is considerable association between such other entities as the Collin County Tax Office and the Collin County Central Appraisal District, this report is restricted only to the actual activities of the District.

The Board solicits and evaluates community input and support concerning school policies.

Mission

The District is a public school system whose adopted mission is:

“ . . .to provide an excellent education for each student.”

To accomplish its mission, the District provides a full range of educational services appropriate to grade levels ranging from pre-kindergarten through grade 12. These include regular and enriched academic education, special education for handicapped children, career education and special programs for those with limited English proficiency. These programs are supplemented by a wide variety of co-curricular offerings, including those in fine arts and athletics. The District's curriculum is well-defined for the purpose of preparing students early for college readiness. The participation rate of PISD students in Advanced Placement/International Baccalaureate ranks among the highest in the state and nation. PISD students' performance on these exams gives them a competitive edge for college admission and college success.

As reflected in the District's mission statement, activities of the District focus on learning opportunities for students. The District is providing educational services to approximately 54,000 students in state of the art facilities that include three early childhood schools for pre-kindergarten age students, 44 elementary schools (with five offering pre-kindergarten classes for the first time in fiscal year 2017), 23 secondary school programs and two special program centers. Included in the secondary schools are three academy programs – Health Science Academy as part of Williams High School and Plano East Senior High, International Baccalaureate World School as part of Plano East Senior High and the Academy High School an innovative 9th-12th grade learning community with an emphasis on science, technology, engineering, arts and mathematics (STEAM). The District has long maintained the philosophy of renovating and refurbishing its schools to ensure that all facilities continue to meet new building standards as well as curriculum and technology requirements.

Economic Conditions and Outlook

Plano's economic base consists of a wide range of services and products. Accelerated industrial and commercial development within the past 15 years in the City and immediate surrounding area has created a very sound, balanced economy. While a substantial economic base has been built on manufacturing and agriculture, retail and commercial development have made a steadily increasing contribution to the economic growth of the district. Situated in the heart of Texas and as an integral part of the Dallas/Fort Worth Metroplex, the City enjoys easy access to major transportation and shipping hubs in air, rail and trucking to any destination in the United States.

A significant factor in the growth of the district's economic base is the addition, expansion and retention of numerous corporate and regional headquarters, including Toyota, Liberty Mutual Insurance, State Farm Insurance, JPMorgan Chase, Fed Ex, HP Systems, J.C. Penney, Frito-Lay, Dr. Pepper/Snapple, and Ericsson. The combined effects of population, income, employment and residential growth, along with increased industrial, commercial and retail development, have ensured the continuance of steady growth during the past several years. These factors have created a more productive and diversified economic base and provided Plano ISD with the foundation for a steady transition from a suburban to urban character.

The City and District have enjoyed carefully planned development and, as a result, the local economy is based on research, development and manufacturing in the fields of information technology and telecommunications. Research activities, publishing, printing, banking, government employment, insurance, real estate and diverse manufacturing facilities provide a wide variety of opportunities.

The District's latest multi-year bond program was successfully approved by the voters in May 2016. The purpose of this \$481 million program is to provide funding for eight major project areas with no increase to the tax rate. All Plano ISD campuses will be impacted by district-wide security updates, renovation and facility upgrades, as well as technology improvements. The program also provides funding for the purchase of property and construction of new facilities that will increase classroom capacity and expand program offerings for students along with the purchase of school buses. \$300 million of bonds (inclusive of bond premiums) were sold during the fiscal year ended June 30, 2017. A list of construction projects in progress is included in Note 5 to the financial statements.

The State funding formula continues to impact the District's financial operations. In its simplest form, this formula guarantees districts a revenue yield per student for each penny of the districts operating tax rate. The first dollar of tax rate is guaranteed to generate \$51.40 per penny for each student in weighted average daily attendance (WADA). Districts whose tax base generates less than this amount receive additional state funds to get to the guaranteed amount. Districts whose tax base generates more than the guaranteed amount have to send the excess local property tax collections to the state in the form of recapture. The next six pennies of tax effort are guaranteed to generate the same amount per WADA as Austin ISD's tax base does (\$77.53 in 2016-17). Districts below this level receive additional state aid. Districts above this level get to keep the excess of these (and only these) six pennies. The final 11 cents of the tax rate, which gets a district to the maximum total operating tax rate of \$1.17 and can only be reached with a tax ratification election (TRE), work just like the first \$1.00 of the tax rate, but the guaranteed yield per student per penny is reduced to \$31.95.

Since the funding formula is linked to property values, any growth in property values not offset by increases in the number of students results in a benefit to the State rather than to the local school districts. This occurs regardless of whether a district is "property wealthy" or "property poor". For "property wealthy" districts, property value growth results in a higher recapture payment to the State. For "property poor" districts, property value growth results in a reduction in state aid.

The District continues to see its property values grow, but the large majority of that growth accrues to the benefit of the State through increased recapture payments. The District is fortunate to have additional funding provided through a TRE in November 2013. The TRE, which took the operating tax rate to \$1.17, became necessary when the State only partially restored its \$59 million funding reduction to the District from the 2011-13 biennium. Since the passage of the District's TRE, the state formula has changed only slightly. The guaranteed yield for the first \$1.00 of effort has increased by only 3.8% since 2013-14, the Austin yield has grown by \$17.56 per student, and the yield on the final 11 cents of the tax rate has not changed. Absent legislative action, funding will remain an issue and property value growth will result in higher local tax bills with the increases primarily accruing to the State's budget.

During the recently concluded legislative session, the only significant school finance change affecting the District was funding of an increase in the Austin yield from \$77.53 to \$99.85 per student. The impact of this increase is rather limited as it applies to only six cents of the \$1.17 operating tax rate.

State Funding Litigation

On seven occasions in the last thirty years, the Texas Supreme Court (the "Court") has issued decisions assessing the constitutionality of the Texas public school finance system (the "Finance System").

On May 13, 2016, the Court issued its opinion in the most recent school finance litigation, which was styled *Morath, et al v. The Texas Taxpayer and Student Fairness Coalition, et al.*, No. 14-0776 (Tex. May 13, 2016) (“*Morath*”). In its opinion, the Court held that “despite the imperfections of the current school funding regime, it meets minimum constitutional requirements.” The Court also noted that:

“Lawmakers decide if laws pass, and judges decide if those laws pass muster. But our lenient standard of review in the policy-laden area counsels modesty. The judicial role is not to second-guess whether our system is optimal, but whether it is constitutional. Our Byzantine school funding “system” is undeniably imperfect, with immense room for improvement. But it satisfies minimum constitutional requirements.”

There is currently no pending School Finance litigation in Texas.

2017-18 Budget and Tax Rate

The Board of Trustees is required to adopt a final budget by no later than the close of the fiscal year, June 30. Annual budgets for the General Operating Fund, Debt Service Fund and Food Service Fund were adopted by the Board of Trustees on June 6, 2017. The budget is prepared by fund and function. Site based decisions are made throughout the year as campuses and departments manage their budgets. Budget transfers between functions, however, require approval from the Board of Trustees. The District operates a tightly controlled budget in all areas of operation while maintaining a high quality educational program.

On September 5, 2017 the District adopted a maintenance and operations tax rate of \$1.17, the maximum rate approved by voters in the Tax Ratification Election in November 2013. The debt service tax rate of 26.9 cents remained constant and was also adopted.

For additional information about the financial status of the District, readers should refer to Management’s Discussion and Analysis section of this report.

Other Information

Controls

An internal control structure that has been designed, managed and maintained by the District is in place to ensure the District’s assets are protected from loss, theft and misuse, and to ensure that accurate accounting data is compiled in the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The cost of a control should not exceed the benefits to be derived, therefore the internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

Independent Audit

State law and District policy require an annual audit of the accounts and financial records of the District by independent certified public accountants selected by the Board of Trustees. Weaver has issued an unqualified opinion on the financial statements of Plano Independent School District for the year ended June 30, 2017. The independent auditors’ report has been included in this report at the front of the financial section.

Awards

In 1999, the 76th Texas Legislature, approved legislation requiring the commissioner of education in consultation with the comptroller of public accounts to develop a rating system for school district financial accountability. The 77th Texas Legislature in 2001 subsequently adopted rules for the implementation and administration of the financial accountability rating system known as School FIRST,

Financial Integrity Rating System of Texas. The financial accountability rating system benefits the public by having in place a system to ensure that school districts will be held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. Plano Independent School District has received a Superior rating every year since the implementation of the rating system in the 2001-02 year.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Plano Independent School District for its Comprehensive Annual Financial Report for the fiscal period ended June 30, 2016. The District received this prestigious award for the thirty fourth consecutive year in 2017.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements. We are submitting the current report for the year ended June 30, 2017 to GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of Financial Services. We would like to express our appreciation to all members of the department who assisted and contributed to its preparation.

We also wish to thank the members of the Board of Trustees for their continued consideration and support, and for planning and conducting the financial operations of the District in a responsible and progressive manner.

Board of Trustees
Plano Independent School District
Plano, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Plano Independent School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, TRS pension schedules, and the notes to the required supplementary information on pages 5 through 17, 70, 71 through 72, and 73 through 75, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund statements and schedules, required Texas Education Agency required schedule and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements.

The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CRF) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is also not a required part of the financial statements.

The combining and individual fund statements and schedules, Texas Education Agency required schedule, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules, Texas Education Agency required schedule, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Board of Trustees
Plano Independent School District

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 14, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis *(Unaudited)*

Our discussion and analysis of Plano Independent School District's (the "District") financial performance provides an overview of the District's financial activities for the year ended June 30, 2017. It should be read in conjunction with the District's financial statements.

Financial Highlights

The District's total assets as presented on the government-wide Statement of Net Position exceeded total liabilities by \$452.9 million. The net assets of the District increased by \$68.3 million during the year ended June 30, 2017.

The District's governmental funds financial statements reported combined ending fund balance of \$575.5 million. Of this amount, the General Fund has a total of \$227.3 million of which \$1.2 million is nonspendable, \$11.3 million is assigned and \$214.7 million is unassigned and available for spending at the District's discretion. Fund balance of \$329 million is restricted for use by the Debt Service Fund and Capital Projects Fund. The Special Revenue Funds have a fund balance of \$19.2 million that is either restricted, committed or nonspendable.

On May 7, 2016, the District held a successful bond election with voters approving \$481 million in authorized bonds. This new authorization combined with \$16,020,000 authorized in 2008 provides for a \$497,020,000 five year bond program. On August 2, 2016, \$257,210,000 of Unlimited Tax School Building bonds were sold.

This amount along with a bond premium of \$42,790,000 allocated to bond projects, leaves the District with \$197,020,000 of authorized, but unissued bonds as of June 30, 2017.

During fiscal year 2017, the District purchased property and began preliminary planning for a new Fine Arts Center. Buildings were also purchased for a Special Education Transition Center and a third employee childcare. The cafeteria upgrade at Jasper High School, refurbishment at Christie and Hughston Elementary Schools and minor upgrades at Haun, Memorial and Shepard Elementary Schools were completed. As of June 30, 2017 the District had several active construction projects as more fully detailed in Note 5 to the financial statements.

Overview Of The Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

All of the District's services are reported in the government-wide financial statements, including instruction, student support services, student transportation, general administration, school leadership, facilities acquisition and construction and food services. Property taxes, state and federal aid, and investment earnings finance most of the activities. Additionally, all capital and debt financing activities are reported here.

The government-wide financial statements are designed to provide readers a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The *statement of activities* details how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges.

Fund Financial Statements

The District uses fund accounting to monitor specific sources of funding and spending for particular purposes. The fund financial statements provide more detailed information about the District's most significant *funds*—not the District as a whole.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Most of the District's activities are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year end that are available. However, unlike the government-wide financial statements, governmental fund financial statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the relationship (or differences) between them. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund and the Capital Projects Fund, which are considered to be major funds. Data from all other Special Revenue funds is in the Other Funds column and is presented as a non-major governmental fund on the same statements.

Proprietary funds are used to account for operations that are financed similar to those found in the private sector. These funds provide both long-term and short-term financial information. The District maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses enterprise funds to account for its concession service, after school care, employee childcare and photography. Internal service funds report activities that provide services for the District's other programs and activities, i.e., health insurance, workers' compensation, property insurance, unemployment benefits and print shop. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities within the government-wide financial statements.

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and/or other funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. Immediately following the required supplementary information, combining statements are included for the nonmajor special revenue funds, the enterprise funds, the internal service funds and the agency funds.

The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements. Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain.

Figure A-1. Major Features of the District's Government-wide and Fund Financial Statements

<i>Type of Statements</i>	Fund Statements			
	Government-wide	Governmental Funds	Proprietary Funds	Fiduciary Funds
<i>Scope</i>	All activities of the District (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary	Activities the district operates similar to private businesses.	Instances in which the district is the trustee or agent for someone else's resources
<i>Required financial statements</i>	♦ Statement of net assets	♦ Balance sheet	♦ Statement of net assets	♦ Statement of fiduciary net assets
	♦ Statement of activities	♦ Statement of revenues, expenditures & changes in fund balances	♦ Statement of revenues, expenses and changes in fund net assets	♦ Statement of changes in fiduciary net assets
			♦ Statement of cash flows	
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the Agency's funds do not currently contain capital assets, although they can
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

Financial Analysis of the District as a Whole

Net Position. As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District's net position was \$452.9 million at June 30, 2017. The largest portion of net position, \$257.2 million or 56.8%, reflects the District's investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt used to acquire these assets that is still outstanding. The District uses these capital assets to provide services to students, consequently, these assets are not available for future spending. An additional portion of the District's net position, \$35.3 million or 7.8%, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of \$160.4 million or 35.4% may be used to meet the government's ongoing obligations.

The District's Net Position				
	<i>Governmental Activities As of June 30, 2017</i>	<i>Governmental Activities As of June 30, 2016</i>	<i>Business-Type Activities As of June 30, 2017</i>	<i>Business-Type Activities As of June 30, 2016</i>
Current and Other Assets	\$ 691,751,577	\$ 379,465,200	\$ 842,986	\$ 797,039
Non- Current Capital Assets	980,579,531	976,236,835	-	-
Total Assets	1,672,331,108	1,355,702,035	842,986	797,039
Deferred Outflows of Resources	66,175,630	89,027,178	-	-
Current Liabilities	125,490,374	94,686,984	596,282	602,112
Long Term Liabilities	1,153,002,953	944,185,874	-	-
Total Liabilities	1,278,493,327	1,038,872,858	596,282	602,112
Deferred Inflows of Resources	7,350,406	21,432,813	-	-
Net Position:				
Invested in Capital Assets, net of related debt	257,189,793	216,678,892	-	-
Restricted	35,304,197	31,349,021	-	-
Unrestricted	160,169,015	136,395,629	246,704	194,927
Total Net Position	\$ 452,663,005	\$ 384,423,542	\$ 246,704	\$ 194,927

Changes in net position. The District's total revenues were \$796.4 million. The most significant portion (80.4%) of the District's revenue comes from property taxes. (See Figure 1) Operating grants provided 8.9%. State aid comprised 4.9% and Charges for Service equaled 3.8%. All remaining sources combined for the remaining 2%. The total cost of all programs and services was \$728.1 million.

Figure 1 graphically depicts the sources of governmental activities revenue for the fiscal year ending June 30, 2017. Property taxes and state aid are two of the District's chief sources of operating revenues. Both of these revenue streams continue to change from year to year due to changes in property values and components in the funding formulas used by the State of Texas to calculate state aid.

Figure 1
Governmental Activities Revenue by Source for the fiscal year ended June 30, 2017

Government-Wide Activities

The total cost of all government-wide activities for the year ended June 30, 2017 was \$728.1 million. Funding for these government-wide activities is by specific program revenue or through general revenues such as property taxes and investment earnings. The following is a summary of the governmental funds activities:

- The cost of all *governmental activities* for the year was \$720.5 million.
- Some of the *governmental activities* cost was funded by program revenues directly attributable to specific activities. These program revenues amounted to \$91 million.
- The remaining cost of *governmental activities* not directly funded by program revenues was \$629.6 million which was funded from property taxes and other local sources.

The following table presents the cost of the District's largest governmental functions as well as their related *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by local tax dollars, state revenues and other miscellaneous general revenues.

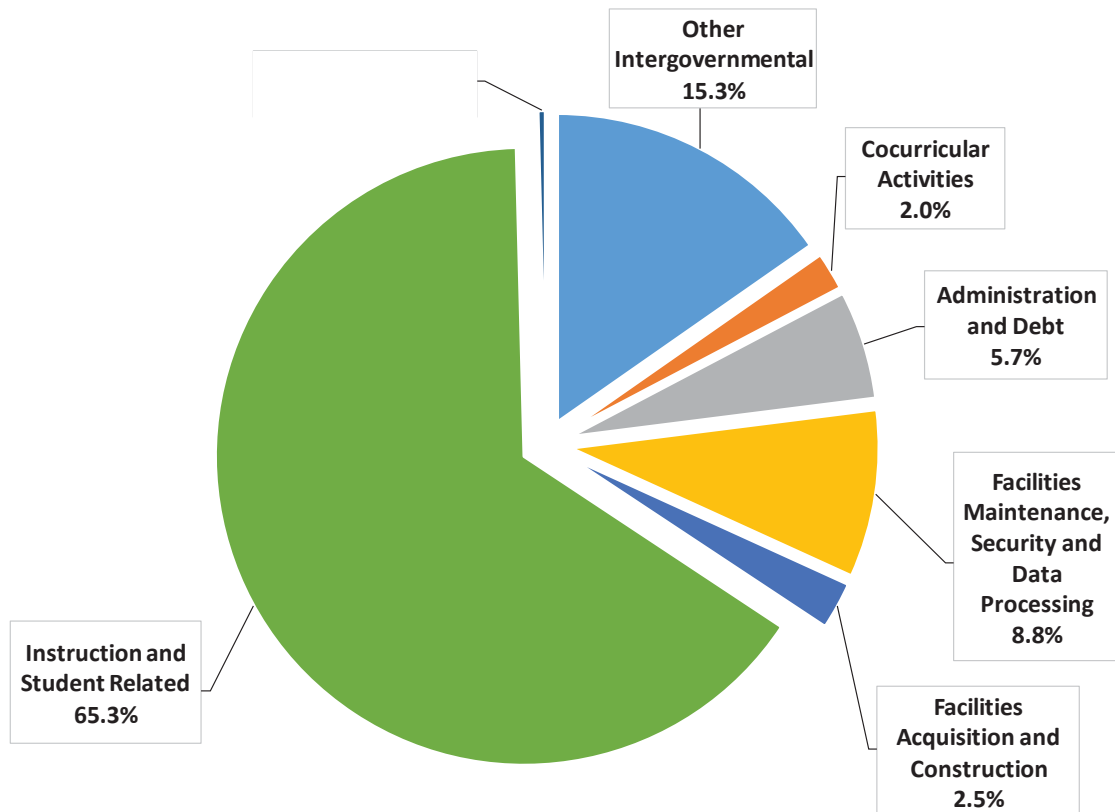

Net Cost of Selected District Functions

(in millions of dollars)

	<u>Total Cost of Services</u>	<u>Net Cost of Services</u>
Instruction	\$350.0	\$306.5

Figure 2
Governmental Activities Expenses by Source for the fiscal year ended June 30, 2017

The increase in the ending net position for Governmental Activities of \$68.2 million is a combination of several factors. Revenue and transfers in for governmental activities increased by \$51.5 million during fiscal year 2016.

- Property taxes increased \$55.3 million due to an 10.2% increase in taxable property values.
- State Aid increased \$6.3 million due to an increase of approximately \$210 per average daily attendance funding from the Available School Fund Program in the second year of the biennium. Available School Fund is directed to the Instructional Materials Allotment in the first year of the biennium which reduces the funding available for general support of districts.
- Miscellaneous Local and Intermediate revenue decreased \$4.1 million as insurance proceeds received after extensive damage from two spring storms in fiscal year 2016 were for a lesser amount in fiscal year 2017.

Expenses are summarized by functional categories that reflect the purpose of the transaction. Various operating expenses are recorded within each functional category. Total expenses reflect an overall increase of \$44.3 million. Several key factors combine to account for the increase.

- Instruction and Instructional Related Services decreased \$5.0 million. Increases in this category included a 3% raise, additional staffing associated with expansion of the District's Pre-Kindergarten program, and additional Special Education Staffing. These increases were more than offset by a reduction in the District's proportional cost of the State operated Teacher Retirement System.
- Two major hail storms did considerable damage to school building roofs across the district in the Spring of 2016. Roof repairs and replacements primarily occurred during fiscal year 2017 and fully account for the \$7 million increase in Facilities Maintenance and Operations.

- The \$4.8 million decrease in Debt Service is due to a reduction in interest cost on long term debt.
- The increase in Other Facility Costs of \$2.3 million is due to the availability of bond proceeds in fiscal year 2017 for Technology and Security projects.
- As a direct result of the increase in property tax revenue, Contracted Instructional Services Between Schools (Recapture) increased by \$44.4 million. The school finance system in Texas is equalized through an equalized wealth limit that requires excess property wealth per weighted average daily attendance (WADA) to be returned to the State.

Business-Type Activities

The net position of the District's business-type activities increased by \$51,777. This increase is primarily due to changes within two of the business type activities.

- The Employee Child Care centers saw an increase in the number of children served which resulted in an increase in tuition revenue producing an increase in Net Position of \$32,463.
- Concessions saw an increase in their net position of \$18,841. Solid attendance at events resulted in increased sales at district stadiums.

Financial Analysis of the District's Funds

Governmental Funds The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the *Financial Accountability System Resource Guide*, Texas Education Agency, with the revenues being recorded when available and measurable to finance expenditures of the fiscal period. Expenditures are recorded when services or goods are received and the fund liabilities are incurred. The unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year. The general governmental operations include the following major funds: General, Debt Service and the Capital Projects Fund.

Revenues for general governmental functions totaled \$775.5 million for the year ended June 30, 2017. Property taxes were the largest source of revenue received by the District. Increase property tax revenue account for the majority of the \$55.7 million increase in Local Revenue.

- The total property tax rate for the district remained constant at \$1.439 for fiscal year 2017. The Maintenance and Operating (M&O) tax rate was \$1.17 with the Debt Service rate at \$0.269. Net taxable property value grew by 10.2%. While the tax rate was constant, when applied against the increased property value the result was an increase in M&O tax revenue of \$44.7 million and Debt Service tax revenue of \$10.1 million for a total increase in tax revenue of \$54.8 million. Note, the increase in M&O tax revenue was essentially the same as the increase in the District's recapture payment to the State (\$44.4 million).

State revenue increased by \$4.8 million.

State Aid increased \$6.5 million due to an increase of approximately \$210 per average daily attendance funding from the Available School Fund Program in the second year of the biennium. This increase was offset by a \$1.6 million decrease in State revenue in Other Funds due to a decrease in funding for the Instructional Materials Allotment that was pushed forward into the first year's allocation due to several large textbook adoptions.

Federal revenues show an increase of \$2,769,097 for the 2017 fiscal year.

- SHARS Medicaid revenue increased \$966,936. Also, increases in federal grants were seen in IDEA-B, Title III- Language Instruction and National School Lunch & Breakfast programs to primarily account for \$1.9 million of the increase.

Expenditures for general governmental operations totaled \$800.3 million during fiscal year 2017 for an increase of \$90.

- Contracted Instruction Services Between Schools (Recapture) increased by \$44.4 million as previously discussed.
- Facilities, Acquisition and Construction expenditures increased by \$28.1 million as the District began implementation of the Bond Program authorized in May 2016. Most other areas realized increases due primarily to a 3% salary increase.
- Roof repairs and replacements continued throughout fiscal year 2017 and account for the \$8.5 million increase in Facilities Maintenance and Operations.
- Debt Service principal payments increased by \$3.6 million due to accelerated debt repayment.

The governmental funds reported a combined fund balance of \$575.52 million. Out of the combined fund balances, \$214.8 million constitutes unassigned fund balance available for the general operations of the District. The remainder of the fund balance is nonspendable, restricted, committed by board action or assigned. Fund balance classifications as of June 30, 2017 consist of:

	<u>As of 6/30/17</u>	<u>As of 6/30/16</u>
Nonspendable		
Inventories	\$ 1,423,252	\$ 1,526,996
Prepaid Items	4,425	783,688
Restricted		
Debt Service	40,104,413	30,574,993
Capital Projects	288,931,479	43,304,022
Food Service	6,759,968	7,144,051
State Special Revenue	2,556,089	693,251
Committed		
Local Special Revenue	9,612,365	10,340,081
Assigned		
Purchases on order	11,331,903	17,618,791
Unassigned	<u>214,764,507</u>	<u>174,700,092</u>
Total Fund Balance	<u><u>\$ 575,488,401</u></u>	<u><u>\$ 286,685,965</u></u>

The General Fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$214.8 million. Encumbrances in the amount of \$11.3 million were assigned. Unassigned fund balance available for the general operations of the District represents 37.6% of the total general fund expenditures while total fund balance represents 39.8% of the same amount.

The Capital Project Fund has a total fund balance of \$288.9 million. This entire amount is restricted for future construction. The fund balance increased by \$245.6 million as a result of \$257,210,000 in bonds issued in August 2016.

The Debt Service fund balance increased by \$9.5 million. This increase was necessary to fund a \$7 million increase in the August 2017 debt payment resulting from the August 2016 bond issuance. As of June 30, 2017 the August 2017 payment is neither expended nor accrued.

The Special Revenue Funds have a total fund balance of \$19.2 million. Nonspendable fund balance of \$255,433 is invested in inventory. Fund balance is restricted for food service in the amount of \$6.8 million, for state special revenue in the amount of \$2.6 million with the remaining balance of \$9.6 million committed for local special revenue funds. Approximately 50% of the total fund balance is from activity in several local special revenue funds. Of the remaining balance, 35.2% is restricted for use by food service with 13.3% restricted for state grants.

Proprietary Funds—The District maintains both enterprise funds and internal service funds. Information is presented separately in the proprietary fund statement of net position and in the proprietary fund statement of revenues, expenses and changes in fund net position for the Enterprise Funds and the Internal Service Funds.

Net position in the Enterprise Funds as of June 30, 2017 was \$246,704. Net position for the 2017 year increased by \$51,777. The increase is due to increases in net position for Employee Child Care operations of \$32,463 and Concessions operations of \$18,841.

Net position in the Internal Service Funds as of June 30, 2017 was \$3.0 million. The majority of this amount is unrestricted to be used for future expenses in the health benefits, workers' compensation and unemployment internal service funds. Net position decreased by \$168,730 during fiscal year 2017. This decrease is attributable to the decrease in net position for Worker's Compensation and the Unemployment internal service funds.

- The Worker's Compensation fund was funded for eight months of the year which resulted in the decrease in net position of \$134,067.
- The Unemployment internal service fund has not been funded since fiscal year 2012. Annual operating expenses continue to draw down the net position each year with the decrease for 2017 being \$97,802.
- The Health Benefits Net Position increased by \$60,991 due to transfer in from the General Fund to cover overhead cost exceeding net operating loss.

General Fund Budgetary Highlights

The school finance system in Texas is equalized through an equalized wealth limit that requires excess property wealth per weighted average daily attendance (WADA) to be returned to the State. The equalized state funding formula is directly impacted by an increase in local property values. The 2015 Texas Legislature favorably impacted state funding for the biennium by increasing the basic allotment by \$100 per WADA and by including provisions to hold the District harmless if voters were to approve a \$10,000 increase in the State mandated homestead tax exemption. In November 2015, voters did approve Proposition 1 to amend the Texas State Constitution to increase the state mandated homestead exemption from \$15,000 to \$25,000. The District adopted its 2016-17 budget on June 7, 2016. The 2016-17 general fund budget was adopted with revenue and other sources of \$583.9 million exceeding appropriations and other uses of \$575.9 by approximately \$8 million. Revenue and other sources increased by \$38.3 million when compared to the 2015-16 amended budget. This overall net increase was the result of increases in property tax revenues of \$38.6 million due to increased property values, a net increase of \$4.2 million in State revenue due to an increase in the per capita allocation, and a \$5 million decrease in other sources due to nonrecurring hailstorm insurance proceeds received in 2015-16.

Appropriations and other uses reflected an increase of \$30.9 million. The appropriations budget included \$11.9 million in increased payroll costs associated with increased instructional and campus administrator staffing along with a 3% compensation increase. TRS On-Behalf payment made by the State increased \$1.1 million. Capital Outlay budget was reduced by \$5.9 million primarily from appropriation of insurance proceeds to repair/replace hail damaged facilities in 2015-16. Recapture payments to the state included a budgeted \$40.8 million increase due to the increased property values. The budgeted transfer out to the capital projects fund of \$14.4 million was eliminated from the 2016-17 budget.

The district operates a tightly controlled budget in all areas of operation while maintaining a high quality educational program.

Over the course of the fiscal year, the District revised its budget several times. In the General Fund, revenue overall increased by \$18.8 million. Local revenue increased by \$10.3 million with \$8.3 million of the increase due to certified values exceeding preliminary values on which the budget was adopted along with an increase of \$1.6 million due to increased investment earnings as a result of higher interest rates. State revenue increased in total by \$7.2 million of which \$3.4 million is due to an increase in the per capita funding rate from the Available School Fund along with a \$3.9 million increase due to the settle up of the prior year state formula revenue. Federal program revenue increased by \$1.3 million due to a larger than expected SHARS prior year Medicaid Cost Report settlement and increased current year SHARS claims reimbursements.

Final results indicate actual expenditures were \$15.3 million below final budgeted amounts. The most significant positive variances (\$6.4 million) was seen in the Facilities Acquisition and Construction function due to timing of the numerous roof replacements and repairs related to the hail storm damages from storms in the Spring of 2016. Staffing is budgeted at the full employment level throughout the entire year. Budget amounts for vacant positions throughout the year are not eligible for budget revisions and contribute to the variance between budgeted salaries and actual salaries of \$5.9 million in the Instruction function. The budgeted appropriation for payments due to the State in Contracted Instructional Services Between Schools (Recapture) exceeded the amount due by \$3.1 million. With the exclusion of the unusual occurrence in Facilities Acquisition and Construction function, the remaining expenditure budget variance represents a 1.8% variance on the total expenditure budget of \$587.6 million.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2017, the District had invested \$980,579,531 net of depreciation, in a broad range of capital assets, including land, equipment, buildings, and Construction in Progress. This amount represents a net increase (including additions, retirements and depreciation) of \$4.3 million over last year.

	<u>As of 6/30/17</u>	<u>As of 6/30/16</u>
Land and improvements	\$ 137,631,295	\$ 129,821,626
Buildings and improvements	1,322,335,681	1,309,509,784
Construction in Progress	20,224,392	4,036,319
Furniture, Equipment, & Vehicles	115,075,751	108,665,998
Totals	<u>1,595,267,119</u>	<u>1,552,033,727</u>
Total accumulated depreciation	<u>(614,687,588)</u>	<u>(575,796,892)</u>
Net capital assets	<u>\$ 980,579,531</u>	<u>\$ 976,236,835</u>

The year's major capital asset additions include the purchase of property for a new Fine Arts Center, buildings for a Special Education Transition Center and a third employee child care center, and upgrades for the cafeteria at Jasper High School, refurbishment at Christie and Hughston Elementary Schools and minor upgrades at Haun, Memorial and Shepard Elementary Schools. Several building improvements and land improvement projects are in progress at fiscal year-end. More detailed information about the District's capital assets is presented in Note 5 to the financial statements.

Debt Administration and Bond Ratings

Debt-management policies seek to provide the most favorable climate for District debt projects while upholding the highest rating possible for debt instruments. Management policies include the following points:

- All debt service obligations will be met when due.
- Long-term financing will be restricted to capital projects and capital equipment acquisition.
- Long-term bonds will not be issued to finance current operations.
- The District will cooperate and communicate with bond-rating agencies and work towards obtaining the most favorable municipal bond rating possible.
- Outstanding obligations will be reviewed frequently to ensure the most favorable funding structure for the District.
- All necessary information and material regarding the District's financial status will be provided to the appropriate parties.

As of June 30, 2017, the District had total bonded debt outstanding of \$1.0 billion. The ratio of net general bonded debt to assessed valuation and the amount of net bonded debt per capita are useful indicators of the District's debt position. Data presented in the statistical section indicate both of these indicators increased due to the issuance of \$257,210,000 of Series 2016 Unlimited Tax School Building Bonds on August 1, 2016. Net bonded debt per capita increased to \$2,894 and the ratio of net bonded debt to assessed value increased to 2.42 percent.

The District has authorized unissued bonds as of June 30, 2017 in the amount of \$197,020,000. During the year, the District issued \$ 257,210,000 of Series 2016 Unlimited Tax School Building Bonds. The bonds were issued at a premium, with a total of \$300,000,000 counting against voter authorization. The District continues to enjoy excellent bond ratings. Rating agency reviews were conducted in July 2016 in conjunction with the issuance of the Series 2016 Unlimited Tax School Building Bonds issued on August 1, 2016. Moody's Investors Service, Inc. assigned an underlying rating of Aaa while Standard and Poor's Corporation assigned an underlying rating of AAA with a stable outlook to the district's debt obligations.

Interest earnings on proceeds from debt are subject to arbitrage regulations contained in the Federal Tax Reform Act of 1986. As of June 30, 2017, there was no liability for arbitrage rebate.

Amounts included for compensated absences include accrued vacation according to the District's leave policy. Employees who terminate their employment may be paid accrued vacation not to exceed 40 days carryover plus the current-year vacation allocation. More detailed information about the District's general long-term debt is presented in Note 7 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The local economy continues to be very favorable. Net taxable property values reported in the summer of 2017 grew by \$5.4 billion (11.8%) from 2016 and now totals \$51.2 billion. Of this growth, \$1.2 billion was for new construction. The balance reflects increases in value of existing property. In the last three years, Plano has created a new central business district in North Texas with the \$3.2 billion, 255-acre Legacy West development. Toyota opened its North American headquarters on July 6, 2017. Generally, most of Legacy West is expected to be completed by the end of 2017. Scheduled to open are Liberty Mutual Insurance with 5,000 employees, JPMorgan Chase & Co with 6,000 employees, Renaissance Hotel with 304 rooms along with two residential towers opening in the summer of 2018. Overall, Legacy West will bring more than 20,000 jobs to Plano. In the South central section of the district, the \$1.5 billion, 186-acre CityLine mixed-use development is home to State Farm Insurance, the key corporate anchor of the development. Raytheon now fully occupies its new regional office within the development. Upon completion, CityLine will have 6 million square feet of office space, almost 4,000 apartments, two hotels and 300,000 square feet of retail space. Although property value growth has minimal impact on net general fund revenue due to the equalization provisions of the state funding formula, it does enhance debt service fund revenues and ultimately reduces the tax rate necessary to service existing debt payments.

With the passage of the tax ratification election in November 2013, the District has capacity to provide competitive salaries and continue support for a broad spectrum of academic offerings for the next several years. By working through the District's strong education foundation, local donations continue to be secured to assist with the support and development of academy program offerings for the students of Plano Independent School District.

On May 13, 2016, the Texas Supreme Court issued its opinion in the most recent school finance litigation that began February 4, 2013. The plaintiffs and intervenors in the case had alleged that the Finance System, as modified by the Texas Legislature in 2015 in response to prior decisions of the Court, violated two articles of the Texas Constitution. In its latest opinion, the Court held that "despite the imperfections of the current school funding regime, it meets minimum constitutional requirements." The court also noted that, "our Byzantine school funding system is undeniably imperfect, with immense room for improvement, but it satisfies minimum constitutional requirements."

The District adopted its 2017-18 budget on June 6, 2017. The 2017-18 general fund budget was adopted with revenues and other sources of \$634.5 million, appropriations and other uses of \$641.3 million. The resulting deficit of \$6.8 million was expected to be more than offset by underspending of appropriations which has historically been 2% or more. Revenue and other sources increased by \$30.3 million when compared to the 2016-17 amended budget. All of the increase is attributable to property tax increases due to the previously mentioned property value growth. Appropriations and other uses reflect an increase of \$35.6 million when compared to the 2016-17 amended budget. The change in appropriations is primarily due to the following:

- Increased payroll cost of \$15.5 million due to a 3% pay raise, additional health insurance contributions, and increased staffing primarily targeted to high need campuses/students.
- An increase of \$46.0 million in the recapture payment to the state due to rising property values and the state's equalization system.
- A decrease of \$19.1 million in purchased and contracted services due to the non-recurring nature of roof repairs from hail storm damage paid for in 2016-17, and
- A decrease of \$3.9 million in capital outlay as several capital items as several were added to the 2016-17 budget based on needs and funding availability.

On September 5, 2017 the District adopted a maintenance and operations tax rate of \$1.17 per \$100 of taxable assessed value which is the maximum rate approved by voters in the Tax Ratification Election in November 2013. The District also adopted a debt service tax rate of 26.9 cents, the same rate adopted in 2016-17. Due to the decline in interest rates and increase in property values the District was able to maintain the same debt service tax rate even with the issuance of \$108,020,000 Series 2017 Unlimited Tax Bonds on August 3, 2017. The debt service fund has a balanced budget of \$131.9 in revenue and appropriations for 2017-18.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Executive Director for Financial Services or the Accounting/Budget Director, at 2700 W. 15th Street, Plano, Texas 75075, or call (469) 752-8118 or 8115.

Plano Independent School District**Exhibit C-2**

Reconciliation of the Governmental Funds Balance Sheet to the
Statement of Net Position
June 30, 2017

Total Fund Balances - Governmental Funds	\$ 575,488,401
Capital assets used in governmental activities (excluding internal service) are not financial resources and therefore are not reported in governmental funds. The cost of the capital assets is \$1,595,230,300, and the accumulated depreciation associated with the capital assets is \$614,662,270.	980,568,030
Uncollected property taxes are reported as deferred inflow of resources in the governmental funds balance sheet but are recognized as a revenue in the statement of activities.	2,692,594
The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The assets and liabilities of the internal service funds (including net capital assets of \$11,501) are included in governmental activities in the statement of net assets. The net effect of this consolidation is to increase net position.	3,001,303
Long-term liabilities of \$1,035,638,698 are not due and payable in the current period and therefore are not reported as liabilities in the funds. A deferred charge on an advanced refunding of bonds payable of \$19,256,187 is reflected as a deferred outflow of resources on the Statement of Net Position.	(1,016,382,511)
Interest payable is not due and payable in the current period and therefore is not reported as a liability in the governmental funds.	(14,909,594)
Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability in the amount of \$117,364,255, a deferred inflow of resources related to TRS in the amount of \$7,350,406, and a deferred outflow of resources related to TRS in the amount of \$46,919,443. This resulted in a decrease in net position.	<u>(77,795,218)</u>
Net Position of Governmental Activities	<u><u>\$ 452,663,005</u></u>

Exhibit C-4

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities Year Ended June 30, 2017

Total Net Change in Fund Balances - Governmental Funds

\$ 288,802,436

Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense. This is the amount by which capital outlays of \$44,498,468 exceeded depreciation of \$40,152,635 in the current period (Certain expenditures are reported in the Facilities Acquisition and Construction category which are under the capitalization threshold of \$5,000 and therefore are not considered capital outlay.)

4,345,833

Repayment of principal and other long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not expensed in the current period. This amount represents the following: current year

Principal Payment	\$ 76,765,000
Amortization of Premium	16,295,961
Amortization of loss on Bond Refunding	<u>(1,988,027)</u>

91,072,934

Some property taxes will not be collected for several months after the fiscal year ends, therefore they are not considered available revenues and are deferred in the governmental funds. Unearned tax revenues, net of bad debt, increased (decreased) by this amount.

(213,628)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrued, regardless of when it is due.

(6,940,229)

In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, expenditures for these items are measured by the amount of financial resources used. This year, compensated absences earned exceeded the amounts used.

(6,711)

The District uses internal service funds to charge the costs of certain activities, such as self-insurance and printing, to appropriate functions in other funds. The net income of internal service funds is reported with governmental activities. The net effect of this consolidation is to decrease net position.

(168,730)

Proceeds of bonds (including premium) issued during the year are recognized as Other Financing Sources in the governmental funds but increase non-current liabilities in the Statement of Net Position.

(300,532,186)

The net change in net pension liability, deferred outflows and deferred inflows is reported in the statement of activities but does not require the use of current financials resources and, therefore is not reported as expenditures in the governmental funds. The net change consists of a decrease in the deferred outflow of resources related to TRS of \$20,863,521 a decrease in the deferred inflow of resources related to TRS of \$14,802,407, and an increase in the net pension liability of \$1,339,142.

Plano Independent School District

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

Reporting Entity

The Plano Independent School District (District) is an independent school district governed by the Board of Trustees (Board), composed of seven Board Members, all of whom are elected officials. The Board is the basic level of government which has responsibility and control over all activities related to the public school education in the city of Plano and portions of the cities of Richardson, Dallas, Murphy, Parker, Carrollton and Allen which lie within the District's boundaries. The Board receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity," as defined in pronouncements by the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Reporting Entity* as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34*.

Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Transactions among governmental funds and between governmental funds and proprietary funds appear as due to/due from other funds on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other financing sources and uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. Interfund services provided and used are not eliminated in the consolidation of funds for the Statement of Activities. All interfund transactions that do not represent services provided and used between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as interfund transfers. Interfund activities between governmental funds and fiduciary funds remain as receivables and payables on the government-wide Statement of Net Position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Program revenues included in the Statement of Activities reduce the cost of the function to be financed from General Revenues. Taxes and other items not properly identified as program revenues are reported instead as general revenues.

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense to each function.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. In accordance with the provisions of GASB Statement No. 34, the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Plano Independent School District

Notes to Basic Financial Statements

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide Financial Statements--The government-wide financial statements, as well as the agency and proprietary fund statements, are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor have been met. All interfund transactions between governmental funds are eliminated on the government-wide statements.

Fund Financial Statements--Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within 60 days of the fiscal year end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded when payments are due. Proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred.

All other revenue items are considered measurable and available only when cash is received by the District.

Funds

The District reports its financial activities through the use of "fund accounting." The activities of the District are organized on the basis of funds. The operations of each fund are accounted for within a separate set of self-balancing accounts to reflect results of activities. Fund accounting segregates funds according to their intended purpose and is used to assist management in demonstrating compliance with finance-related legal and contractual provisions.

As required by the Texas Education Agency, the following fund types are included in the financial statements:

Governmental Funds

Governmental Funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities are accounted for through the Governmental Fund Types.

The following are the District's major governmental funds:

General Fund - The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenses and the capital improvement costs that are not paid through other funds are paid from the General Fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the retirement of, long-term debt and related costs.

Plano Independent School District

Notes to Basic Financial Statements

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition, renovation or construction of capital facilities. Proceeds are received through long-term debt financing and other authorized sources.

Other governmental funds include:

Special Revenue Funds - The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than private-purpose trust funds or capital projects) such as federal, state or locally financed programs. Funds are legally restricted or committed to expenditures for specified purposes.

Proprietary Funds

Proprietary Funds are used to account for operations that are financed in a manner similar to those found in the private sector, where the determination of net income is appropriate for sound financial administration.

Enterprise Funds - The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to a private enterprise where the District's intent is to provide services financed primarily through user charges. The District accounts for Employee Child Care, After School Care, Concessions and Photography as enterprise funds.

Internal Service Funds - The Internal Service Funds are used to account for the financing of services provided by one department to other departments of the District on a cost reimbursement basis. The print shop, health benefits, workers' compensation self-funded, unemployment benefits, sign shop and insurance claims self-funded programs of the District are accounted for in these funds. Accrued liabilities include provisions for claims reported and claims incurred but not reported. The provision for reported claims is determined by estimating the amount which will ultimately be paid to each claimant. The provision for claims incurred but not yet reported is estimated based on District experience since the inception of the programs and data provided by actuarial consultants.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's proprietary funds are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and/or other funds.

Agency Funds - Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Agency Funds account for the receipt and disbursement of monies from student activity organizations and other types of activities requiring clearing accounts. The student activity organizations exist with the explicit approval of, and are subject to revocation by, the District's Board. This accounting reflects the District's agency relationship with the student activity organizations.

Plano Independent School District

Notes to Basic Financial Statements

Assets, Liabilities and Net Position or Equity

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, money market bank sweep accounts, money markets, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments with maturities exceeding twelve months at the date of purchase are stated at fair value, which is the amount at which the investment can be exchanged in a current transaction between willing parties. Investments with maturities of twelve months or less at the date of purchase are held at amortized cost and net asset value (NAV). Management of the District believes that in the areas of investment practice, management reports and the establishment of appropriate policies, the District adhered to the requirements of the State of Texas Public Funds Investment Act. Additionally, management of the District believes that investment practices of the District were in accordance with local policies.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide statements as "internal balances."

All trade and property tax receivables are shown net of allowance for uncollectible. The property tax receivable allowance is 32.6% of outstanding property taxes at June 30, 2017.

Inventories and Prepaid Items

Inventories of supplies on the balance sheet are stated at weighted average cost. Inventory items are recorded as expenditures when they are consumed. Supplies are used for almost all functions of activity.

Prepaid balances are for payments made by the District for which benefits extend beyond June 30, 2017. The cost of governmental fund type prepaid balances are recorded as an expenditure when consumed rather than when purchased.

Grant Fund Accounting

The Special Revenue Funds include programs that are financed on a project grant basis. These projects have grant periods that range from less than twelve months to in excess of two years. Grants are recorded as revenues when earned. Cost reimbursement grants are considered to be earned to the extent of expenditures made under the provisions of the grants. Funds received, but not earned, are recorded as deferred revenue until earned.

Indirect costs earned from grant programs are recorded as revenues of the General Fund. These indirect costs are determined by applying approved indirect cost rates to actual expenditures of the programs.

Plano Independent School District

Notes to Basic Financial Statements

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in the accounting system in order to reserve the portion of the applicable appropriation, is employed in the governmental fund financial statements. Encumbrances, which have not been liquidated, are reported as assignments of fund balance since they do not constitute expenditures or liabilities. District policy requires that such amounts be re-appropriated in the following fiscal year.

Capital Assets

Capital assets, which include land, land improvements, building, building improvements and equipment, are reported in the applicable governmental activities column in the government-wide financial statements and the proprietary fund financial statements. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. The capitalization threshold is a unit cost of \$5,000. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. '

Buildings and building improvements of the District are depreciated using the straight-line method beginning in the year after they are placed in service. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Classification	Useful Life
Buildings and building improvements	50 years
Land improvements	20 years
Furniture/equipment & vehicles	
Vehicles and buses	10 years
Furniture	20 years
Equipment	
Computers	5 years
Kitchen equipment	10 years
Custodial equipment	15 years
Telephone equipment	10 years
Instruction and misc. equipment	10 years

Plano Independent School District

Notes to Basic Financial Statements

Compensated Absences

Employees of the District are granted vacation and sick leave annually. Teachers do not receive paid vacations but are paid only for the number of days they are required to work each year. Full-time employees in positions that require 12 months of service are eligible for two weeks of vacation on July 1 following the first full year of employment. Full-time employees who have not been employed one full year as of July 1 are eligible to take accrued days after July 1 of that year but shall not be eligible for the full two weeks until July 1 of the following year. Full-time employees who have completed five years of service in the District are granted three weeks of vacation per year. Employees in positions that require 12 months of service may extend accrued vacation time to September 30 each year. Vacation days not used by September 30 may be carried over, with a maximum accrual of 40 days. As of June 30, 2017, the District recorded \$4,061,294 in the government-wide financial statements for accrued vacation liabilities. Employees are allowed to accrue five days of state personal leave and seven days of local sick leave each year without limit.

State personal leave and local sick leave do not vest under the District's policy and accordingly, employees can only utilize state personal and sick leave when sick, or state personal leave for personal reasons when approved by their supervisor. Since the employees' accumulating rights to receive compensation for future absences are contingent upon the absences being caused by future illnesses and such amounts cannot be reasonably estimated, a liability for unused sick leave is not recorded in the financial statements.

Long-term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported inclusive of applicable bond premium or discount. Bond issuance costs are expensed when incurred. Losses on refunding are capitalized and amortized over the shorter of the life of the new issuance or the life on existing debt using the effective interest method and are reported as deferred outflows of resources in the government-wide Statement of Net Position. Premiums and discounts are amortized over the life of the related debt using the effective interest method.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs and deferred losses on refunding as expenditures during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances and Net Position

Government-wide Financial Statements

Net position on the Statement of Net Position includes the following:

Net Investment in Capital Assets -- the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt net of premiums and discounts, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted for Debt Service -- the component of net position that reports the difference between assets and liabilities with constraints placed on their use by law.

Plano Independent School District

Notes to Basic Financial Statements

Restricted for Food Service -- the component of net position that reports the difference between assets and liabilities with constraints placed on their use by the U.S. Department of Agriculture.

Restricted for State Programs -- the component of net position that reports the difference between assets and liabilities with constraints placed on their use by the State of Texas.

Unrestricted -- the difference between the assets and liabilities that is not reported in Net Position Invested in Capital Assets, Net of Related Debt and restricted net position.

Governmental Fund Financial Statements

Governmental fund balances are classified as Nonspendable, Restricted, Committed, Assigned, and Unassigned. These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund balance can have different levels of constraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification within the General Fund. The General Fund should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance.

The District classifies governmental fund balances as follows:

Nonspendable -- includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid items and long term receivables.

Restricted -- includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts restricted due to constitutional provisions or enabling legislation. This classification includes the child nutrition program, retirement of long term debt, construction programs and other federal and state grants.

Committed -- includes fund balance amounts that are constrained for specific purposes that are internally imposed by the District through formal action of the highest level of decision making authority. Committed fund balance is reported pursuant to resolution passed by the District's Board of Trustees. This classification includes campus activity funds, local special revenue funds and potential litigation, claims and judgments.

Assigned -- includes fund balance amounts that are self-imposed by the District to be used for a particular purpose. As defined by the Fiscal Management Goals and Objectives Policy, fund balance can be assigned by the District's Board, the Superintendent, or the Associate Superintendent of Business Services. This classification includes insurance deductibles, encumbrances, program start-up costs, projected budget deficit for subsequent years and other legal uses.

Unassigned -- includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts and the unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

Plano Independent School District

Notes to Basic Financial Statements

Minimum Fund Balance Policy

It is the desire of the Board to attempt to maintain a fund balance in the general operating fund that is approximately 20 percent of general operating expenditures, excluding any nonspendable fund balance; and fund balance in the interest and sinking fund that is approximately 20 percent of the current annual debt services requirement.

Management's Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is possible that the foundation revenue estimate as of June 30, 2017 will change.

Pensions

In government-wide financial statements, pensions are required to be recognized and disclosed using the accrual basis of accounting, regardless of the amount recognized as pension expenditures on the modified accrual basis of accounting. The District recognizes a net pension liability for the qualified pension plan in which it participates, which represents the excess of the total pension liability over the fiduciary net position of the qualified pension plan, or the District's proportionate share thereof in the case of a cost-sharing multiple-employer plan, measured as of the respective pensions' fiscal year-end. Changes in the net pension liability during the period are recorded as pension expense, or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change, in the period incurred. Those changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and recorded as a component of pension expense beginning with the period in which they are incurred. Projected earnings on qualified pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred.

Note 2. Cash and Investments

Statutes of the State of Texas and policies mandated by the District's Board of Trustees authorize the District to invest in obligations of the U.S. Government or its agencies, repurchase agreements, commercial paper, public fund investment pools, mutual funds and money market accounts. All cash balances and investments are held separately in each of its funds.

As of June 30, 2017, the carrying amount of the District's cash deposits were \$204,245 and the bank balance was \$44,629.

Plano Independent School District

Notes to Basic Financial Statements

Depository information, required to be reported to the Texas Education Agency, is as follows:

- a) Name of depository bank: Bank of America, N.A.
- b) Amount of bond or security pledged as of the date of the highest combined balance on deposit was \$10,085,957.
- c) Highest cash, savings and time deposits combined account balances amount was \$9,910,986 and occurred on January 31, 2017.
- d) Total amount of Federal Deposit Insurance Corporation (FDIC) coverage at the time of highest combined balance was \$250,000.

The District also holds bank deposits as part of the District's investment portfolio. As of June 30, 2017, the carrying amount and bank balance of these deposits were \$25,082,020. The District's cash deposits at June 30, 2017 were entirely covered by FDIC insurance or by pledged collateral held by the District's bank in the District's name.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs—other than quoted prices included within Level 1—that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Plano Independent School District

Notes to Basic Financial Statements

The District has recurring fair value measurements as presented in the table below. The District's investment balances and weighted average maturity of such investments are as follows:

	Fair Value Measurements Using					
	June 30, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percent of Total Investments	Weighted Average Maturity (Years)

Portfolio Weighted Average Maturity						

The *Texpool* investment pool is an external investment pool measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, the investment pool must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. The investment pool transacts at a net asset value of \$1.00 per share, has weighted average maturities of 60 days or less and weighted average lives of 120 days or less, investments held are highly rated by nationally recognized statistical rating organizations, have no more than 5% of portfolio with one issuer (excluding U.S. government securities), and can meet reasonably foreseeable redemptions. Texpool has a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity. Texpool is subject to regulatory oversight by the State Treasurer, although it is not registered with the Securities and Exchange Commission.

Plano Independent School District

Notes to Basic Financial Statements

The *Lone Star* and *TexStar* investment pools are external investment pools measured at net asset value. Lone Star and TexStar's strategy is to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pools. Lone Star and TexStar have a redemption notice period of one day and may redeem daily. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pool's liquidity. LoneStar and TexStar are subject to regulatory oversight by the State Treasurer, although the pools are not registered with the Securities and Exchange Commission.

U.S. Government Agency Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

U.S. Treasury Bonds and *Commercial Paper* classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

The fair value of investments is \$65,452 less than the book value reported by the District. As required by GASB Statement No. 31, the District recognizes the net unrealized gain/loss on investments with a maturity date greater than one year from the acquisition date and investments that are callable.

Interest rate risk. In accordance with the District's investment policy, investments are made in a manner that ensures the preservation of capital in the overall portfolio, and offsets during a 12-month period any market price losses resulting from interest-rate fluctuations by income received from the balance of the portfolio. The District's policy states that no individual investment transaction shall be undertaken that jeopardizes the total capital position of the overall portfolio.

Credit risk. The District's policy relating to the credit risk of investments reflects adherence to the Public Funds Investment Act, which limits investments in commercial paper to not less than A-1 or P-1 or equivalent rating by at least two nationally recognized credit rating agencies. The District's investments in public funds investment pools and money market mutual funds include those with TexPool, TexStar and LoneStar. TexPool, TexStar and LoneStar are public funds investment pools operating in full compliance with the Public Funds Investment Act. They are rated as AAA money market funds by Standard & Poor's.

Concentration of credit risk. The investment policy of the District places no limitations on the amount that can be invested in any one issuer; however, the investment portfolio is diversified in terms of investment instruments, maturity scheduling, and financial institutions to reduce risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer.

More than 5% of the District's investments are in the following instruments:

Commercial Paper Investment Description	Percentage of Investments	S&P Rating	Moody Rating	Fitch Rating
GE Capital Treasury	11.18%	A-1+	P-1	Not Rated
Nestle Financle Intl Ltd	9.02%	A-1+	P-1	F1+
American Honda Finance	8.22%	A-1	P-1	F1
Kaiser Foundation Hospital	7.44%	A-1+	Not Rated	F1
Toyota Mtr Cr	6.17%	A-1+	P-1	Not Rated

Plano Independent School District

Notes to Basic Financial Statements

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. Under the Dodd Frank Act, deposits held in noninterest-bearing transaction accounts are now aggregated with any interest-bearing deposits the owner may hold in the same ownership category, and the combined total is insured up to \$250,000.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments held by third parties were fully collateralized and held in the District's name.

Note 3. Property Taxes and State Aid Revenue

Property Taxes

The appraisal of property within the District is the responsibility of the Collin County Appraisal District (Appraisal District). The District's property taxes are levied annually in October on the basis of the Appraisal District's assessed values of property as of January 1 of that calendar year and are due and payable when assessed. Such taxes are applicable to the fiscal year in which they are levied and become delinquent with an enforceable lien on property after January 31 of the subsequent calendar year.

Delinquent taxes receivable and the related allowance for uncollectible taxes are shown on the government-wide Statement of Net Position and the fund financial Balance Sheet.

The District is permitted to levy taxes up to \$1.17 per \$100 of assessed valuation for general governmental maintenance and operations. The tax rate for the payment of principal and interest on general obligation long-term debt is determined by the debt service requirements of the outstanding bonds as approved by the voters prior to issuance. For the current fiscal year, the Board of Trustees set a tax rate of \$1.439 per \$100 of assessed valuation. The maintenance and debt service portions of such rate are \$1.17 and \$0.269, respectively. The 2017 assessed valuation was \$45,916,580,666 resulting in a tax levy of \$639,881,781 for the current fiscal year. The 2017 tax levy reflects an adjustment of \$20,532,374 of frozen homestead exemptions for taxpayers 65 years and older as mandated by state property tax laws.

Property taxes which are measurable (quantifiable) and available (collectible within the current period or soon enough thereafter to finance expenditures of the current period, which the District has estimated to be collected in the two months after the fiscal year end) are recognized as revenue in the year of levy in the governmental fund financial statements. Property taxes, which are measurable but not available, are recorded net of estimated uncollectible amounts, as deferred revenues in the year of the levy in the governmental fund financial statements. Such deferred revenues are recognized in the fund financial statements as revenue in the fiscal year in which they become available. In the government-wide financial statements, property taxes are recognized as revenues in the year for which the taxes are levied.

Plano Independent School District

Notes to Basic Financial Statements

Delinquent taxes receivable and the related allowance for uncollectible taxes in the governmental fund financial statements as of June 30, 2017 are as follows:

	Delinquent Taxes Receivable, Gross	Allowance for Uncollectible Taxes	Delinquent Taxes Receivable, Net
General fund	\$ 7,184,126	\$ 2,309,932	\$ 4,874,194
Debt service fund	1,774,593	606,786	1,167,807
Total	<u>\$ 8,958,719</u>	<u>\$ 2,916,718</u>	<u>\$ 6,042,001</u>

State Aid Revenue

The Texas Education Agency, through its application of state law, allocates state revenues to school districts by formula allocation. The District receives two allocations, a per capita allocation and a foundation program allocation. The District also recognizes revenues for the state's share of the contributions to the Teacher Retirement System of Texas. See Note 10 for additional information on the employee's retirement plan. Other state revenues are received through other state miscellaneous programs on an allocated basis.

State Program Revenues

The components of state program revenues as shown in the governmental fund financial statements are as follows:

Revenues	Amounts
Per capita revenues	\$ 20,187,184
Foundation fund revenues	12,156,261
Instructional materials allotment	3,216,122
State aid for homestead exemption	1,781,791
Other state revenues	4,947,845
TRS on behalf	22,165,309
Total State Program Revenues	<u>\$ 64,454,512</u>

Note 4. Receivables

Receivables due from other governments, as of June 30, 2017 for the District's individual major funds and non-major, internal service and fiduciary funds in the aggregate are as follows:

	General Fund	Debt Service Fund	Non-Major and Other Funds	Total
Due from the State of Texas	\$ 8,175,282	\$ -	\$ 5,629,190	\$ 13,804,472
Due from the Federal Government	-	-	316,146	316,146
Due from Other Local Governments	284,568	68,696	-	353,264
Total receivables	<u>\$ 8,459,850</u>	<u>\$ 68,696</u>	<u>\$ 5,945,336</u>	<u>\$ 14,473,882</u>

Construction Commitments

The District had several active construction projects as of June 30, 2017. Projects included building and land purchases, additions to buildings and renovation or upgrades of existing facilities. Fiscal year 2017 expenses and estimated future expenditures for capital projects are funded from operating capital project funds, unexpended bond proceeds and additional general obligation bonds. The following summarizes the various types of projects:

Building Purchases/New Construction – The District purchased property for a new Fine Arts Center and began preliminary planning. Additionally, the District purchased buildings for a Special Education Transition Center and a third employee childcare.

Building Renovation/Upgrades – The District continued work on the renovation of Shepton High School and refurbishments at Gullede and Rose Haggard Elementary Schools. The District also began work on additions at Plano East Senior High School, Guinn Center and Wells Elementary; upgrades at the Agricultural Barn and Academy High School; and roofing projects for Williams High School, Schimelpfenig Middle School, Harrington and Daffron Elementary Schools. Additionally, preliminary work began for the renovation of Robinson Middle School and refurbishment at Miller Elementary. The District continued work on minor capital project improvements at several campuses.

Completed Projects – During fiscal year 2017, the District completed the cafeteria upgrades at Jasper High School, refurbishment at Christie and Hughston Elementary Schools and minor upgrades at Haun, Memorial and Shepard Elementary Schools.

Plano Independent School District

Notes to Basic Financial Statements

Note 6. Interfund Receivables, Payables and Transfers

The composition of interfund balances in the fund financial statements as of June 30, 2017, is as follows:

	Receivable	Payable
General Fund	\$ 754,526	\$ -
Other Governmental Funds	-	754,526
Totals	<u>\$ 754,526</u>	<u>\$ 754,526</u>

The primary interfund transactions at year-end included amounts due to the General Fund from Other Governmental Funds for expenditures made by the funds prior to receiving reimbursement from the federal or state sources.

The following is a summary of the District's transfers for the year ended June 30, 2017:

Transfers Out	Transfers In				Total
	General Fund	Debt Service Fund	Other Governmental Funds	Internal Service Funds	
General fund	\$ -	\$ -	\$ 444,527	\$ 800,000	\$ 1,244,527
Capital projects fund	-	1,905,933	-	-	1,905,933
Enterprise funds	2,422,889	-	-	-	2,422,889
	<u>\$ 2,422,889</u>	<u>\$ 1,905,933</u>	<u>\$ 444,527</u>	<u>\$ 800,000</u>	<u>\$ 5,573,349</u>

The transfers made during the period consisted of the following:

From	To	Amount	Description
General Fund	Other Governmental Funds	\$ 444,527	To finance costs in excess of federal allotments for Headstart; to finance costs in excess of donations, grants and user charges in the Special Events Fund
General Fund	Internal Service Fund	600,000	To finance the overhead of the health insurance fund administration
General Fund	Internal Service Fund	200,000	To finance the property self insurance funds
Capital Projects Fund	Debt Service Fund	1,905,933	To transfer interest earned to finance debt service costs associated with construction projects

Note 7. Long-Term Debt

The following is a summary of the District's long-term debt for the year ended June 30, 2017:

	Obligations Outstanding 7/1/2016	New Obligations Incurred	Obligations Retired or Refunded and Accretion	Obligations Outstanding 6/30/2017	Obligations Due Within One Year
General obligation bonds payable	\$ 743,260,000	\$ 257,210,000	\$ (76,765,000)	\$ 923,705,000	\$ 75,245,000
Premium on bond issuance	80,846,179	43,322,186	(16,295,961)	107,872,404	-
Compensated absences	4,054,583	317,542	(310,831)	4,061,294	311,345
Total	<u>\$ 828,160,762</u>	<u>\$ 300,849,728</u>	<u>\$ (93,371,792)</u>	<u>\$ 1,035,638,698</u>	<u>\$ 75,556,345</u>

Debt Payable-Governmental Activities

Bonds payable at June 30, 2017, are composed of the following individual issues:

Description	Interest Rate Payable	Amounts Original Issue	Bonds Outstanding at July 1, 2016	Issued (Retired)	Bonds Outstanding at June 30, 2017
School Building Unlimited Tax Bonds Series 2007	4.50% to 5.00%	76,670,000	2,450,000	(2,450,000)	-
School Building Unlimited Tax Bonds Series 2008	3.00% to 5.00%	58,280,000	3,585,000	(1,755,000)	1,830,000
Unlimited Tax Refunding Bonds Series 2008	3.25% to 4.60%	33,305,000	320,000	(320,000)	-
School Building Current Interest Bonds Series 2008A	5.00% to 5.25%	177,465,000	10,715,000	(5,220,000)	5,495,000
School Building Unlimited Tax Bonds Series 2009B	4.04% to 6.27%	87,390,000	86,195,000	(1,260,000)	84,935,000
School Building Unlimited Tax Bonds Series 2009C	1.00%	31,900,000	23,355,000	(3,225,000)	20,130,000
Unlimited Tax Refunding Bonds Series 2010	3.00% to 5.00%	108,815,000	36,410,000	(5,830,000)	30,580,000

Notes to the Basic Financial Statements

The following table summarizes the annual debt service requirements of the outstanding debt issues at June 30, 2017, to maturity:

	Bond Principal	Bond Interest	Totals
2018	\$ 75,245,000	\$ 43,202,267	\$ 118,447,267
2019	76,755,000	39,830,600	116,585,600
2020	81,260,000	36,210,072	117,470,072
2021	85,170,000	32,306,481	117,476,481
2022	59,655,000	28,149,757	87,804,757
2023-2027	246,855,000	102,005,388	348,860,388
2028-2032	189,605,000	46,098,564	235,703,564
2033-2037	106,310,000	11,800,062	118,110,062
2038-2039	2,850,000	99,750	2,949,750
	<u>\$ 923,705,000</u>	<u>\$ 339,702,941</u>	<u>\$ 1,263,407,941</u>

On August 2, 2016, the District issued "Plano Independent School District Unlimited Tax School Building Bonds, Series 2016" totaling \$257,210,000 for the construction, renovation, acquisition, and equipping of school buildings and other facilities in the District, the purchase of necessary sites for future school buildings, and the purchase of new school buses. These bonds incur an average cost over the life of the bonds at a rate of 4.15-5.15% and mature annually with semi-annual interest payments. The bonds will fully mature in 2036. The bonds were issued at a premium, with a total of \$300,000,000 counting against voter authorization.

As of June 30, 2017, the principal balance of all defeased bonds outstanding was \$176,570,000 and is scheduled to be called February 15, 2018. Original losses on refunding were \$25.1 million of which \$19.3 million is unamortized and reported in the Statement of Net Position as a deferred outflow of resources. Unamortized bond premiums of \$107.9 million are reported in the Statement of Net Position as an increase in the long-term debt.

As of June 30, 2017, \$197,020,000 of bonds from the May 2016 election were authorized by bond election and not issued.

Other Long-term Debt

Arbitrage - The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. The U.S. Treasury requires payment for each issue every five years. Arbitrage liability for tax-exempt debt subject to the Tax Reform Act issued through June 30, 2017, amounted to \$0.

The estimated liability is updated annually for any tax-exempt issuances or changes in yields until such time payment of the calculated liability is due.

Compensated Absences - Certain employees are entitled to receive accrued vacation pay in a lump-sum cash payment upon termination of employment with the District. The net increase of \$6,711 over the prior fiscal year represents the recorded increase in the liability due to employees' not using accumulated vacation pay and allowing days to accumulate. The general fund and special revenue funds are used to liquidate compensated absences.

Plano Independent School District

Notes to the Basic Financial Statements

Note 8. Encumbrances

At June 30, 2017, the District had encumbrances which are classified as restricted, committed or assigned in accordance with purpose constraints. Encumbrances reported in the Governmental Funds were as follows:

Function	General Fund	Capital Projects	Food Service	Federal Special Revenue	State Special Revenue	Local Special Revenue	Total
Instruction	\$ 849,455	\$ -	\$ -	\$ 52,073	\$ 1,933,402	\$ 50,280	\$ 2,885,210
Instructional resources	10,053	-	-	-	-	3,915	13,968
Curriculum & instructional staff development	19,021	-	-	21,735	-	3,188	43,944
Instructional leadership	-	-	-	1,461	-	225	1,686
School leadership	7,937	-	-	-	-	3,476	11,413
Guidance, counseling & evaluation services	18,119	-	-	-	23,311	1,600	43,030
Health services	3,362	-	-	-	-	-	3,362
Student transportation	39,065	-	-	-	-	-	39,065
Food services	-	-	12,814	32,652	-	1,068	46,534
Co-curricular/ extracurricular activities	323,501	-	-	-	-	152,919	476,420
General administration	49,578	-	-	-	-	18,669	68,247

Security and monitoring services	92,372	-	-	-	-	-	92,372
Data processing services	236,684	-	-	-	-	-	236,684
Community services	34	-	-	55,560	-	82	55,676
Facilities acquisition and construction	-	75,935,014	-	-	-	-	75,935,014
Total encumbrances by fund type	<u>\$ 11,331,903</u>	<u>\$ 75,935,014</u>	<u>\$ 56,460</u>	<u>\$ 163,481</u>	<u>\$ 1,956,713</u>	<u>\$ 267,077</u>	<u>\$ 89,710,648</u>

Note 9. Risk Management

The District is exposed to various risks related to the theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District's risk management program encompasses various means of protecting the District against losses through policies with commercial insurance carriers or through self-insurance. Settled claims have not exceeded insurance coverage in any of the previous five fiscal years.

Workers' Compensation

The District maintains a self-insurance program for workers' compensation. Contributions are paid from all governmental and proprietary funds to the Workers' Compensation Internal Service Fund from which all claims and administrative expenses are paid. The District maintains a catastrophic loss insurance policy for catastrophic losses exceeding \$400,000 per occurrence up to statutory limit of liability.

An accrual for incurred but not reported claims in the amount of \$1,753,000 has been recorded in the fund as of June 30, 2017. Claims payable, including an estimate of claims incurred but not reported, was actuarially determined based on the District's historical claims experience and an estimate of the remaining liability on known claims.

Plano Independent School District

Notes to the Basic Financial Statements

Workers' Compensation Fund changes in claims payable for the years ended 2017 and 2016:

	June 30, 2017	June 30, 2016
Claims payable, beginning of fiscal year	\$ 1,735,000	\$ 1,811,000
Incurred claims and claim adjustment expenses	1,348,863	1,109,392
Claim payments during the year	<u>(1,330,863)</u>	<u>(1,185,392)</u>
Claims payable, end of fiscal year	<u>\$ 1,753,000</u>	<u>\$ 1,735,000</u>

Health Benefits

The District employees are eligible to purchase health insurance through TRS-Active Care which is the statewide health plan for public education employees established by the 77th Texas Legislature and is a fully insured plan administered by Blue Cross and Blue Shield of Texas.

During the year ended June 30, 2017, the District funded benefit credits of \$259 per month per participating employee to the health insurance internal service fund.

The District contribution, along with the employee contribution made through payroll deduction was used to pay the premiums for the insurance plans chosen by the employee. The District also offers a flexible spending option that is administered by Flexible Benefit Administrators.

Property, Casualty, General Liability and Professional Liability

The District purchases commercial policies which include general liability, property and auto insurance. However, the District has established a self-funded internal service fund to pay the cost of deductibles associated with these insurance policies. There have been no significant reductions in insurance coverage from coverage in the prior year for any category of risk.

The deductible for property insurance is \$100,000 with no deductible on auto insurance. In addition, the District purchases professional legal liability insurance and must pay the first \$250,000 on each liability claim. The amount of claims settlements did not exceed the insurance coverage in each of the past three years.

An accrual for incurred but not reported claims in the amount of \$53,176 has been recorded as of June 30, 2017. Property and Liability changes in claims payable for the years ended June 30, 2017 and 2016:

	June 30, 2017	June 30, 2016
Claims payable, beginning of fiscal year	\$ 53,176	\$ 53,176
Incurred claims and claim adjustment expenses	273,217	125,392
Claim payments during the year	<u>(273,217)</u>	<u>(125,392)</u>
Claims payable, end of fiscal year	<u>\$ 53,176</u>	<u>\$ 53,176</u>

Unemployment

During the fiscal year ended June 30, 2011, the District opened a separate internal service fund to account for unemployment benefits. TASB Risk Management Fund bills the District quarterly for the unemployment benefits paid out by the Texas Workforce Commission.

Plano Independent School District

Notes to the Basic Financial Statements

The District maintains the self-insurance program for unemployment benefits which is funded by premiums charged to the general and special revenue funds. An accrual for incurred but not reported claims in the amount of \$288,834 has been recorded as of June 30, 2017.

Changes in unemployment claims payable for the years ended June 30, 2017 and 2016:

	June 30, 2017	June 30, 2016
Claims payable, beginning of fiscal year	\$ 288,834	\$ 288,834
Incurred claims and claim adjustment expenses	101,866	97,623
Claim payments during the year	(101,866)	(97,623)
Claims payable, end of fiscal year	<u>288,834</u>	<u>\$ 288,834</u>

The liabilities for each type of claims payable described above are expected to be liquidated within the next twelve months, and are, therefore, recorded as current liabilities.

Note 10. Employees' Retirement Plan And Retiree Health Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/TRS%20Documents/cafr_2016.pdf; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Plano Independent School District

Notes to the Basic Financial Statements

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

	Contribution Rates	
	2016	2017
Member	7.2%	7.2%
Non-employer Contributing Entity (State)	6.7%	6.8%
Employers	6.8%	6.8%
2017 Employer Contributions		\$ 9,867,971
2017 Member Contributions		24,553,473
2017 NECE On-behalf Contributions		17,618,736

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

Plano Independent School District

Notes to the Basic Financial Statements

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation date	August 31, 2016
Actuarial method normal	Individual Entry Age Normal
Asset valuation method	Market Value
Single discount rate	8.00%
Long-term expected investment rate of return	8.00%
Inflation	2.50%
Salary increases including inflation	3.50% to 9.50%
Payroll growth rate	2.50%
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Plano Independent School District

Notes to the Basic Financial Statements

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members.

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2016 are summarized below:

Asset Class	Target Allocation	Real Return Geometric Basis	Long-Term Expected Portfolio Real Rate of Return *
Global Equity			
U.S.	18%	4.6%	1.0%
Non-U.S. Developed	13%	5.1%	0.8%
Emerging Markets	9%	5.9%	0.7%
Directional Hedge Funds	4%	3.2%	0.1%
Private Equity	13%	7.0%	1.1%
Stable Value			
U.S. Treasuries	11%	0.7%	0.1%
Absolute Return	0%	1.8%	0.0%
Stable Value Hedge Funds	4%	3.0%	0.1%
Cash	1%	-0.2%	0.0%
Real Return			
Global Inflation Linked Bonds	3%	0.9%	0.0%
Real Assets	16%	5.1%	1.1%
Energy and Natural Resources	3%	6.6%	0.2%
Commodities	0%	1.2%	0.0%
Risk Party			
Risk Party	5%	6.7%	0.3%
Inflation Expectation			2.2%
Alpha			1.0%
Total	100%		8.7%

* The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

Plano Independent School District

Notes to the Basic Financial Statements

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the Net Pension Liability.

	1% Decrease in Discount Rate (7.0%)	Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
Proportionate share of the net pension liability:	\$ 181,640,301	\$ 117,364,255	\$ 62,845,149

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$117,364,255 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 117,364,255
State's proportionate share that is associated with the District	209,131,676
Total	<u>\$ 326,495,931</u>

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 through August 31, 2016.

At August 31, 2016 the District's proportion of the collective net pension liability was 0.310582%, which was a decrease of 0.0176485% from its proportion measured as of August 31, 2015.

Changes Since the Prior Actuarial Valuation

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2017, the District recognized pension expense of \$7,657,828 and revenue of \$21,702,881 for support provided by the State.

Plano Independent School District

Notes to the Basic Financial Statements

At June 30, 2017, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experiences	\$ 1,840,249	\$ 3,504,428
Changes in actuarial assumptions	3,577,052	3,253,181
Differences between projected and actual investment earnings	9,938,163	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	22,613,865	592,797
Contributions paid to TRS subsequent to the measurement date	8,950,114	-
Total	<u>\$ 46,919,443</u>	<u>\$ 7,350,406</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense (income) as follows:

	Pension Expense (Income)
Year ended August 31:	
2018	\$ 5,430,552

2020	11,769,596
2021	4,943,497
2022	2,990,383
Thereafter	54,343
Total	<u>\$ 30,618,923</u>

Retiree Health Plan

Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit post-employment health care plan administered by the Teacher Retirement System of Texas.

TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants.

Plano Independent School District

Notes to the Basic Financial Statements

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance code, Sections 1575.202, 203 and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1.00% and 0.65% of the public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55%. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee. In addition, the State of Texas contributed \$1,606,411 in 2017 for on-behalf payments for Medicare Part D.

Contributions Made

Contributions made by the State, the District and its employees; and the District's covered payroll for the fiscal years 2017, 2016, and 2015 are as follows:

	2017	2016	2015
Covered Payroll	\$ 350,278,666	\$ 339,263,215	\$ 327,053,718
Contributions made by the State	22,165,309	21,465,116	20,649,844
Retirement plan rate *	6.80%	6.80%	6.80%
Retiree health care rate	1.00%	1.00%	1.00%
Medicare Part D	1,606,411	995,379	961,825
District required and actual contributions to TRS & TRS - Care	6,762,839	5,992,793	5,822,171
Employee contributions to TRS & TRS - Care	26,677,719	24,141,586	21,748,666

The contributions made by the State on behalf of the District have been recorded in the government-wide financial statements and in the fund financial statement of the General Fund as both state revenues and payroll expenditures. These contributions are the legal responsibility of the State.

TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan and TRS-Care. This report may be obtained by contacting the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701.

Note 11. Recapture Payment

Intergovernmental Charges include an amount of \$104,422,755 representing recapture payments made in accordance with the state school finance law.

Plano Independent School District

Notes to the Basic Financial Statements

The state school finance law has capped the amount of property value per student that can be retained by local districts based on the following:

	Tax Effort	2016-17 Wealth per WADA
1st Equalized Wealth Level	\$ 1.00	\$ 514,000
2nd Equalized Wealth Level	0.06	Unlimited
3rd Equalized Wealth Level	0.11	\$ 319,500
	<u>\$ 1.17</u>	

The District's property value of \$632,835 per weighted average daily attendance is significantly higher than the state mandated limit. The amount of tax revenue generated by the excess property value over the state mandated limit is recaptured by the state. The formula for this expense is based on prior taxable value using current year tax collections and current year WADA (weighted average daily attendance). The District's recapture payment for 2016-2017 of \$104,422,755 increased \$44.3 million due to increased property values. Due to prior year adjustments and final settle ups, the District paid \$262,960 to the State.

Note 12. Commitments and Contingencies

The District received financial resources from numerous federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements, subject to audit by the grantor agencies and the Texas Education Agency. Any disallowed claims resulting from such audits could become a liability of the General Fund. However, in the opinion of management, any such disallowed claims, if any, will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District at June 30, 2017.

The District is the defendant in a number of lawsuits arising principally in the normal course of operations. In the opinion of the administration, the outcome of these lawsuits will not have a material adverse effect on the accompanying combined financial statements. A provision for losses has been recorded in the self-funded internal service fund to pay the cost of deductibles associated with the District's professional legal liability insurance.

The District is party to several operating leases for the rental of copier machines and portable buildings. These leases are for various terms with expiration dates through 2022. Payments under the leases for the year ended June 30, 2017 totaled \$1,278,874. Future obligations under the leases are as follows:

2018	\$ 1,197,038
2019	894,798
2020	109,983
2021	109,983
2022	2,515
	<u>\$ 2,314,317</u>

Plano Independent School District

Notes to the Basic Financial Statements

Note 13. Shared Service Arrangements

The District is the fiscal agent for a Shared Service Arrangement (SSA) which provides deaf education services to member districts whose students are enrolled in the Regional Day School Program for the Deaf (RDSPD). In addition to the District, other member districts include Allen ISD, Anna ISD, Blue Ridge ISD, Celina ISD, Community ISD, Coppell ISD, Farmersville ISD, Frisco ISD, Imagine International, McKinney ISD, Melissa ISD, Princeton ISD, Prosper ISD, Richardson ISD and Wylie ISD.

The District, acting as the fiscal agent, receives monies from the granting agencies and administers the program. The fiscal agent is responsible for employment of personnel, budgeting, accounting and reporting. According to guidance provided in the TEA Financial Accounting Resource Guide, Update 15.0, the District has accounted for the activities of the SSA in the appropriate special revenue funds. Additionally, the SSA is accounted for using Model #2 in Section 1.3.1.6 of the Accounting and Reporting Treatment Guidance.

According to the SSA agreement, costs incurred by the RDSPD over and above the amount of state and federal funds received shall be divided among the member districts using a weighted formula based on student services, time and distance to a school.

Expenditures billed to the SSA members as of June 30, 2017 are summarized below:

Allen ISD	\$	107,910
Anna ISD		18,132
Blue Ridge ISD		-
Celina ISD		13,518
Community ISD		4,117
Coppell ISD		-
Farmersville ISD		17,517
Frisco ISD		186,424
Imagine International		3,737
McKinney ISD		174,750
Melissa ISD		16,017
Plano ISD		791,013
Princeton ISD		70,709
Prosper ISD		68,059
Richardson ISD		320,537
Wylie ISD		69,772
		<hr/>
Total	\$	<u>1,862,212</u>

Plano Independent School District

Notes to the Basic Financial Statements

Note 14. Evaluation of Subsequent Events

The District has evaluated subsequent events through November 14, 2017, the date which the financial statements were available to be issued.

In August 2017, the District issued \$108,020,000 in Unlimited Tax School Building Bonds. The proceeds from the issuance shall be for the purpose of construction, renovation, acquisition and equipment of school buildings, the purchase of necessary sites for school buildings, and the purchase of new school buses for the District.

Note 15. New Accounting Pronouncements

The GASB pronouncements effective in fiscal years 2017 and 2018 are listed as follows:

The GASB issued Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB 68 and Amendments to Certain Provisions of GASB Statements 67 and 68, which will be effective for periods beginning after June 15, 2016. The objective of this Statement is to improve usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement applies to all state and governmental entities. This standard became effective for the District in fiscal year 2017. The implementation had no significant effect on the District's financial statements.

The GASB issued Statement No. 79, Certain External Investment Pools and Pool Participants, which will be effective for periods beginning after June 15, 2016. The objective of this Statement is to address for certain external investment pools and their participants the accounting and financial reporting implications that result from changes in the regulatory provisions referenced by previous accounting and financial reporting standards. This Statement applies to all state and governmental entities. This standard became effective for the District in fiscal year 2017. The implementation had no significant effect on the District's financial statements.

The GASB issued Statement No. 80, Blending Requirements for Certain Component Units- an amendment of GASB Statement No. 14, which will be effective for periods beginning after June 15, 2016. The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement applies to all state and governmental entities. This standard became effective for the District in fiscal year 2017. The implementation had no significant effect on the District's financial statements.

The GASB issued Statement No. 81, Irrevocable Split-Interest Agreements, which will be effective for periods beginning after December 15, 2016. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement applies to all state and governmental entities. This standard will become effective for the District in fiscal year 2018. The District has not yet determined the impact of this statement.

Plano Independent School District

Notes to the Basic Financial Statements

The GASB issued Statement No. 82, Pension Issues- an amendment of GASB Statements No. 67, No. 68, and No. 73, which will be effective for periods beginning after June 15, 2017. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement applies to all state and governmental entities. This standard became effective for the District in fiscal year 2018. The District has not yet determined the impact of this statement.

The GASB issued Statement No. 85, Omnibus 2017, which will be effective for periods beginning after June 15, 2017. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). This Statement applies to all state and governmental entities. This standard became effective for the District in fiscal year 2018. The District has not yet determined the impact of this statement.

The GASB issued Statement No. 86, Certain Debt Extinguishment Issues, which will be effective for periods beginning after June 15, 2017. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement applies to all state and governmental entities. This standard became effective for the District in fiscal year 2018. The District has not yet determined the impact of this statement.

The schedules should not include information that is not measured in accordance with the requirements of this Statement."

Plano Independent School District

Notes to Required Supplementary Information

Year Ended June 30, 2017

Note 1. Budgets

The District is required by state law to adopt an annual budget for the General Fund, presented on the modified accrual basis of accounting, which is consistent with GAAP. Annual budgets are also adopted for the Child Nutrition Program and the Debt Service Fund.

The following procedures are used in establishing the budgetary data reflected in the financial statements:

- A. Prior to June 30 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- B. A meeting of the Board of Trustees is then called for the purpose of adopting the proposed budget after giving at least ten days and up to 30 days public notice of the meeting.
- C. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board of Trustees.
- D. Budget data is filed with the Texas Education Agency as a part of the District's annual fall submission to the TEA Public Education Information Management System (PEIMS).

Once a budget is approved, it can be amended at the function and fund level only by approval of a majority of the members of the Board of Trustees. The function level is the legal level of budgetary control and the object level is the administrative level of control. Amendments are presented to the Board at its regular meetings. Each amendment crossing the function level must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board and are not made after fiscal year-end, as dictated by law.

Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Board approval is not required for amendments by department heads that move monies within a function. Budgeted amounts are as amended by the Board of Trustees. All budget appropriations lapse at year-end.

Note 2. Significant Items

Budget Amendments

During the year, numerous budget amendments are approved by the Board in order to redistribute the budget to align specific amounts to meet projected actual expenditures.

The Board also approves appropriations of fund balance to meet budgetary needs that may arise after the original budget is approved.

Plano Independent School District
Notes to Required Supplementary Information
Year Ended June 30, 2017

Significant changes between the original and final budgets in the General Fund include the following:

Type of Revenue/Expenditure	Original Budget	Final Budget	Budget Amendments
Total Local and Intermediate Sources	\$ 518,763,321	\$ 529,069,243	\$ 10,305,922
State Program Revenues	49,276,894	56,530,654	7,253,760
Federal Program Revenues	5,779,070	7,049,317	1,270,247
Food Service	10,280	41,086	30,806
Facilities Maintenance and Operations	41,470,417	59,622,003	18,151,586
Contracted Instructional Services Between Schools	102,129,610	107,808,310	5,678,700
Insurance Recoveries	-	8,336,204	8,336,204

Local Revenue increased due to the finalized taxable property values increasing tax revenue \$8.3M and an increase in interest earnings of \$2.3M.

State Revenue increased due to changes in the state's per capital distribution from the available school fund plus prior year settle up payments.

Federal Revenue increased due to a large settle up on SHARS reimbursements.

Food Service expenditures increased due to the addition of food expenses at the Early Childhood Schools for the all-day Pre-K programs added.

Facilities Maintenance and Operations budget was increased for expenditures related to the repairs of roof and other property damaged by the 2016 hail storms.

Contracted Instructional Services between Schools was increased due to final changes in the school finance formula and the final weighted average daily attendance.

Increase in Insurance Recoveries reflects the receipt of Insurance Proceeds related to damages to district property in the 2016 hail storms.

Excess Expenditures

The Budgetary Comparison Schedule for the General Fund indicates three areas with an excess of expenditures over appropriations for the year ended June 30, 2017 as follows:

Type of Expenditure	Final Budget	Actual	Actual Over Budget
Instructional Leadership	\$ 3,263,764	\$ 3,292,935	\$ (29,171)
Guidance, Counseling and Evaluation Services	19,814,103	19,942,475	(128,372)
Extracurricular Activities	7,225,046	7,455,985	(230,939)

Instructional Leadership expenditures was in excess of final budget in the amount of \$29,171. The expenditures are related to salary and the final budget projection was under budget due to the final calculation of TRS on Behalf.

Guidance, Counseling and Evaluation Services expenditures was in excess of final budget in the amount of \$128,377 which relates to salary and the final budget projection was under budget due to the final calculation of TRS on Behalf.

Plano Independent School District
Notes to Required Supplementary Information
Year Ended June 30, 2017

Extracurricular Activities expenditures was in excess of the final budget in the amount of \$230,899. The expenditures are related to salaries and an increase in student travel for competitions that took place in June 2017.

Total expenditures did not exceed the budget.

Pension Liability

Actuarial Assumptions -The information presented in the required supplementary schedules was used in the actuarial valuation for determining the actuarially determined contribution rate and the net pension liability in accordance with GASB 67. Actuarial methods and assumptions used for funding purposes can be found in the Actuarial Section. The GASB 67 assumptions are as follows:

Valuation date	August 31, 2016
Actuarial method normal	Individual Entry Age Normal
Asset valuation method	Market Value
Single discount rate	8.00%
Long-term expected investment rate of return	8.00%
Inflation	2.50%
Salary increases including inflation	3.50% to 9.50%
Payroll growth rate	2.50%
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

Changes Since the Prior Actuarial Valuation

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Statistical Section
(Unaudited)

This section of the Plano Independent School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, notes, and required supplementary information says about the District's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the District's financial performance and well - being have changed over time.	101
Revenue Capacity	
These schedules contain information to help the reader assess the District's most significant local revenue source, property taxes.	109
Debt Capacity	
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the ability to issue additional debt in the future.	113
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	116
Operational Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and activities it performs.	119

Source: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

¹ Early Childhood School Enrollment - students are 1/2 day students

² Reduction is due to recalculations of square footage of several facilities, most notably the removal of the Annex portion of the Cox Building (which is not owned by PID) and the transfer of the Academy High School to the High School Buildings portion of this exhibit.

Reports on Internal Control, Compliance, and Federal Awards

Teamwork for Excellence

P L A N O
Independent School District

**Independent Auditor's Report on Internal Control over Financial
Reporting and on Compliance and Other Matters Based on an Audit
of Financial Statements Performed in Accordance
with Government Auditing Standards**

Board of Trustees
Plano Independent School District
Plano, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Plano Independent School District (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 14, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Board of Trustees
Plano Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Weaver and Tidwell LLP".

WEAVER AND TIDWELL, L.L.P.

Dallas, Texas
November 14, 2017

**Independent Auditor's Report on Compliance for Each Major Federal
Program and Report on Internal Control over Compliance
in Accordance with the Uniform Guidance**

Board of Trustees
Plano Independent School District
Plano, Texas

Report on Compliance for Each Major Federal Program

We have audited Plano Independent School District's (the District) compliance with the types of compliance requirements described in the U.S. *Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance that is considered a significant deficiency, as described in the accompanying schedule of findings and questioned costs as item [2017-001].

The District's response to the internal control over compliance finding identified in our audit is described in the accompanying corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Plano Independent School District

Notes to Supplemental Schedule of Expenditures of Federal Awards

Year Ended June 30, 2017

1. The District utilizes the fund types specified in the Texas Education Agency Financial Accountability System Resource Guide.

Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state awards generally are accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified grant periods.

2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in the General Fund or Special Revenue Funds which are both Governmental Fund types. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

3. The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance, Part 3, Office of Management and Budget (OMB) Compliance Supplement.
4. The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with rules and regulations governing the grants, refund of any money received may be required and the collectability of any related receivable at June 30, 2017 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

Notes to Supplemental Schedule of Expenditures of Federal Awards

Year Ended June 30, 2017

5. The information in Schedule of Expenditures of Federal Awards is presented in accordance with the requirements of Single Audit Amendments of 1996 and *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. The following table reconciles total expenditures per the Schedule of Expenditures of Federal Awards (Exhibit K-1) to Federal Program Revenues per Exhibit C-3:

Total Expenditures of Federal Awards per Exhibit K-1	\$ 29,538,386
Reimbursements received from the Federal School Health and Related Services	4,847,811
Rebates received from the Federal Government for Build America Bonds	<u>1,677,421</u>
Total Federal Program Revenues per Exhibit C-3	<u>\$ 36,063,618</u>

6. The District has not elected to use the 10% de minimis indirect cost rate.

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

II. Findings Relating to the Financial Statements Which Are Required To Be Reported in Accordance with *Generally Accepted Government Auditing Standards*.

None

III. Findings and Questioned Costs for Federal Awards Including Audit Findings as Described in 1.f Above

Finding 2017-001

10.553, 10.555, 10.559 — Child Nutrition Cluster Department of Agriculture, passed through the State Department of Agriculture

Special Tests and Provisions- Verification — Significant Deficiency in Controls over Compliance and Compliance Finding

Criteria — According to the April 2017 OMB Compliance Supplement, the District must select and verify the required sample of approved free and reduced price applications and make the appropriate changes to eligibility status.

Condition — During our special tests and provisions testing, we identified five instances where the information included in the income support differed from the information entered by the District.

Likely Questioned Costs — \$996.51

Context — During our review of 24 applications, we noted 3 instances in which the amount entered did not match the income support and 2 instances in which the pay frequency entered did not match the income support.

Effect — Failure to properly input the correct information in the system led to one instance in which the student did not meet the requirements to be included as "Free" or "Reduced" and therefore should have been removed from the program, as well as, two instances in which the student did not meet the requirements to be included as "Free" and therefore should have been moved to "Reduced".

Cause — There is no review of the verification calculations performed by the Administrative Assistant of Food and Nutrition.

Recommendation — We recommend that the District add a review of the verification calculations performed by the Administrative Assistant of Food and Nutrition.

View of Responsible Officials — See corrective action plan

IV. Corrective Action Plan

Finding 2017-001 Special Tests and Provisions- Verification

Responsible Party — Cynthia Lee

Management Response — Management acknowledges finding

Plano Independent School District

Schedule of Findings and Questioned Costs

Year Ended June 30, 2017

Corrective Action — Food and Nutritional Services will continue to review and update procedures for verification. Several professional learning and training opportunities will take place yearly to ensure compliance.

The following procedures are now in place to correct deficiencies for verification:

- Yearly professional learning and training
- Verification summary report will have three different staff to review, verify and sign off
- February 2018-the district internal auditor will review Food and Nutritional Services verification internal control process and continue to monitor periodically

Expected Completion Date — June 30, 2018
