# Comprehensive Needs Assessment

Revised/Approved: September 10, 2021

## Demographics

### Demographics Summary

There has been a decrease in overall student enrollment, roughly 23%, from 2016/17 to the current school year of 2021/22. However, the Economically Disadvantaged rate and the ELL rate has not decrease at the same rate as overall enrollment. In constrast, the ELL rate has increased 12.5% from 2016/2017 to the current year of 2021/2022.

### Demographics Strengths

The enrollment stayed consistent from 2020/21 to 2021/22, even during a pandemic year.

### Problem Statements Identifying Demographics Needs

**Problem Statement 1:** There has been a decrease in overall student enrollment, roughly 23%, from 2016/17 to the current school year of 2021/22. However, the Economically Disadvantaged rate and the ELL rate has not decrease at the same rate as overall enrollment. In constrast, the ELL rate has increased 12.5% from 2016/2017 to the current year of 2021/2022.

# Student Learning

## Student Learning Summary

**Barron Elementary Goals Including HB3 Goals:** (see tables in addendum): Individual goals are set for each student group with the expectation of high standards as well as to narrow the gap between each group and the All Students group. If the student group is below the All Students group, that student group's goal for 2024 is to narrow the performance gap by half as well as meet the overall percentage increase in the STAAR Meets Grade Level performance required for the All Students group.

## Problem Statements Identifying Student Learning Needs

**Problem Statement 1 (Prioritized):** The Spring MAP to STAAR projections for 2021 Reading STAAR indicates that there is a decrease in all student groups for the approaches and meets levels. On average, 67% of our Economically Disadvantaged groups scored at Approaches level compared to 68% in the district. On average, 19% of our Economically Disadvantaged groups scored at the Meets level compared to 36% at the district level. **Root Cause:** There was a lack of consistent delivery of guided reading as well as a gap in teachers' knowledge of best practices in the instruction of guided reading.

**Problem Statement 2 (Prioritized):** The Spring MAP to STAAR projections for 2021 Math STAAR indicates that there is a decrease in all student groups for the approaches and meets level. On average, 62% of our Economically Disadvantaged groups scored at Approaches level compared to 62% in the district. On average, 16% of our Economically Disadvantaged groups scored at the Meets level compared to 25% at the district level. **Root Cause:** There was inconsistency with small group math instruction. There was inconsistency with the targeted and intentional instruction due to an inconsistency of rigorous and targeted stations that allowed for spiraling of the standards.

**Problem Statement 3 (Prioritized):** The district writing assessments indicate that a higher percent of Barron students in 4th grade scored below a 2 than any other grade. in 4th grade, 62% of the students scored below a 2 on the district rubric compared to an average of 6% in grades Kinder, 1st, 2nd, 3rd and 5th. **Root Cause:** There was a lack of understanding about the scoring rubric and the changes in for each collection (BOY, MOY and EOY). There was a lack of training about the variety of resources and how to choose the best ones for the needs of the students.

**Problem Statement 4 (Prioritized):** The district reading record analysis indicates that, on average, 69% of the Barron students that begin the year reading below grade level do not move (or grow) to on level reading by the end of the year. **Root Cause:** There was a lack of targeted instruction (in the area of guided reading) and inconsistency with differentiated instruction. There was a lack of intentional vocabulary instruction with a focus on increasing oral language proficiency.
